### 23.4.3 SUBMISSIONS ON THE 2023 - 24 ANNUAL PLAN CONSULTATION DOCUMENT

Doc ID: 653246

#### 1. Purpose of Report

To consider the submissions to the 2023-24 Annual Plan Consultation Document on matters relating to the Vincent ward.

---

#### Recommendations

That the Vincent Community Board

- A. Receives the report and accepts the level of significance.
  - B. Considers the submissions and decides on the action that should be taken.
  - C. Recommends to Council the action the Board would like taken as a result of the submissions.
- 

#### 2. Background

The Annual Plan consultation opened on 3 April 2023 and closed on 1 May 2023.

The annual planning cycle presents an opportunity to hear from the community on key items that were not consulted on in the last Long-term Plan, and any other aspects of the Annual Plan. This year there was one consultation item, a proposal to support Icelnline with a grant towards the construction of a roof over its ice rink at Molyneux Park in Alexandra.

Promotion of the 2023-24 Annual Plan Consultation Document included:

- Public notice in the Otago Daily Times on 3 April 2023
- Hard copies were made available at the Alexandra office and Cromwell Service Centre
- Facebook posts on 6 April, 17 and 26 April 2023
- Shares on Elected Member Facebook pages
- Discussion on Mayor Tim's Facebook Live sessions
- Media releases
- Notice in CODC Noticeboard in The News on 6, 13, 20, 27 April 2023
- Advertising in the Central App in April 2023 was viewed 48,904 times, with 198 people clicking forward to the Let's Talk consultation page
- Digital displays on screens in Council office and libraries.

A total of 175 submissions were received through the Let's Talk consultation platform.

### 3. Discussion

#### Icelnline – Funding Options

The 2023-24 Annual Plan Consultation Document focused on receiving community feedback on the funding options for the Icelnline ice rink at Molyneux Park. Respondents were asked to choose between four funding options, including an option to not support with any funding.

The options together with the responding support are summarised in the table below.

Option Details	Impact on Vincent Ratepayers	Number of Respondents in Support**
<b>Option 1*</b> Fully rate funded over 20 years	\$3.91 per annum (0.76% rates increase) for 20 years.	111
<b>Option 2</b> 50/50 rate funded/reserves	\$2.57 per annum (0.50% rates increase) for 20 years.	22
<b>Option 3</b> Fully grant funded	\$1.23 per annum (0.24% rates increase) lost interest revenue.	34
<b>Option 4</b> Do not support with any funding	\$0	12

*\*Option 1 is what has been included in the rates calculations and financial statements supporting this consultation document.*

*\*\* Eight of the respondents selected more than one option, for example, Option 1 and Option 2. As a result, there are eight additional responses that should not have been included. These additional responses do not substantially change the results.*

#### Comments supporting funding for IcelnLine Roof (33)

These responses could be grouped into three themes. The first theme was expressions of general support for construction of the roof on the ice rink, most citing the valuable asset the roof would be for the community. The second theme focused on the ability to extend the season for ice sports and prevent cancellation of events due to poor weather. The third theme focused on the benefits to the larger community, when events can be held at the ice rink, drawing more people into town. Many people felt like this improvement was a long time coming.

*“It’s a no brainer, the sooner the better. Happy to pay more rates for improvements around our district such as this.”*

*“This would be a great initiative to bring more people to the area.”*

### Comments opposing the funding for IcelnLine (11)

These responses had two main themes, a general desire to cut spending and a concern that it should be the responsibility of IcelnLine, not ratepayers to raise their own funds for this project.

*“Time to cut spending.”*

*“The club should raise funds themselves. Not enough community members use this facility and its not open for long enough for it to be rate payer funded.”*

### Support from outside the Vincent Ward (26)

While the Vincent Community Board is the delegated authority to consider submissions on this proposal and make a recommendation to the Council, there is interest in this project from Cromwell residences. Of the 167 respondents in support of funding this project 26 lived in Cromwell. The balance lived in the Vincent ward.

Cromwell residents' comments included:

*“This has taken 20 years to come even close to completing an assets that will benefit the whole region economically. Get it done already !”*

*“We live in Cromwell but use the facility a lot over winter.”*

*“The ice rink is a great asset to the region and further improvements would be money well spent”*

Please **see appendix 1** for all submissions in relation to the Vincent Ward, together with staff comments, for the Vincent Community Board's (the Board) consideration.

In addition to the formal submissions, there were 139 comments in response to a Facebook post on 6 April promoting the consultation. While these comments are outside of the official process they have been provided for information. See **appendix 2**.

## 4. Options

### Option 1 – (Recommended)

Consider the submissions and recommend to Council the action the Board would like taken as a result of the submissions.

Advantages:

- Follows due process as set out in the Local Government Act 2002.
- Enables the Board to hear and consider community views before making a recommendation to Council.

Disadvantages:

- None identified

Option 2

Do not consider the submissions and recommend to Council the action the Board would like taken as a result of the submissions.

Advantages:

- None identified.

Disadvantages:

- Does not follow due legal process.
- Does not meet the expectations of the community.
- Risk of not meeting statutory deadlines to enable rates to be struck.

## 5. Compliance

<b>Local Government Act 2002 Purpose Provisions</b>	This decision enables democratic local decision making and action by, and on behalf of communities by considering the views of the community in setting the 2023 - 24 Annual Plan.
<b>Financial implications – Is this decision consistent with proposed activities and budgets in long term plan/annual plan?</b>	This paper is consistent with the budgets presented in the draft 2023 - 24 Annual Plan documentation.
<b>Decision consistent with other Council plans and policies? Such as the District Plan, Economic Development Strategy etc.</b>	Yes this paper is consistent with all Council plans and policies.
<b>Considerations as to sustainability, the environment and climate change impacts</b>	Considerations to climate change occur throughout the long-term plan documentation, and are specifically considered in the infrastructure strategy.
<b>Risks Analysis</b>	There is no risk to the Board in considering this paper and the public submissions on the 2023 - 24 Annual Plan.
<b>Significance, Consultation and Engagement (internal and external)</b>	The draft 2023 - 24 Annual Plan has been publicly consulted on following the process in the Local Government Act 2002.

## 6. Next Steps

The Board's recommendation will be considered by Council at their meeting on 31 May 2023.

1	Dr Barrie	WILLS	Am submitting as an individual member of the Manorburn Curling Club	Vincent (Alexandra and surrounds)	Yes - VCB	Option 1: Fully loan funded	On behalf of the Combined Curling Clubs (Manorburn & Alexandra) I have been organising the Macrae Trophy Competition for over a decade now, involving some 25 teams traveling from as far away as Gore & Arrowtown. The competition involves 2 full days round robin play per week on the outdoor rink during May & June with finals in July. Inevitably we have frustrating postponements & cancellations due to weather which the new roof will help prevent, therefore it is imperative that we get this project, already well organised and supported, completed. Community-based funding to top up the required monies will benefit the many groups that utilise the outdoor rink including social and kids curling, competitive curling (possibly bonspiels if natural ice is not available), plus skating, ice hockey etc.	Parks and Recreation	Comment is noted and considered.
2	Jon	Foote	on behlaf of Alexandra Ice Skating Club	Vincent (Alexandra and surrounds)	Yes - VCB	Option 1: Fully loan funded			
3	Anthea	Lawrence	as an individual	Cromwell	No	Option 1: Fully loan funded	We live in Cromwell but use the facility a lot over winter.	Parks and Recreation	Comment is noted and considered.
4	Helen	Sanders	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	This needs to go ahead to enable an extension for the ice season for all users and people visiting the area. We have a great and unique facility here in Alexandra let's make the most of it which in turns helps promote our town and local business will thrive. It's a no brainer let get on with it.	Parks and Recreation	Comment is noted and considered.
5	Kylie	Stewart	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	This is a long overdue project that would benefit the whole region	Parks and Recreation	Comment is noted and considered.
6	Mike	Sangster	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	The roof for IceInline is very overdue. This complex is a great asset for the community and so many local family's use this venue over the winter months. With the seasons & weather changing a roof over the ice rink would make the season & ice time a lot more guaranteed for all skaters / family's.	Parks and Recreation	Comment is noted and considered.
7	Steve	Phipps	as an individual	Cromwell	No	Option 1: Fully loan funded	The ice rink is a great asset to the region and further improvements would be money well spent	Parks and Recreation	Comment is noted and considered.
8	Mark	Willyams	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	Thanks for supporting and advancing the riverside project. Any possibility of adding a pedestrian/cycle clip on bridge attached to main bridge similar to one at Bannockburn?	Infrastructure	Investigation and design costs for a clip-on to Alexandra's main bridge are already included in the Annual Plan.
9	James	Nation		Not applicable	No	Option 1: Fully loan funded	Sport Otago/ Sport Central support the proposal to put a roof over the ice rink in Alexandra. The roofing of the ice rink was identified as a priority in the 2020 Queenstown Lakes - Central Otago Sub-Regional Sport and Recreation Facility Strategy. CODC has supported the work of our Sport Central team since its establishment in 2001. We are extremely grateful for this ongoing support. We would like to signal as part of this submission our intent to apply through the Council Grants process for continued financial support from Council for our Sport Central mahi.	Parks and Recreation	Comment is noted and considered.
10	James	Mccallum	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	It's a no brainer, the sooner the better. Happy to pay more rates for improvements around the district such as this.	Parks and Recreation	Comment is noted and considered.
11	Jo	Mckenzie	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	It would be better to see the money spent on an indoor netball/basketball/soccer/cricket nets/ conference rooms complex that maybe could be located near the swimming.	Parks and Recreation, Property and Facilities	Noted as these suggestions were not being consulted on
12	Suzanne Stelmock	Stelmock	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	It is very little to pay to extend the season and improve the ice so that more can enjoy this rink-particularly as population grows. It may also reduce maintenance! If this can be reduced through other contributions then even better.	Parks and Recreation	Comment is noted and considered.
13	Jeanette	King	as an individual	Not applicable	No	Option 1: Fully loan funded	IceInLine have done an outstanding job raising so much of the funding towards putting a roof over this facility. A roof over the rink will extend the skating season and open up opportunities for additional ice skating events to be held. The risk of weather disruption is one of the main reasons why significant figure skating competitions aren't able to be held in Alexandra. Addressing that risk opens the way to hosting events that will draw people in from around the country during the winter months	Parks and Recreation	Comment is noted and considered.
14	Amber	Nyhon	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	I have been a figure skater since I was 3 years old, I am now 38, I learnt to skate on the old Mannerburn dam rink, as a club we have literally been talking and fundraising for this roof since then! 35 years! This would be such a wonderful project to invest in, for the whole community 🙌🏻💪🏻	Parks and Recreation	Comment is noted and considered.
15	Jeanine	Bell	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	Honestly the cost is so small annually that I think just get it done with the loan option. An extended ice season benefits the community as a whole, not just ice users due to increased visitor numbers from tournaments and competitions. The reserves could be saved other projects or community sporting facilities.	Parks and Recreation	Comment is noted and considered.

18	Gunther	Birgel	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	As former NZ Ice Hockey President I fully support the roof extension to the current ice rink. Ice sports is in the Central Otago's DNA and will allow a longer season and be better prepared for any competitions. It will also bring more business to town with the ability to host competitions in all weather conditions. The sport of ice hockey is growing nationally and with a weather secure facility our region will be able to contribute to this.	Parks and Recreation	Comment is noted and considered.
19	Chris	Beilby	as an individual	Vincent (Alexandra and surrounds)	No	Option 1: Fully loan funded	As far as I am aware the rink here in Alexandra was built to the specifications for competitive skating/ice hockey, whereas many others are smaller. As rate payers, my late husband and I along with many other citizens donated money towards shifting the artificial ice from the Manorburn Dam into town, making this outdoor winter activity more accessible to a wider number of people. As a result of this most of our local children have the opportunity to experience this winter sport. All schools have the opportunity to use this facility for their PE/OE programmes, with Ice In Line offering a good deal for entry/skate hire and coaching in figure skating, curling and also ice hockey for the older students. With the rink having a roof these programmes would no longer be weather reliant and the time frame for all schools to book suitable session slots would be extended. Note that since the ice has been available here in Alexandra, curling has been available to learn (thank you Bruce), there has been an all weather curling venue added to the site and this sport has increased in popularity. Curling and ice hockey both have clubs that use this facility and attract visiting teams to our town, as well as the Ice Skating Club who host competitive events as well as providing Kiwiskate programmes and opportunities for advanced skaters to have private lessons with qualified coaches. Once again these activities are weather dependent. A roof would keep the rain and the sun off the ice allowing for consistent ice conditions for a longer season. The rink is also a popular gathering place for our young people with discos, holiday programmes etc available, activities that I believe our council should support/encourage for the youth of our district.  I would like to think that our council/ratepayers take this opportunity to help complete the dream of a covered ice rink, that so many associated with Ice In Line have put their hearts and souls into, working tirelessly to fundraise for since the initial relocation into Alexandra.  We too, could be like Gore with a vibrant sports hub area.	Parks and Recreation	Comment is noted and considered.

Commuity and Engagement	The Communications and Engagement team will continue to look into new ways of connecting with the community, and agrees with the submitter's comment that with a growing and changing demographic we need to work especially hard at this.
113	Aimee	Wilson	as an individual	Vincent (Alexandra and surrounds)	No	Option 2: 50/50 reserves/loan funding	Some of our local skaters are good enough for national level competition, but our season is too short & they have to travel for miles to practise. A roof will extend the ice season and I am confident that summer use will follow as it has in the past. Additional income for local business will also be generated from the many visitors that will be drawn to Alexandra to use this facility year round. 133	Andrew	Clark	as an individual	Vincent (Alexandra and surrounds)	No	Option 3: Fully grant funded	The roof over the Ice Rink will future proof the rink. Has the roof been designed to allow solar panels to be fitted later? The generation capacity of that large a surface area would be good for the rink and Pioneer energy.	Parks and Recreation	This is not a Council project but Icein Line have advised that solar is an option to investigate and the roof can support large scale solar.
134	Anton	Kirkbeck	as an individual	Vincent (Alexandra and surrounds)	No	Option 3: Fully grant funded	The amount requested is relatively small compared with the benefits this facility creates, hence it should be a full grant rather than a loan. 136	Noel	McCrostie	as an individual	Vincent (Alexandra and surrounds)	No	Option 3: Fully grant funded	I support a roof over the Alexandra ice rink as this will be an asset to the community	Parks and Recreation	Comment is noted and considered.
137	Melissa	McCallum	as an individual	Vincent (Alexandra and surrounds)	No	Option 3: Fully grant funded	Extending the usage of the ice rink by adding a roof should be a no brainer for Alexandra. The winter months and rainy days can be long and boring, the roof will not only extend the ice skating season giving locals more to do during those colder months it will bring money into the local economy with no weather interruptions for ice skating events. The roof could also future proof the business by provide shade during the summer seasons giving the rink other opportunities such as roller skating or a venue for kids/school summer functions.	Parks and Recreation	Comment is noted and considered.
138	Barbara	McCrostie	as an individual	Vincent (Alexandra and surrounds)	No	Option 3: Fully grant funded	Covering the ice rink is a must! This has been talked about for too long with no action happening. The ice rink covers all ages, and so many activities both for locals and tourists. The season is too short without the roof.	Parks and Recreation	Comment is noted and considered.
139	Robyn	Morris		Not applicable	No	Option 3: Fully grant funded	As a fellow Ice Skating organisation who voluntarily run an Ice Rink for use by not only club members but the general public, Ice Sports Southland are in full support of the plan to cover the existing rink with a roof. This will allow for increased use of the rink by extending the season and eliminating closures due to weather conditions. The additional people that will visit the area to utilise the facility will have an economic benefit to the region due to the other spending they will do while their. We currently have Alexandra skaters and hockey team who travel to our rink to take part in competitions and undertake training when there is no ice available in Alexandra. This is a big commitment for these skaters and players due to the travel cost and time involved. It will be a benefit to both Figure skating and Ice Hockey in the lower South Island by having another covered rink available to host tournaments and competitions.	Parks and Recreation	Comment is noted and considered.

140	Robyn	Morris		Not applicable	No	Option 3: Fully grant funded	Alexandra Ice Skating Club are affiliated to the NZIFSA and are actively engaged in promoting figure skating in Central Otago. In addition to running a successful KiwiSkate (Learn-to-Skate) programme, AISC have singles skaters who train regularly at the rink and who compete locally, regionally and at a national level. What these skaters are able to achieve in a 12-week season is quite impressive, however, their development is limited to some extent by their short season. Being able to extend their skating season is likely to result in much stronger results for this very committed community of skaters.  Alexandra Ice Skating Club also hosts KiwiSkate Coaching Courses at times, and hosts both Club and Sub Association Championships. However, AISC are not able to host the South Island Figure Skating Championships, the NZ National Championships, or higher level training camps, because of the potential risk of disruption due to adverse weather conditions and the current short opening time frame. Any competitions that are currently hosted must also be done using a manual system as our computer equipment needed to run a competition is not suited to being used in uncovered outside conditions.  A roof over their ice surface will allow them to extend their skating season and provide a better ice surface for figure skating activities, along with other opportunities to host Figure skating events. NZIFSA are very supportive of this project as it will enhance and further develop figure skating in the Central Otago region.	Parks and Recreation	Comment is noted and considered.

160	Melanie	Wethey	as an individual	Vincent (Alexandra and surrounds)	No	Option 3: Fully grant funded, Option 4: Do not support with any funding	My children use the ice skating rink and we like the idea of an extended season as a consequence of a roof, but unfortunately any rate increases disproportionately affect my family due to being a large land holder and working farm. The Vincent Spatial Plan was completed last year which identifies suitable areas for development in the Vincent area to cover expected growth over the next 30 years.
165	Alec	Beange	as an individual	Vincent (Alexandra and surrounds)	No	Option 4: Do not support with any funding	If the funding does go ahead, please make the building visually appealing, unlike the curling rink which is basically a farm shed. There was no thought to the fact that the structure is one of the first buildings visible when driving into Alexandra. Completely unnecessary and a waste of taxpayers money.	Parks and Recreation	Noted with comments to be passed on to Iceinline.
166	Justin	Richmond	as an individual	Vincent (Alexandra and surrounds)	No	Option 4: Do not support with any funding	I would however support funding for cameras, speed bumps and a police salary for the young hooligans racing up and down the streets during weekends and Friday nights, slamming the sides of their cars and causing disruption until midnight on a weekly basis.	Business Support, Infrastructure	Policing is an activity that is funded by central government through taxes, so police staffing is not an area in the Vincent Community Board's control.

168	Tammy	Peart	as an individual	Vincent (Alexandra and surrounds)	No	Option 4: Do not support with any funding			
169	Lynne	Smith	as an individual	Vincent (Alexandra and surrounds)	No	Option 4: Do not support with any funding			
170	William	Smith	as an individual	Vincent (Alexandra and surrounds)	No	Option 4: Do not support with any funding			

## Appendix 2: Informal Feedback

On 6 April, CODC made the following post on Facebook promoting the Annual Plan consultation, focusing on the key issue, the proposal to support Iceinline Central with a grant towards the construction of a roof over its ice rink at Molyneux Park. This post elicited 139 comments, the results of which are captured in the chart below. 138 comments were in support, and one opposed.

The term "support" is interpreted to mean either general support for construction of a roof over the ice rink, or support for the Council's role in funding the ice rink roof construction. Support does not necessarily mean support for any one of the three specific options

provided in the formal consultation. The term “oppose” could be interpreted to mean opposition either to the construction of the ice rink or opposition to the Council’s role in funding the ice rink roof construction.

One must use caution when analysing this data because the comments were brief and may not reflect thoughtful consideration of the various aspects of this project, including cost, impact on ratepayers and a variety of funding options that were provided to those who responded through the formal submission process.
