It appears to be mainly about degrees of separation and the ability to collaborate. Its not a systems wide approach and is not addressing the fundamental causes of why we have to now treat our water so heavily in the first place. It disconnected from the way we manage our wider environment and the inherent ecological health of our land systems - urban and rural. How we manage and treat our urban and rural land and our waste, is directly connected to the health of our water and water ways. Our blind obsession with growth so totally disconnected from the health and vibrant function of our environment and resource use within planetary boundaries is key to our future wellbeing. We need to change our incentives if we are to have an enduring thriving future.

Q14.	**Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

Good Healthy Water is becoming scarce, increasing price should modify how we value and utilise it. But is only part of a suit of changes required in our water management across the district.

Q16. **Please select your preferred option.**	Option B: Maintain the current level of support that Council provides for all of the halls and facilities listed above.
Q17. **Which hall/facility would you like to comment?**	not answered

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

not answered

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Outdoor swimming is a superior swimming experience to indoor. I struggle to accept the costs as outlined.

Q48. **Which option do you prefer?** Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

I have a concern with this investment in terms of priority, when the council needs to relocate the current Omakau waste treatment and has a defective town water supply and is considering divesting the Ophir, Poolburn and Becks Halls. Not provided or explained is the opportunity costs of using Vincent General Reserves. Insufficient information to make an informed decision.

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

This is poor use of tourism reserves budget and is environmentally adverse given our meta crisis. I suggest it can be better spent on mitigating the effects of growing tourism on the local community and 'our world of difference' It could be better used on our heritage in the form of upgrading tired interpretation, heritage restoration; maintaining our unique and distinctive heritage - Vallance Cottage; Clyde Heritage etc

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?** Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

This is a key investment in our youth promoting and encouraging active outdoor recreation. Mental and physical health and well being.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Refer attached PDF

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Ranfurly Hall Waipiata Hall

Q18. Would you like to comment on the Ophir Hall?

not answered

Q19. Would you like to comment on the Poolburn Hall?

not answered

Q20. Would you like to comment on the Clyde Police Lockup?

not answered

Q21. Would you like to comment on the Clyde Railway Station Building?

not answered

Q22. Would you like to comment on the Former Clyde Museum Stables & Goods Shed?

not answered

Q23. Would you like to comment on Blyth Street Museum, Clyde?

not answered

Q24. Would you like to comment on Clyde Hall?

not answered

Q25. Would you like to comment on Becks Hall?

not answered

Q26. Would you like to comment on Vallance Cottage?

not answered

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

The Ranfurly Hall is part of the core of the Maniototo. This is used not only for local productions, but also by both local schools, prizegivings, exercise classes, plus many other local events. As I understand there has been upgrades made by local groups expecting this to be available for the future use eg lighting. Given the size of the building and location this building should continue to be supported by the council

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. **Would you like to comment on the Walplata Hall?**

Given the location this hall is a hub for the local area to gather and use as seen by the moderate level of bookings

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** — Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

Great opportunity for local tourism and to showcase the area

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

This is used by both Maniototo Area School and St John's School along with the rest of the community in weekends and after school . This upgrade is vital to support local families and their children's aspirations for sport at a local level all the way through to National Level. Being a current parent of sports players if this upgrade wasn't to go ahead the next closest turf facilities are over 1 hour away. Given the amount of travel Maniototo parents travel during regular summer and winter sport seasons, the local families dedication to provide their children the same opportunities as those in Alexandra, for example, is to be commended. Many hours and kilometres are spent weekly travelling often multiple days a week. Not only is there a physical aspect in sport but also bringing the community together and giving everyone a chance to chase their dreams as already shown by local Maniototo people going on to represent New Zealand at their chosen sport. I highly recommend this be included in the LTP to offer everyone the same opportunities as those in Alexandra, Cromwell despite our remote location

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?** not answered

Q59.	**How did you hear about this engagement opportunity? You may tick more than one.**	Social media Word of mouth

Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	[redacted]
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

It's very surprising that the volumetric charge has not increased since it was introduced. This step is long overdue, though I would like to have seen the fixed charge dropped even more.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Other

Q18. Would you like to comment on the Ophir Hall?

not answered

Q19. Would you like to comment on the Poolburn Hall?

not answered

Q20. Would you like to comment on the Clyde Police Lockup?

not answered

Q21. Would you like to comment on the Clyde Railway Station Building?

not answered

Q22. Would you like to comment on the Former Clyde Museum Stables & Goods Shed?

not answered

Q23. Would you like to comment on Blyth Street Museum, Clyde?

not answered

Q24. Would you like to comment on Clyde Hall?

not answered

Q25. Would you like to comment on Becks Hall?

not answered

Q26. Would you like to comment on Vallance Cottage?

not answered

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

I don't have sufficient knowledge to comment on any individual hall. It would seem reasonable to divest properties that have had little or no use and are not open to the public. However, if they are to be divested the council should consider the matter very carefully as it will be irreversible. If sold could it be with covenants to preserve the clearance of the properties?

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?**	Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Very reluctant to select Option A. The outdoor pool is a point of difference to other towns. It has become a hub for the Ice swimmers and so draws people to the town. However Ii have never been in it and feel it would be hypocritical to go for option B. I can see the cost savings, especially if CODC takes on the management of the Roxburgh Pool.

Q48. **Which option do you prefer?** Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

This should not be supported. Supercars is a commercial enterprise. There are far more worthy projects that should receive this money.

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Seems reasonable to view this as maintenance and enhancement of an existing facility.

Q54. **Which option do you prefer?** Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

The proposed plan makes very little mention of parks and recreation reserves. The Halfmile has received a lot of publicity and appears to be well managed, the Lower Manorburn management plan is a welcome development. Part of the Pine forest between SH8, the Pines housing estate and the Ngapara ponds is also gazetted as a recreation reserve. The remainder of the forest, which is also owned by CODC, should be added to the reserve so that it is preserved in perpetuity. This would be some compensation for loss of public land historically used for recreation between SH 8 and Dunstan Road.

Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

Water issues in Naseby need to sorted as status quo not working.

Q14.	**Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

We have bigger population of cribbies in Naseby over general population.

Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ranfurly Hall
Naseby Hall
Naseby General Store
Centennial Milk Bar

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

A local performance hall that has facilities for full theatre.

Q30. **Would you like to comment on the Naseby Hall?**

This historic hall is loved by the community where there are few meeting spaces available to larger groups. It is key for community meetings, celebrations, Anzac Day, etc. The Council should be obliged to provide a community space in a small town.

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

This is the only store in the township providing groceries, essential supplies, fresh supplies, is a tourist info hub and provides the post service facilities & post boxes in the area. It also provides a social hub for the community with notice boards, and the interaction that happens each day of the year.

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

not answered

Q54.	**Which option do you prefer?**	not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Fees for environmental health audits should have a tiered fee system based on size of operation - for eg. a small one person business that might sell at a farmers market, etc and low volumes should be charged less than a business that produces higher volumes, more staff, bigger operation, etc to be fair to a small start up business for eg.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58.	**Would you like to upload any supporting documents?**	not answered
Q59.	**How did you hear about this engagement opportunity? You may tick more than one.**	Word of mouth **Other (please specify)** Via Naseby Vision engagement.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

As the First Vice President and President-elect of the Cromwell Lions Club, I am authorized to speak on behalf of our organization. The Cromwell Lions Club supports the draft 2025-2034 long-term plan submission made by the Friends of Cromwell Cemetery. We share their deep concern about the deteriorating condition of the Cromwell Cemetery on Cemetery Road and the lack of basic facilities. We wholeheartedly endorse the recommendations made by the Friends of Cromwell Cemetery to improve the site, making it a place of pride and respect for those who rest there, as well as for their friends and families who visit. The Cromwell Lions are a resourceful group with a history of successful collaboration with the CODC on various community projects. We are eager to work alongside the Friends of Cromwell Cemetery, other community groups, and the CODC to swiftly restore the Cromwell Cemetery to a state of which we can all be proud. We urge the CODC to allocate adequate funding and appropriate priority in its long-term plan to support these necessary improvements and restore the Cromwell Cemetery to a site of pride and respect.

not answered

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

We need some form of public/community hall in Patearoa, with the disfunction of the hotel. The bowling club and golf club buildings are not suitable for a variety of functions, and have their own limitations. The CODC document 'Gets Ready' lists Patearoa Hall as the Hib for the Community in the event of a disaster. Many of us in the community accept the hall is no longer viable and is in fact dangerous with its current -15% NB safety level. It is too large for our current community, with the takeover of 5 dairy farms by Yellowstone, and the loss of those families living on those farms. The Filipino workers tend to socialise amongst themselves. As a community we ask for more time to investigate a smaller, modern, purpose built hall which would have a variety of uses. We request that our decision be given more time, 3-4 years. The public toilets are an essential part of any community and are used frequently as reported by the residents who live over the road. They are old though and we request they are rebuilt/updated in the near future. The steps down from the hall are narrow, one lady fell and hit her head tripping on the narrow steps. Tanker drivers and contractors all appreciate somewhere to wash their hands, have lunch in the shade over the road beside the trees during the day, or through the night. Visitors to the village and local all appreciate and use the toilet facilities too. We have living in a rural community (Burkes Pass) with no public toilet and personally have collected filthy toilet paper and excrement from the long grass under trees. When MDC, after 5 years of requests, finally did install ONE toilet, we found queues of people outside, many going behind the toilet, with excrement and toilet paper again needing to be picked up. A community needs 3 - 4 toilets for men & women each. I attach an ideal toilet design from Springfield, well lit at night, which had a donation box alongside and plenty of parking.

Q15. **Would you like to comment on volumetric charges?**

I fully support user pays. The proposed changes gives home occupiers options and incentives to manage water use in line with their ability to pay.

Q16. **Please select your preferred option.**	Option A: Divest all of the community halls listed (highlighted in green above).
Q17. **Which hall/facility would you like to comment?**	not answered

Q44. Which option do you prefer?	Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

There are many pool is our region so it is unlikely ratepayers from out of Roxburgh will use the Roxburgh pool if they have one in their own town. It is a Roxburgh asset for Roxburgh citizens so must be fully funded by Roxburgh citizens. If the CODC does take over the ownership I strongly urge that 100% of the costs are recovered via Roxburgh rates and user charges.

Q46. Which option do you prefer?	Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q44. Which option do you prefer? Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

Council should have sorted this when the pool was in consultation phase.

Q46. Which option do you prefer? Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

The council WRONGLY states in the consult document for option B that keeping the outdoor pool would increase rates by $200,000 per annum. As we have long had the outdoor pool, maintaining this will NOT cause an increase but keep consistent what rates we are already paying in line with inflation. The council state that the use for the outdoor pool has steadily decreased. This has not been carefully monitored year on year and therefore this conclusion has come from taking snapshot figures from random years WITHOUT looking into why this might be the case.... The community has wanted to swim in the outdoor pool as temperatures start to increase but due to a lack of lifeguards, the pool has not been allowed to open and therefore user numbers are down. It is also closed much of the time over the summer due to lifeguard coverage (or just because it is easier for staff) as well as closed early on warm evenings. All this contribute to lower usage numbers. Because of the lack of reliability with the opening of the outdoor pool, the community also doesn't factor in consistent availably and will often not come because of that. The outdoor pool has also been allowed to get EXTREMELY dirty over the winter (and some summers) in the recent past. This shows the lack of care Council has for this amazing facility. The Alexandra Swimming Club holds their annual swim meet every year and the outdoor pool is crucial for this to be possible. The meet has 150-200 swimmers compete over two days and brings hundreds of people from out of town, including Southland and Otago to stay in accommodations and buy food etc. Can the Council please consider this income and benefit to our town when they consider the outside pool. The New Zealand and Oceania Ice Swimming Championships are held in the outdoor pool every second year. This brings people from all over the world, including America, England and Australia to name a few. This week long event brings hundreds of people to our area for accommodation, food, fuel and general purchases. They also hold their prizegiving at a local restaurant. The tourism revenue and exposure from this event is HUGE and the Council need to factor in the fantastic benefit of the outdoor pool to our region as a whole. Not to mention that Alexandra has two World Ice Swimming Champions (and World Record holders) that train in this very outdoor pool. Their achievements have brought international attention to Alexandra and Central Otago which cannot be price tagged. These young women inspire other youth (and adults) in both ice and warm pool swimming and have recently highlighted the sport which if the outdoor pool is retained, can give further opportunities to our local youth. The Council should be INVESTING more money into this outdoor pool and how they can increase its use and function for the community! The provided $200,000 cost breakdown and budget for the outdoor pool seems overly high. Could the Council please provide an adequate breakdown of costs as even the $90K cost of staffing is astronomical and not a realistic reflection of the staff numbers and hours that have been used at the outdoor pool in recent years. To even consider decommissioning a multimillion dollar (if rebuilt) functioning facility that brings such benefit to our town and region is incredibly short sighted and sends serious alarm bells to the community that this was even considered!!

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

DO NOT take this from the Vincent reserves!

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

If the supercars want to come they will. Put these tourism reserves into promoting and supporting current events e.g. the NZ Ice Swimming Championships!!

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

This area is isolated and needs resources.

Q54. **Which option do you prefer?**	Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Absolutely support!! $300,000 is NOT ENOUGH!! To consider the other amounts of funding in this LTP, this turf should have been given $1 million. It will provide a desperate need for our community, decrease travel in winter for our youth and families and increase safety. It allows for a long overdue hockey playing surface and help the sport to increase in numbers as it has not been able to increase due to lack of facilities . This is 10 years over due.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

In our next LTP, the Council needs to include an option on reducing staffing numbers at our Council as a way of cost cutting and keeping rates increases down.

Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

I fully support the Council taking over the ownership and management of the Ida MacDonald Roxburgh Pool. I have been a member of this Pool committee since the pool redevelopment was looked at in 2012, after the Community Board leased the old pool to the Roxburgh Area School. The Roxburgh community would never have been able to afford a new facility like this if it had been left to the Council alone to fund. This committee has done an outstanding job of building this new community pool with support from the Community Board, the local community and most importantly outside funders. The biggest challenges faced by this committee now are, A. The risk of mechanical failure or general wear and tear of a reasonably complex facility when no depreciation funds have been set aside. Pool closure is inevitable until funds can be raised. B. The Health and Saftey liability risk that is carried by volunteers in the event of significant injury to a pool user C. The inability to get life guard cover to provide the full time access to casual, and under 18 year old swimmers, that the Council could provide. D. Lack of community volunteers coming forward to take on the running of the pool, which is quite a significant job. In summary the Roxburgh community has now got an outstanding facility, but to be used to its full potential it needs to return to Council ownership and management. The increase in rates for the Teviot Valley under this scenario is not ideal, but is really a catch up to the rest of the district, which did not happen in the Teviot Valley when pool's were districtised.

Q46. **Which option do you prefer?** not answered

Q1. **I'm registered for Let's Talk**	No. Please complete the demographic questions below.
Q2. **First name**	Pamela
Q3. **Last name**	Jones
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I live in the district
Q6. **Where do you live?**	Vincent Ward (Alexandra and surrounds)
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

Although there may be budgetary advantages to forming a joint CCO with other councils this involves risk also if those councils are philosophically misaligned with CODC. This would also cause reputational risk for CODC from its own ratepayers. The recent furore over QLDC discharges is an example. They may be allowed to do it legally, but they have not been transparent about water testing and this creating mistrust.

Q14. **Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

Although I support a higher user-pay charge it would be reasonable to soften the blow for heavy users and go with Option B as a transitional measure. That's not to say volumetric charges might increase again later, but I think quadrupling the charge at this stage is too tough.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Ophir Hall Clyde Hall

Q18. **Would you like to comment on the Ophir Hall?**

i have put my comments in the attached document.

Q43. **Would you like to upload any supporting documents about halls and facilities?**	https://s3-ap-southeast-2.amazonaws.com/ehq-production-australia/61fd50f7f7537f31717b2311e295d1bb64f8979f/original/17[redacted]/320f1c14ca0814afde896a8e02f0f33a_Halls%20supporting%20info.docx?1745953128
Q44. **Which option do you prefer?**	Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

It is just too soon to be doing this when other options have not been explored. The new pool is incredible, and the people who achieved this should be congratulated they are amazing. However, given the size of the Roxburgh community other option such as a key system should be explored and trialled first. This works very well in Millers Flat and Lawrence, for example. When CODC cannot afford to maintain the facilities it already has, it should not be taking on new ones. However, CODC could consider doing something like a three month summer series of "one a month" pool parties at Roxburgh pool with lifeguards and staff coming over for that day. That would be a sign of good faith and support to set the Roxburgh pool up as largely a community facility that is run and used by families, but with support from CODC still to do larger events that the Roxburgh community may not be able to manage.

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

When there has never been a greater need for water safety and education, and when our rivers are full of toxic algae, it would be a really, really bad decision to close the outdoor pool. Rather, CODC should be investing in the pool to provide proper shading - proper trees, and shade sails, more picnic tables, more events, more facilities like a volleyball net, children's small playing area, to encourage greater use of this important facility, free swimming classes for adults that take place outside with a picnic afterwards. Please please please do not close the outdoor pool. Make it great again!

Q48. **Which option do you prefer?** Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

We haven't been given enough information about this - is this "additional" funding from CODC - have they already provided funding? How much is in the Vincent General Reserve account, what else would this money be used for? I have ticked option A trusting council advice that this is the best option financially, because it will allow for tenders to be advertised and costs to be locked in. If council does give this extra funding, it should absolutely not give any more, even if costs continue to rise.

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

No. This would support commercial interests and is not what CODC should be supporting. Put this money into improving the Alexandra outdoor pool instead with shade sails and mature trees and extra play facilities. PLEASE DO NOT PROVIDE QUARTER OF A MILLION DOLLARS TO A SECTOR AND COMMUNITY THAT DOES NOT NEED IT.

Q52. **Which option do you prefer?** Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

This is a really tough one. Again there should have been a fourth option above of "do not know, or to provide a different (smaller) amount. Although MAS is such a great school and deserving community, this isn't really a cost that should be met by CODC. I have ticked option B as a show of support for the Maniototo and to spread costs over a longer period for more ratepayers but acknowledge this is money CODC doesn't really have.

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Ditto above. As a former family member of the hockey community I know how hard they are working to get this great new turf and that it will get a lot of use. However when CODC costs are so high that ratepayers are facing steep rates increases and other really valuable facilities are potentially on the chopping block, this is an unfortunate time for council to be faced with contributing 300K towards this. I have ticked option B as a show of support for the hockey community, and to spread costs over more ratepayers.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

I like the idea of a student survey for this, but think some of the questions have been biased - students have been told the costs of some things in ways that appear negative - the Alexandra outdoor pool, for example. But positive benefits have been suggested for the Supercars money. And negatives have been pointed about family involvement in monitoring the Roxburgh pool. It very much looks as if council is steering people to answer in a certain way. They haven't been told how much other things cost, and about the benefits of those things. This isn't respecting young people's abilities to digest fuller information and make more informed decisions. I don't know if this happened this time, but next time I'd suggest getting focus groups of young people together to formulate a better questionnaire for them.

Q44. Which option do you prefer? Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

not answered

Q46. Which option do you prefer? Option A: Close and decommission the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

Closing this still leaves alex with an all year round swimming pool, the money saved could be used to support and upgrade other pools in the central otago area, eg ranfurly

Q48.	**Which option do you prefer?**	Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50.	**Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Highlands is a business and therefore should support itself

Q52.	**Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Maniototo kids need sport, and we are often left out due to larger areas getting the funding, our turf is a critical role in the development of our kids, we already travel over an hour several times a week for our kids to play/practice,, having this cuts down travel times and cost of travelling, which some parents simply cannot afford, which is seeing less children playing sport because of this, therefore staying at home on devices. The future of maniototo kids depends on having decent facilities to enable them

Q54.	**Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	[redacted]
Q12.	**Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

It appears to me that Central Government is continually increasing the water quality required but not providing any funding for it. Surely Government NZ should be more active on this issue as it seriously affects every ratepayer in NZ. In Central Otago it results in a very high percentage of high quality water being used for irrigation purposes. Option B would be the obvious preferred option to retain local control of our water services . But the costs involved in this appears to render it out of reach for small Local Authorities such as the CODC. My concern on the creation of a Council Controlled Organisation administering our water supplies would result in a much more distant management by a board of directors. Result - ever increasing costs and less levels of service. Just look at the present situation at Wellington City.

Q14.	**Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

I am of the opinion that option A would be the preferred option for the average householder. It would encourage the prudent use of water for irrigation purposes yet allow sufficient water being able to be used for gardens/lawns without incurring too much of an increase in overall water costs. I am a member of the Ranfurly Bowling Club and have grave concerns that this proposal would have on our Club. In this past season our greenkeeper has done an excellent job in bringing our bowling green to a very good standard through ensuring that the green has received the necessary amount of irrigation. On the basis of the quantity of water used this season (which has had more rainfall than usual) the water charge for next season could well be in excess of $2,000.00. This would be completely unacceptable. Like many sports clubs in rural areas our membership has been steadily declining, however this year we have been successful in attracting a number of younger citizens to play the sport of lawn bowls. In order to meet the proposed water charges (in addition to rates) it is estimated that the subscriptions would need to be increased by at least 40 percent!! It is suggested that a possible solution would be if the Council could retain the present water charge of.60 cents per cubic metre for sports clubs that are in a similar position as ours.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Ranfurly Hall Patearoa Hall Waipiata Hall Wedderburn Hall Fenton Library Centennial Milk Bar Ranfurly Service Centre Wallace Memorial Rooms

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

Must be retained. It is the 'home' for the local Musical Society. They produce an excellent show at least once a year. In order to achieve this they have the use of stage facilities, lighting, costume storage, dressing rooms, kitchen facilities etc. The musical society have also assisted financially in upgrading the facilities over the years. The Ranfurly Hall is also used for many other community events including public meetings, school breakups, steptoe auctions, exhibitions , local concerts, etc. In is imperative that the Ranfurly Hall be retained.

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

The future of the Patearoa Hall is up to the Patearoa Community to decide it's fate.

Q32. Would you like to comment on the Waipiata Hall?

Also up to the Waipiata Community to decide. It is a more solid structure than the Patearoa Hall but regrettably does not have enough use to justify the costs involved in continuing Council operating costs. Could be handed over to the local community to operate if they were prepared to do so.

Q33. Would you like to comment on the Wedderburn Hall?

It is understood that a local business has shown interest in purchasing this building. This option should be fully supported and pursued by the Council.

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. **Would you like to comment on the Fenton Library?**

This building was originally provided as a community library by a local benefactor. It is now used by the Burn radio station who (mainly through volunteers) provide an excellent service to the Maniototo Community and beyond. It is imperative that this building be retained.

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

This is an excellent example of an Art Deco building and a huge effort has been made by the Community to enhance this. It houses a unique art deco display and is well recognized throughout New Zealand. It acts as a drawcard for many visitors to Ranfurly which considered essential to maintain the overall economy in Ranfurly. It is imperative that this building be retained.

Q41. **Would you like to comment on the Ranfurly Service Centre?**

Should be retained as is. Maybe the Service Centre could be housed elsewhere in the town (not encouraged) but what would happen to the storage of archives that is housed there and the meeting room is quite adequate for meetings of the Maniototo Community Board and other organisations.

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

This building was also provided by a local benefactor. It is no longer used for what it was intended ie Plunket rooms including a flat to house a plunket nurse. It could therefore possibly be able to be divested by the Council. If this were to be pursued then a proviso should be that all revenue received from sale proceeds be retained for the purpose of maintaining/improving other Council assets in Ranfurly.

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Supercar championships will probably be held in Cromwell without Council's proposed grant, given the massive financial input already provided in Cromwell without Council assistance. Much rather see the Council spend this $250,000.00 (that seems to have suddenly appeared) on some other more worthy cause that would be of benefit to ALL ratepayers in Central Otago.

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Would be happy to accept the small rate increase that would be needed as we would be seeing something that would justify it. A full size hockey turf in Ranfurly would be more desirable.

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.** not answered

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	not answered
Q3.	**Last name**	not answered
Q4.	**Email address**	not answered
Q5.	**What is your connection to the Central Otago District?**	not answered
Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.
Q13.	**Would you like to comment on our plan for water?**	not answered
Q14.	**Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.
Q15.	**Would you like to comment on volumetric charges?**	not answered
Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ophir Hall
Clyde Police Lockup
Clyde Railway Station Building
Former Clyde Museum Stables & Goods Shed
Blyth Street Museum, Clyde
Clyde Hall
Vallance Cottage

Q18. **Would you like to comment on the Ophir Hall?**

I oppose divestment. This is a well used community facility that has historical relevance to Ophir and the wider Distroct

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

Clyde Museum is the current owner of the Police Lockup. The museum would like to relocate this historic building to the rose garden area at the Blyth St Clyde Museum Site.

Q21. **Would you like to comment on the Clyde Railway Station Building?**

I oppose divestment of this heritage building and support SheBikesHeBikes continuation as a tenant, and the Clyde Museum continuing to have a presence in the building.

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

I oppose divestment of the Goods Shed, located within the Council Reserve area in Clyde. The Clyde Museum relies on this historic building for collection storage. The museum requests a similar long-term lease agreement as recommended for the Blyth St Museum above. If the goods shed were to be divested, the museum requests the right of first refusal (ROFR) on purchasing this building.

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

I oppose divestment of the Clyde Historical Museum at 5 Blyth Street. We strongly recommend that the museum continues to operate at this site under a long-term lease agreement (preferably 10 + 10 + 10 years). This arrangement would provide the long-term security and certainty needed for the museum's sustainable future. • Ensuring a Fit for Purpose Facility: Under a long-term lease agreement, the Clyde Museum would anticipate an agreed approach by Council to covering ongoing capital expenses to ensure the building is fit for purpose. Improvements to heating, electrical upgrades and improvements to toilet facilities would help create a warm, safe and welcoming all-year-round facility. ▪ Equitable Support and Funding: Clyde Museum requests parity with other Central Otago museums in receiving annual operational funding as a budgeted line item within the CODC budget. This request is grounded in Council's resolution passed at the meeting on 30 October 2024. • Right of First Refusal: If a decision is made by Council to divest the Clyde Museum on Blyth Street, I request that the museum should have the right of first refusal (ROFR) to acquire for a $1 payment.

Q24. **Would you like to comment on Clyde Hall?**

I oppose divestment of this well-used community facility.

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. Would you like to comment on Vallance Cottage?

I oppose divestment of this historic building at this time. Divestment could be considered, after the building has been restored to a level that allows public access

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

I am writing to express my strong support for Central Stories in Alexandra, and to urge you to continue—and ideally increase—your funding for this essential facility. Having recently returned to the Alexandra region after many years away, I found myself searching for a place to reconnect with the community and re-establish my roots as an artist. I found all this, and much more, at Central Stories. The museum itself is outstanding. Having visited numerous museums throughout the region, I can confidently say that the care, dedication, and professionalism evident at Central Stories sets it apart. It has become my trusted "source of truth" for local heritage, a place where history is preserved with integrity and passion by the staff and a team of committed volunteers. Equally impressive is the thriving arts community fostered by Central Stories. As a local artist, I have deeply valued the opportunity to connect with fellow creatives, attend exhibitions and openings, and even exhibit my own work. These opportunities are made possible only through the existence of such a well-supported facility. I believe increased staffing would allow Central Stories to extend its reach and impact even further. Beyond my role as an artist, I also volunteer at Central Stories because I truly believe in its value. Every day, I witness the vital role it plays: serving as a welcoming hub for both visitors and locals, enriching the cultural life of our region. Therefore, I respectfully ask that you continue to fund Central Stories at least at the previous level—and if possible, consider an increase. Your support is not just an investment in a building; it is an investment in a vibrant, connected, and resilient community.

not answered

Q25. **Would you like to comment on Becks Hall?**

Built with huge community input, on land gifted by a Becks farming family, the Becks War Memorial Hall requires no investment in earthquake strengthening nor significant future upgrades. It is our community hub hosting weddings and funerals, fitness sessions, playgroup gatherings and meetings of every description. In June 2013 up to a metre of snow was dumped on the Upper Manuherikia area. Becks Hall became the centre of rescue operations for families left without electricity and proper road access for days. The Rescue Helicopter regularly uses the Hall's grounds as a sheltered landing site. CODC and Emergency Management Otago have flagged Becks Hall as a future community emergency hub. Volunteers who actively fundraise, run the committee, spray the weeds and mow the sports fields can only achieve so much. CODC's investment and support are vital to ensure the Manuherikia community has a venue to gather in, in good times and bad.

Q20. **Would you like to comment on the Clyde Police Lockup?**

My comment would be the same for all these buildings. If they have little use with no income streams to help with running costs then they should be offered back to the clubs organisations that raised the funds for them in the first place.(With some sort of money buy back $1?) Most of these properties were built on donated land, community fundraising and volunteers work. If none of those parties are interested then offered for public sale to raise funds to help the council maintain the halls etc it keeps on its book. And just on that note we can never truly earth quake proof a building as we have no idea what sort of earthquake will hit us..ie. the severity of rolling, shaking etc. Our buildings have withstood this amount of time and commonsense needs to prevail in all costing in the future. Keep the requirements for all these issues simple and don't go looking for all the complicated scenarios.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Its lovely to see all your Architectural drawings for what should be a cost effective, purpose built no frills building! The debacle and shameful use of taxpayers money to build the Cromwell hall and its incredible lack of ability to even cover its operating costs is mindbogglingly. We are such small populations and who among us thinks we can afford to build whatever more affluent society's create. Make it fully functional on the inside, cover the exterior in low maintenance materials put a usable veranda on it. Bring the cost into line with what local groups who may hire it can afford and you will future proof our communities asset for the next 50 years.

Q50.	**Which option do you prefer?**	Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

Anything that brings revenue into our communities and promotes us on a larger global scale is a benefit and should be encouraged within our capabilities to accommodate visitor numbers

Q52.	**Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

Common sense needs to prevail in any spending councils undertake. Our rates are becoming a burden to most households as the actual cost of living in our own homes is realised. Lets try living with in our means , prioritising work undertaken ie..do we really need it ? contractors being accountable for overruns and poor workmanship. Stop wasting money on costly outside consultants, when many long term locals have real, honest knowledge that pertains to the area we live in. Keep our council in its best financial health and you will have long term support from your feed up ratepayers

Q58. **Would you like to upload any supporting documents?**	not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

My preference is for council to retain the Ranfurly town hall. It is a special building, that is used by many local groups. These include the Maniototo Theatre Group (who book the hall for 9 weeks in the years they are putting on a production and have spent close to $61,000 to make improvements to the hall). Other groups who use it yearly are, St John's School, Maniototo Area School, the Lions and the fire bigrade. I am in support of divesting other halls, to enable monetary savings, with these savings being used to Earth Quake strengthen the Ranfurly town hall. We need both the Stadium and the Ranfurly town hall, to provide places for the likes of: funerals, fundraising events, productions, speech competitions, end of year school concerts, wedding receptions and school formals. I note that currently revenue through bookings and rent is reasonably low, however I would presume if other halls in the smaller areas (like Patearoa, Naseby, Wedderburn,& Waipiata) are divested, then the Ranfurly Hall would see more bookings and increased revenue.

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

I am in favour of the Patearoa hall being divested. We live just across from the Patearoa hall and although it would be sad to see the hall go, these 'outlier' halls such as Pateraroa, need to be divested to enable us to save the likes of the Ranfurly town hall. As I have stated above in my comments on the Ranfurly Hall, by divesting these other halls, the monetary savings can be used to earth quake strengthen and ultimately save the Ranfurly town hall. If the Patearoa Hall is divested, we must still have a toilet block that can be used in Patearoa. The one that is currently here, situated just on the outside of the hall, is used all the time. We have a lot of visitors to the Patearoa area, especially in the summer months, so it is vital that there are toilet blocks that can be used. The toilets are also used by families using the domain and tennis courts, so they are essential.

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

My preference is for council to retain the Naseby General Store. This store is an important part of Naseby, for both locals and visitors. St John's school had an end of year senior class trip to Naseby last year, part of the day included a scavenger hunt of types, locating the lightning tree, certain family names on plaques etc, one stop was also to the Naseby General store where scavenger groups were rewarded with a sweet. I detail this experience, because our children are so lucky to live in the Maniototo and experience the heritage Naseby provides. I see that earth quake strengthening costs for this building are reasonably low compared to other buildings listed and that is also has a reasonable revenue. I am in favour of the store being retained.

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

The Centennial Milk Bar is an iconic 1930's art deco building, we can't lose these historic buildings. I am in favour of council retaining the Milk Bar. I note that it doesn't require any earth quake strengthening, a major advantage. We have lived in the Maniototo for nearly 12 years and the visitor numbers to this region have certainly increased in this time, historic buildings are attractive, the rich history is wonderous and we need to keep these buildings for generations to come.

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?**

Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

I am in support of the $200,000 grant to be used for turf and asphalt upgrades at Maniototo Area School. Our children use the turf and asphalt areas for sports practices and the surfaces are in dire need of replacement/repairs. The asphalt is in a terrible condition, with huge cracks and un even surfaces, the turf is worn out and becomes very water logged after wet weather. The Maniototo children deserve a safe place to practice and compete in their sports. The $200,000 grant is essential to help provide a safe and enjoyable space.

Q54. **Which option do you prefer?**

not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? not answered

Q44. Which option do you prefer? Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

Sport Otago strongly supports Option A — Council taking over the ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora at an annual district-wide cost of $250,000. The Regional Facility Strategy highlights the increasing challenges faced by community groups in sustaining facilities long-term due to volunteer burnout, compliance costs, and difficulty securing qualified staff. Transferring management to Council ensures professional management and sustainability. The modern, energy-efficient pool aligns well with the Strategy's emphasis on fit-for-purpose, high-quality facilities. Council ownership will reduce volunteer pressure and ensure equitable community access through a stable and professionally managed model.

Q46. Which option do you prefer? Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Sport Otago supports Option A — closing and decommissioning the outdoor pool at Alexandra, saving approximately $200,000 per year in operating costs. The outdoor pool has experienced declining use, and maintaining it at high cost is no longer justified given the alternative swimming opportunities available in the region. The Regional Facility Strategy recommends rationalising facilities where demand no longer exists or where the asset is not fit-for-purpose. Decommissioning the outdoor pool aligns with this approach, enabling Council to redirect resources to more sustainable and better-utilised facilities that meet evolving community needs.

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

Sport Otago supports Option A — providing a $250,000 grant funded through the tourism reserves to support hosting the Supercars Championship. The Strategy identifies attracting regional, national, and international events as a key opportunity to boost both community engagement and the regional economy. Events like Supercars align perfectly with Central Otago's competitive advantage in tourism infrastructure and natural environment. The grant would not impact rates and would strengthen Central Otago's profile as a destination for major events, supporting economic activity and wider community impact.

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Sport Otago supports Option A — providing a $200,000 grant funded through rates in the 2026/27 financial year to support the replacement and extension of the multi-use artificial turf at Maniototo Area School. The Regional Facility Strategy places strong emphasis on supporting partnerships between schools and the wider community, enabling shared access to high-quality recreation spaces. Investing in this project addresses urgent safety concerns and enhances access to fit-for-purpose surfaces, particularly in smaller rural communities where facility provision is critical. The project also demonstrates best practice through plans for a maintenance and future renewal fund, ensuring long-term sustainability.

Q54. **Which option do you prefer?** Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Sport Otago strongly supports Option A — providing a $300,000 grant funded through rates in the 2025/26 financial year towards the construction of a full-sized multi-use artificial turf at Dunstan High School. This project represents a critical investment in the future of sport and active recreation in the Alexandra area and broader Central Otago District. The Queenstown Lakes - Central Otago Sub-Regional Sport & Recreation Facility Strategy identifies Molyneux Park as a key hub park and recommends strategic enhancement of hub locations to drive maximum community benefit. Locating a new artificial turf adjacent to Molyneux Stadium will create a stronger, multi-sport precinct, allowing shared use across hockey, football, futsal, and other codes, and relieve pressure on natural fields. The project also reflects the Strategy's emphasis on collaboration between schools and community sport organisations, ensuring facilities are heavily utilised during both school hours and evenings/weekends. Artificial turf surfaces are essential to ensuring reliable access year-round, particularly in Central Otago's variable climate, supporting consistent training, competition, and recreation.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

In addition to our above submissions Sport Otago would also like to put our full support behind the Cromwell Racecourse Redevelopment. With field sport registrations rapidly growing in our region it makes complete sense to have a centralised hub that caters to both CODC and QLDC needs. This is also in line with the Queenstown Lakes - Central Otago Sub-Regional Sport & Recreation Facility Strategy that recommends CODC explore the potential of Cromwell Racecourse to be developed as a larger regional hub park and tournament venue for field sports, making use of the existing Racecourse infrastructure. The site is noted as have the following advantages: Central location within the Queenstown Lakes–Central Otago sub-region. Good transport access across the region. Proximity to sufficient commercial accommodation options for major tournaments and events. Closing Statement Sport Otago acknowledges and supports the Central Otago District Council's continued leadership in planning for the future needs of our communities. The decisions consulted on in this Long-Term Plan align well with the principles set out in the Queenstown Lakes - Central Otago Sub-Regional Sport & Recreation Facility Strategy. We encourage Council to continue to prioritise sustainable, accessible, fit-for-purpose investment into sport and recreation, ensuring positive outcomes for current and future generations.

Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

On Page 35 of the LTP document you say that the decision has already been made, so I wonder why this is included?

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

It is vital that the highest water users pay the most. However, this quite stringent increase needs to be balanced with active encouragement to find different ways of doing business, eg farming that doesn't require irrigation (reducing stock numbers, transitioning from cattle and dairy support to sheep, etc) and industries that make few demands on water

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**	Clyde Police Lockup Former Clyde Museum Stables & Goods Shed Riding for the Disabled Former Clyde Briar & Herb factory, and cottage Millers Flat Bowling Club Roxburgh Squash Court Building Other

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

In general, I consider it a bad idea to relinquish community facilities either to demolition (loss of history) or to be supported by communities. There's already so much pressure on volunteers in communities, and it usually falls to the same few individuals to support a variety of causes. Those volunteers are almost invariably ageing and overloaded and it's not fair to load further expectations on them.

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

For all these following issues, pools, community hub, sports facilities, I consider them to be 'nice to have' but not essential expenditure - see my comments at end.

Q46. **Which option do you prefer?** Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

While I have noted Option A, I consider it regrettable - outdoor pools are so much better a facility than indoor ones, with chemicals being off-gassed by sunlight. For all these following issues, pools, community hub, sports facilities, I consider them to be 'nice to have' but not essential expenditure - see my comments at end.

Q48. **Which option do you prefer?** Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

For all these following issues, pools, community hub, sports facilities, I consider them to be 'nice to have' but not essential expenditure - see my comments at end.

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

For all these following issues, pools, community hub, sports facilities, I consider them to be 'nice to have' but not essential expenditure - see my comments at end. In this arid climate, it's not as if sports grounds become waterlogged and mudbaths.

Q54. **Which option do you prefer?** Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

For all these following issues, pools, community hub, sports facilities, I consider them to be 'nice to have' but not essential expenditure - see my comments at end.

Q33. **Would you like to comment on the Wedderburn Hall?**

The members of the Wedderburn Community would like to be able to use our public space. It is important for us to have a neutral space not owned by an individual ie family, for us to meet in and utilise. The current residents of Wedderburn have some great ideas about how to showcase and use this building and keep it for future generations. If Council wishes to let go of the Wedderburn Hall, we request it be sold to the community group.

I am the Chairperson of the Wedderburn Community Group. I work alongside an Exec committee to see that the needs of our small community are being met. Our hall is our Hub, and it has been a joy to see the community flourish and relationships form as a result of having the hall as our regular meeting place/space. Please don't forfeit the already isolated rural communities in favour of the distant (to us!) urban "Centres".

Q12.	**Please choose your preferred option.**	not answered

Q13. **Would you like to comment on our plan for water?**

I wish to express my concerns regarding the two proposed options for the future of water services in Central Otago. After reviewing the details of both options and considering the potential impact on our community, I feel it is important to address both the risks and the potential implications for affordability, environmental impact, and community involvement. Summary of Concerns 1. Cost to Community & Equity The proposed changes, particularly under Option A with a CCO model, fail to provide a firm guarantee that water prices will remain affordable in the long term. The assumption that water charges will increase more slowly under this model does not take into account the real risk of significant price hikes. For young families, lower-income households, and retirees on fixed incomes, this could have serious implications. Furthermore, the assumption that all ratepayers will see a 30% reduction in water usage is unrealistic and lacks the necessary social impact assessment. We need to ensure that essential water use remains affordable, and that these vulnerable groups are protected from rising costs. 2. Environmental & Visual Impact There is a real risk that unaffordable water costs could lead to neglected properties, including dry lawns, unkempt verges, and other visual impacts, particularly in towns where the visual appeal is a key driver of tourism and local pride. These changes could, therefore, inadvertently affect the tourism industry and the overall aesthetic value of our communities. 3. Loss of Local Accountability The shift to a multi-council CCO risks diluting local accountability. Even with council-appointed directors, residents will lose the direct feedback loop between rates and service delivery, making it harder for communities to have a meaningful influence on water policies and decisions. 4. Unresolved Financial Risks The assumption that debts will transfer smoothly, Reserve deficits will be resolved, and inter-council agreements will be struck is optimistic at best. If these assumptions do not hold, the costs could escalate, and the risk of failure in securing assumed efficiencies could result in additional financial burdens being placed on the residents. 5. Separate Billing System The introduction of a separate water bill poses an additional administrative burden for households. People accustomed to budgeting monthly or weekly may find it difficult to manage separate utility bills, especially if water charges fluctuate significantly, potentially exacerbating affordability issues. Strategic Misalignment with Council's Vision The Central Otago District Council's vision is to foster a thriving and resilient community through active citizen involvement, sustainability, and innovation. However, the proposed water model changes — whether through significant volumetric charges or a CCO-led approach — risk undermining that very vision. These proposals introduce serious affordability concerns for residents, particularly younger families, retirees, and fixed-income households. If implemented, they risk eroding the community vibrancy and sense of security that are vital for our region's long-term wellbeing. We cannot claim to be fostering resilience and sustainability while introducing cost structures that may price people out of basic water access or put undue financial pressure on households. These changes appear to be in direct contradiction to the Council's own stated goals — especially those around community-led development and social sustainability. To be a "cutting-edge" Council means embracing not only efficiency and compliance, but fairness, accessibility, and community wellbeing. Any water reform must be consistent with these values. Recommendations / Next Steps 1. Advocate for a Social Impact Analysis I urge the Council to conduct a detailed modelling of how water price changes will impact different income groups in our community. This should include a specific focus on vulnerable households to ensure that price increases do not disproportionally affect those least able to pay. 2. Ask for Guarantees/Controls Any transition to a CCO model should include binding affordability safeguards. These could take the form of price cap mechanisms or community hardship funds to support residents who are unable to meet rising water costs. 3. Public Consultation Clarity I ask that the Council ensures clear and simple communication with the public regarding what each option will mean for a "typical household," both now and in 5–10 years. This will help to ensure that all residents can make an informed decision about how the proposed changes will affect them. Conclusion I do not support water costs increasing dramatically through either option. Any future water delivery model must protect affordability for young families, retirees, and low-income residents who already face high living costs in our region. We cannot risk turning water into a luxury. I strongly oppose transferring costs without cast-iron affordability measures and urge Council to explore community-first pricing structures. The proposal needs to prioritise fairness, accountability, and local voice. Thank you for considering my submission.

Q14. **Please choose your preferred option.**

Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

I am writing to express my strong concerns regarding the proposed increases to both the fixed and volumetric components of water charges as outlined in Option A and Option B. I urge Council to retain the status quo (Option C), as this represents the fairest, most transparent, and economically sound approach for ratepayers. 1. Strategic Misalignment with Council's Vision The Central Otago District Council's vision is to foster a thriving and resilient community through active citizen involvement, sustainability, and innovation. However, the proposed water model changes — whether through significant volumetric charges or a CCO-led approach — risk undermining that very vision. These proposals introduce serious affordability concerns for residents, particularly younger families, retirees, and those on fixed incomes. If implemented, they could erode the vibrancy and sense of security that are vital to our region's long-term wellbeing. We cannot claim to be fostering resilience and sustainability while introducing cost structures that may price people out of basic water access or place undue financial pressure on households. These changes appear to be in direct contradiction to the Council's own stated goals — particularly those around community-led development and social sustainability. To be a "cutting-edge" Council means embracing not only efficiency and compliance, but also fairness, accessibility, and community wellbeing. Any water reform must be consistent with these values. 2. Unrealistic Assumption of Water Use Reduction The assumption that households can reduce water use by 30% to benefit from the proposed pricing models is, frankly, unrealistic for the majority of residents. While the promotion of water efficiency is commendable, expecting households—many of which already use water responsibly—to achieve such reductions without significant cost, behaviour change, or infrastructure investment is impractical. 3. Disproportionate Impacts on Larger Households and Families The proposed structure penalises households with higher water usage, which often includes families with children, elderly residents needing more regular washing, or properties with productive gardens. These increases are not based on improved service delivery, and yet impose up to 86% increases in annual water costs for some ratepayers (Option A, 700m³/year scenario). This is inequitable and regressive. 4. Questionable Fairness and Affordability Even modest users (137m³/year or 370L/day) will be worse off or barely break even under both Option A and Option B unless they can meet the 30% reduction threshold. This means that: Under Option A, only 33% of ratepayers benefit or break even if usage remains the same. Even under optimistic assumptions, 48–52% of ratepayers will still be worse off. That is not a fair or balanced outcome, especially when there is no change to service levels and no reduction in Council debt from these increases. 5. Preferred Option: Retain Status Quo (Option C) I strongly support Option C – the retention of the current fixed charge of $843.54 and the volumetric rate of $0.60 per cubic metre. This option provides cost certainty, maintains affordability, and avoids penalising households who cannot realistically reduce their water use further. It also reflects that there is no increase in service quality or infrastructure capacity to justify significant cost increases. 6. Suggested Alternative or Compromise (Only if Change is Unavoidable) If Council decides to move away from the current model, any new approach must remain simple, fair, and affordable. I strongly recommend: Capping any increase in fixed or volumetric charges at 5% or less. Maintaining a single flat volumetric rate for all usage, regardless of volume. This ensures: All users are treated equally and charged fairly for what they use. Large section owners, who already pay more in general rates, are not unfairly penalised again. Households with legitimate higher water needs (e.g. families, gardens, lifestyle blocks) are not disproportionately affected. This approach still encourages conservation: those who use more water will still pay more — just at a consistent, non-punitive rate. A fair system charges fairly per unit, not based on arbitrary thresholds that disproportionately affect certain parts of the community. Conclusion The proposed changes are poorly aligned with principles of fairness, affordability, and service-based pricing. I urge Council to reconsider and retain the current model until a more evidence-based and community-aligned approach can be developed. Thank you for the opportunity to make this submission. I am happy to speak to it further if required.

Q16. **Please select your preferred option.**	Option A: Divest all of the community halls listed (highlighted in green above).

Q51. **Would you like to provide comments on the Supercars Championship?**

I believe the Council should focus on its core functions and responsibilities, as outlined by government guidelines. Investing in high-profile events like the Supercars Championship falls outside of these essential roles and could set a concerning precedent for public funding. Councils should prioritise services and infrastructure that directly benefit the local community and align with their primary mandate.

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

A Turf at Dunstan High School would provide ana alternative facility considering many hockey players live in the Alexadra, Omakau and Maniototo district. This would reduce their travelling times for practises and games and provide an extra facility for hosting tournaments in Central Otago with the only full sized turf being in Cromwell at this stage.

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

We oppose the divestment of the Clyde railway station and support the continuation of SheBikesHeBikes as the continued lease holder. Our key points are • Council should retain this building due to its historic / contemporary significance, and because it's on reserve land. The green space and this building should be retained for the amenity value of the public into the future. • SheBikesHeBikes is an excellent fit as a tenant and wants to continue to occupy for the foreseeable future. • SheBikesHeBikes employs a large number of local people which provides benefits to us as employees and the wider local economy Can it be noted that some of us had already made personal submissions and it was not clear whether or not we could submit an addendum to those submissions. Hence the reason why we have collectively asked that a staff submission be put forward as we are affected parties to the decision. Sue Noble-Adams Jim Carroll Susie Farrell Paul Howley Ngaio Colville Scott Pollard Kara Rutherford Jodie Tisdall Mark Johnson Raf Wyatt Adam John Ryley Goodlass Moss Goodlass Aria Goodlass Fynn Goodlass

not answered

Q22. Would you like to comment on the Former Clyde Museum Stables & Goods Shed?

not answered

Q23. Would you like to comment on Blyth Street Museum, Clyde?

not answered

Q24. Would you like to comment on Clyde Hall?

not answered

Q25. Would you like to comment on Becks Hall?

not answered

Q26. Would you like to comment on Vallance Cottage?

I was on the original committee that restored the Vallance Cottage in the early 1990s . The cottage was gifted to the town by the Vallance family as a living example of how early pioneers lived in our town. The purpose behind the restoration was to keep an important part of our Heritage for future generations especially children growing up in current times in much larger homes with much smaller families. It's vital to keep what few historic buildings we have left in Alexandra it provides the town with a deep rooted connection to our past and tells the story of who we are. I would hate Alexandra to become a town that turned its back on our rich history and become a superficial town with no solid grounding to our past that defines us as locals and creates a deep sense of belonging and connection.

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Growing up in Alexandra for me was hours snd hours of fun in our old outdoor pool. I would like to see our new outdoor pool kept open for the next generation of children and visitors to the town. We have such a wonderful summer climate it makes sense to keep it open.

Q48. **Which option do you prefer?** Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?** Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Growing up in Alexandra hockey was played on grass and it sure was fun. I think peoples expectations of having extremely flash and expensive sporting facilities provided at the communitys expense in times of hardship for a lot of our residents need to perhaps be grateful for what we have got already. In this current economic climate i strongly disagree on council funding recreational facilities.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	**on behalf of an organisation or business (please provide the name below)** Albert Drive Retreat
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.
Q13.	**Would you like to comment on our plan for water?**	not answered
Q14.	**Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.
Q15.	**Would you like to comment on volumetric charges?**	not answered
Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Clyde Railway Station Building
Former Clyde Museum Stables & Goods Shed
Blyth Street Museum, Clyde
Clyde Hall

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

We oppose the divestment of the Clyde Railway Station Building and support the continuation of lease by shebikeshebikes

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

We oppose the divestment of the Former Clyde Museum Stables & Goods Shed?

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

We oppose the divestment of the Blyth Street Museum

Q24. **Would you like to comment on Clyde Hall?**

We oppose the divestment of Clyde Hall. As one of the most active halls in the region it's already demonstrated it's importance to the community and should be retained for continued community use.

Q25. **Would you like to comment on Becks Hall?**

not answered

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	Richard
Q3. **Last name**	Madden
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I live in the district
Q6. **Where do you live?**	Vincent Ward (Alexandra and surrounds)
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

We are opting with the status quo as we feel at this point , there is not enough transparent detail and impact on rate payers for the CCO proposal . We would like much more open discussion and actual evidence of how it would affect the charges on our our rates. We are in a circumstance where we are repaying on our rates bill for the stage 1 waste water connection in Clyde and the subsequent related charges (we would have preferred to have kept our septic tank !). If the current electricity companies model is anything to go by, it will create an extra administrative /salaries costs burden to the rate payer. If pricing is no longer the responsibility of the CODC what comeback would rate payers have as consumers ?

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

We think it is outrageous to increase the volumetric charges by 300-400% per cubic metre. This could have been introduced incrementally. Why wasn't there a 100% option for consideration?. The assumptions that this will achieve a 30% water reduction is an assumption yet to be proved. What about a sliding scale model? We are modest users and generally pay ~$220 for annual water charges. Using option A, we calculate we would be charged over $300 extra cf the status quo option, we would be paying $80.

Q16. **Please select your preferred option.** Option B: Maintain the current level of support that Council provides for all of the halls and facilities listed above.

Q17. **Which hall/facility would you like to comment?** not answered

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

Q18. **Would you like to comment on the Ophir Hall?**

My husband, Alan Graham, and I have been part of the Ophir community since 2003. We were welcomed there at a pot luck dinner in the Ophir Peace Memorial Hall and since then that has been the hub of the community for us, as it is for all the residents of the village. We have attended many pot luck dinners there as well as ceilidhs, funerals, concerts, movies, weddings and meetings. The upgrades to the kitchen, heating, sound system and toilet block have all made these functions more comfortable and able to be held in the colder winter months, when the company of others becomes even more valuable. The Hall was also the main gathering point for the celebrations marking the 125th anniversary of the Daniel O'Connell Bridge.Our family hired the Hall for 3 days at the end of February, for the dinner dance following our son's wedding, followed by a pizza lunch the following day. The Hall was a superb venue for our 85 guests, many of whom had travelled from overseas and other parts of NZ and who were very impressed to discover the historic features of Ophir. As almost the first building(100 years old in 2026) one sees entering Swindon St at the bridge end, it forms a significant part of the Ophir historic precinct, complemented by its neighbour, NZ's oldest operating post office. The Hall also houses the CD emergency response equipment and will obviously be the safety hub for the community following a natural disaster, which may well leave the Im cut off from the Omakau Hub. The Ophir Library is also housed in the Hall, accessed with the key kept in the post office and offering residents a wide range of books, magazines and dvds to borrow. At a time when people are becoming increasingly isolated, it is vital that local bodies support and preserve such gathering spaces, which serve as the marae for a community. It would be hard to imagine the residents of Ophir transporting their contributions to a festivity across to Omakau. Discontinuing CODC support of the Ophir PM Hall will largely mean the end of the gatherings mentioned above. It would be similar to a hapū having its long-standing marae, with all its historic memories and associations, closed in favour of a modern, new facility 3 kms away.

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Southern football wished to attend the council annual /LTP plan submission meetings in support of our local clubs Alexandra and Cromwell football clubs We support the need for increased sports fields lighting for all codes not just those highlighted in the plan, With a growing population and more demand across all codes it vital we can support all codes to enable our communities to be healthy and active into the future The current Molyneux Park reserve plan and the current consultation we would like to see more lights for football grounds being added to support Football to reach its future needs and support the growth that is still occurring. Given the significant growth of the game in the region in the last 10 years, at both junior and senior competitions, there is higher loading on the current grounds and this is only likely to increase . To help maintain the quality of fields and reduce overuse having more facilities with the ability to be used at nights will allow for teams to train/play on more ground s thus reducing the costs to repair and maintenance etc. This also improves the health and safety of the grounds unlikely hood to reduce injuries. The local club AUFC contributed to consultation conversations a number of times over the years on the proposed hockey turf (possibly starting in your days on the committee) including in the lead up to the latest proposal. The main consideration for them continues to be lighting, when we need lighting is when we also want to be training properly in the conditions they play in etc. The area of most opportunity wouldn't use the pitch for games. Looking at the plans, it looks like a broader re-development of the school space with a floodlit rugby training area next to the hockey turf and a non-floodlit football pitch in front of the gym. When considered in the scope of the community/Molyneux Park/Alexandra as a whole there is already at least two floodlit rugby pitches at Molyneux and no floodlit football pitch. We strongly support the council consider the increasing need of a floodlit football pitch. AUFC have 220 juniors currently registered this year and 3 senior teams with almost enough for 4, we'd have to be one of the biggest clubs in town with the least facilities with numbers growing exponentially year by year. We do appreciate there is a cross over here of school and Council priorities but it wouldn't be beneficial to investigate a bigger plan for all floodlit areas to accommodate football as well. It's noted in the current plan that several sports need more lighting, which also suggests there needs to be a wide plan and future focused plan based on users and growth of sports etc We would encourage the council to start a facilities review and future planning process based on demographics, usage and need for consideration at the next LTP process as there is only going to be increased demand and usage

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

On behalf of the Alexandra Hockey Club, this would be a fantastic asset to current players, future players, coaches and families. So many players come from Omakau, ranfurly and roxbrough to Cromwell to play. We are currently pushed for turf time for practices in Cromwell as well as game times. It would be so great to see the turf at dunstan getting used through the day by school students. Draws are tight and no room for growth on Cromwell turf, we need one this side of Alexandra for the strong hockey and future development in our zone.

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

The Hall is a significant facility, the most southern public building in the Council's area, and the only one on the eastern side of the Clutha River, south of Alexandra. It is essential as the designated Civil Defence Centre for much of the Teviot Valley. It has frequent and regular use by locals, MF School and many others from the Valley and beyond, for meetings, parties, weddings, funerals, craft displays and indoor sports (e.g. yoga). With its flat large carpark area and flat single-story easy access building, it is ideal for wheelchair and pushchairs. One half has historic value and was built from locally-raised funds. It is well maintained by a committed and strong committee who are in the process of applying for incorporation. The Committee wishes to work collaboratively with the Council to ensure it can be raised to regulatory standards (e.g. earthquake strengthening). It lies in the heart of the township and is central to the lives of Millers Flat residents.

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44. **Which option do you prefer?**	Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

It is frankly outrageous that the Roxburgh Pool Trust wishes to hand the running of the newly opened and refurbished pool to the Council requesting the Council takes over the ownership and management of the pool. The Council provided a substantial sum - ratepayers funds - for its construction and if the pool 'moves' to the Council, the ratepayers will be disadvantaged again. All ratepayers in the Teviot Valley will incur an additional sum on their rates because Roxburgh appears unable - or unwilling - to arrange self-management. Residents in Millers Flat manage and run its pool with little cost to the Council: only a small sum to assist with maintenance. All other costs are covered by users and donors. Millers Flat residents are as concerned as Roxburgh adults to provide safe swimming conditions to deter children from swimming in the Clutha River but that argument, put forward at a consultation meeting, does not hold up to scrutiny and one which I challenge. For all Teviot Valley residents to face a targetted increase in their rates because Roxburgh cannot/will not take responsibility for their pool is frankly unfair. I recommend the Roxburgh pool remains under the auspices of the Roxburgh Pool Trust and if necessary is closed next swim season until a less expensive solution is found.

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Walplata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

The disparity of support to the new Cromwell memorial facility is unfair to the vast majority of ratepayers. This facility should be expected to stand on its own two feet and not receive the significant operating cost annual subsidy, which would keep multiples of the other facilities open and serving their community.

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

All regions should have access to a similar level of facilities.

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Its a shame that poor management has led to staffing issues not allowing the pool to be open to its fullest extent. I would hate to see a sinking lid on community facilities. And considering the significant community contributions to its building it is a shame to see it even being considered.

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Council should not be supporting a commercial event. I would consider a part support if the costs were shared with QLDC, as they will derive much of the tourism spend accommodation in Queenstown and Wanaka, as we have very little bed night capacity in CODC.

Q52. **Which option do you prefer?** Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54. **Which option do you prefer?** Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Not sure if this is the right place, but short term rentals ie Airbnbs should be charged at full commercial rates as is done in other areas. General ratepayers should not fund tourism costs, these should solely be borne by tourism businesses. Blossom festival should have its funding expectations the same as any new events that receive grant funding. Just because it has a long history doesn't make it any more special or should have protected status. It needs to stand on its own as a commercial event. Considering it is so much a copy paste exercise to get a regular grant is not ok. And denies the opportunity for other new events to arise. They speak about the charity aspect, but council could just directly fund these worthy causes, rather than laundering money through blossom.

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

This Hall should definitely be kept by CODC. It is an asset to our town used by several different groups e.g. Two schools, Lions, Drama Club. It is not only who uses it but what it is used for that is important. Yes we have a sports stadium but the Hall is the only building with a stage.

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

I live in Pisa Moorings and note there is a proposed 14% increase in rates. There is a huge amount of content in the LTP, in my opinion almost too much for standard rate payer to be expected to consume. However, from what I have read, I can't see any justification as to why Pisa Moorings Residential has a rate increase more than any other in the Cromwell Ward, with the exception of Cromwell Lifestyle Block. Why does it have such a big increase? I would appreciate a response to this please. Last year we faced a significant increase, in the order of 20% if I remember correctly, and now we are faced with another 14% increase. This type of increase is simply not sustainable - how can you expect rate payers to absorb this cost?

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	not answered
Q3.	**Last name**	not answered
Q4.	**Email address**	not answered
Q5.	**What is your connection to the Central Otago District?**	not answered
Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

Totally against Council establishing a new Water services entity. Council will increase staff,will have to pay directors and borowing to establish this entity will add further cost (DEBT) to all ratepayers. I do not trust councils estimates of the costs associated with either option. Council needs to REDUSE their opertaing costs overall.

Q14.	**Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

If 8% of connections use 43% of the water, charge these high users more and leave all others at the current volumetric charge,this wil,l inpart offset any additional delivery costs. Again I have no confidence in Councils cost estimates

Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ophir Hall
Poolburn Hall
Clyde Police Lockup
Clyde Railway Station Building
Former Clyde Museum Stables & Goods Shed
Blyth Street Museum, Clyde
Clyde Hall
Vallance Cottage
Riding for the Disabled
Ranfurly Hall
Naseby Hall
Waipiata Hall
Naseby General Store
Centennial Milk Bar
Ranfurly Service Centre
Millers Flat Hall

Q18. **Would you like to comment on the Ophir Hall?**

Council makes no mention of the costs associated with this hall so how can we give any opinion? In general I would say that the population of Ophir is too small for council to continue to own and maintain...but we don't know the costIsnt Omakau getting a new community centre? Close Ophir and use the new hall.

Q19. **Would you like to comment on the Poolburn Hall?**

Cost to retain with Council??????? Close it and use the new Omakau hall

Q20. **Would you like to comment on the Clyde Police Lockup?**

Didn't know this existed??????? if it is historical, keep it, open it up to the public.

Q21. **Would you like to comment on the Clyde Railway Station Building?**

Currently rented out to a bike company? what is the cost to council(net cost) after rental income??? If there is a cost put the rental up to a level that is break even...there is some historical value in keeping it open

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

This "building" is a disgarce and Council should be ashamed to have let is sit unused for so long. Sell it off and move items to the Blyth St Museum

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

This must be kept in Ratepayers ownership

Q24. **Would you like to comment on Clyde Hall?**

This must be kept in Ratepayers ownership

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

How can Council even suggest that this be sold off??? One of the few remaining historical building in our area that is(used to be) open to the public. And it was Gifted to Council. Stop making about and get it fixed!

Q27. **Would you like to comment on the Riding for the Disabled?**

What a joke this. Didn't Council boot out the RDA some two years ago so that the Maori could take it over as part of their "must needed new subdivision" It has been sitting empty since then and looks like a building yard with all the stuff stored there. If the maori don't own it, demolish it as it wouldn't be of any interest to anyone else.

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

Close it as no one willbuy it and the Community can use the Rugby Hall

Q30. **Would you like to comment on the Naseby Hall?**

For such a small population do they need a hall??? close it.

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

ditto above.

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

Ditto above,maybe they could use a school building if they need a meeting place

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

Had no idea this was owned by the Council. If it's a needed asset for the community keep it but try and get the rental up without forcing it to close

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

Ditto above

Q41. **Would you like to comment on the Ranfurly Service Centre?**

Close it. This whole exercise is a bit of a Council smoke screen to try and persuade us into think that Council have really done "some hard thinking as to how to save money". Most of the building in question have no or little commercial value so a "sale" would produce very little. Less cost for insurance and maintainance would be the only saving..

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

Maybe this pool shouldn't have been constructed in the first place, who was the genius who ok'd it without doing any work on how the Community could fund it's ongoing operation.

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

There isn't anywhere else to safely swim out doors in Alexandra and once it's gone.....

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Refer comments on the Ophir Hall

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

I cannot believe that Council could even consider this,and I'm a Supercars fan! I understand that the money suggested is for the "application" to Supercars and if unsuccessful in Highlands bid the money is not refundable. Let Tony put up the money. I have just received my lastest INCREASED rates bill... I really wonder what planet the councillors who support this live on!!!!

Q52. **Which option do you prefer?** Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

However desirable or Needed? this maybe, now is not the time to even consider it. PS I'm very pleased that Council is now using the correct spelling of Maniototo rather than the spelling forced on us by the previous mayor and CEO.

Q54. **Which option do you prefer?** Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

The same as for the turf at Maniototo

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

yep, just keep putting up waste charges and see what will happen,fly tipping everywhere. We no longer have a recycling service, thanks council for not supporting its retention. What extra revenue will Council receive from these increased charges???? and this is in addition to the exhorbitant rates increase!

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

The biggest disappointment in all of this, is that there is absolutely no mention of ANY savings that Council have achieved by looking at their internal expediture....staff, wages, vehicle costs, little perks for Council staff like the Xmas party, new showers, the expense of Council morning and afternoon tea"s and no doubt many other things. And what about better monitoring of value for money in the contracts Council lets, Delta would be a good start. REMEMBER THIS IS OUR MONEY YOU ARE WASTING,NOT YOUR OWN!!!!

Q51. **Would you like to provide comments on the Supercars Championship?**

We need to make sure we cater for the influx of visitors in terms of food & accommodation to keep their spend within the Central Otago District and not Queenstown Lakes District. We may have to be creative such as setting up a temporary food court in the Mall and getting a register of holiday homes/houses available for rental over that period and match up visitors with house owners.

Q52. **Which option do you prefer?**	Option B: Provide a $200,000 grant loan funded over a period of 10 years.

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

I would like to see included in the long term plan that the council provide at least 1 new RV dump station to the north of Cromwell township. The current one involves multitudes of large vehicles driving the length of Barry Ave, regularly queuing for several hours (up to 8 vehicles frequently seen waiting in peak periods). As the bulk of camping areas are north of Cromwell maybe the Lowburn area would be appropriate. This would alleviate the traffic congestion caused by the large vehicles driving the length of Barry Ave to dump black and grey water and replenish clean water on a regular basis. Many need to do this every 2nd day.

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.** not answered

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

I am confident, given some time, the Waipiata Community will find innovative and valued economically viable uses for this community asset that will enhance the wellbeing of this community and the wider Maniatoto.

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

This building is iconic for locals and tourists alike, and as it is run be volunteers, is part of the fabric of the small and welcoming community of the Maniatoto. It is economically sustainable in its current use and poses no financial burden to the CODC, so it should continue to be maintained as a council asset.

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

This building is an important and valued community asset. It is economically sustainable in its current use and poses no financial burden to the CODC, so it should continue to be maintained as a council asset.

Q6.	**Where do you live?**	Vincent Ward (Alexandra and surrounds)
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	not answered
Q13.	**Would you like to comment on our plan for water?**	not answered
Q14.	**Please choose your preferred option.**	not answered
Q15.	**Would you like to comment on volumetric charges?**	not answered
Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17.	**Which hall/facility would you like to comment?**	Ophir Hall Clyde Railway Station Building Riding for the Disabled Ranfurly Hall

Q18. **Would you like to comment on the Ophir Hall?**

My husband I and I have family connections in Ophir for over 51 years, owned property in Ophir for 23 years and lived there for 17 years. During this time we have attended numerous activities in the Ophir Peace Memorial Hall. We fully support the submission made by the Ophir Welfare Committee Inc (having attended the meeting to discuss this). Ophir has a predominantly older population and the hall is integral to maintaining a sense of belonging, connectedness and well-being to reduce loneliness. It is easy for these residents to walk the short distance to attend movie nights, pot-luck dinners, weddings, funerals, and various community classes. Plus the community library. As there are no taxis in this area and some people are reluctant to drive at night, people would not attend activities in other places hence reducing social contact. Locals attending gatherings at the local Ophir hall also reduces the possibility of drink-driving. It is noted there were 85 bookings during 2024. There is a strong sense of community in Ophir and people are generous with their time to attend any working bees pertaining to the hall. It is also the building used for civil defence emergencies.

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

This is a wonderful building and setting for many tourists/visitors to Central Otago when setting out or completing cycle trails.

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

Many children would miss out on the pleasure of riding and the helpers would miss out on the joy this provides the children. Again, a sense of community belonging.

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

Similar to Ophir Hall this is a meeting place for the residents of the Maniototo.

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? not answered

Q44. Which option do you prefer? not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

With all new facilities communities need to realize that this is a resource that requires constant upkeep, hence fostering a deeper sense of community. Option B would encourage locals/committees to be creative and enterprising regarding how this loan would be furnished.

Q50. **Which option do you prefer?** not answered

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

I don't support taking on the Roxburgh pool if the outdoor pool in Alexandra is closed. If both can maintained I support taking it on

Q46. **Which option do you prefer?** — Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

The outdoor pool is a great asset to the community. I travel from Cromwell to Alexandra to swim in it. The other outdoor pools are further away for me

Q48.	**Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Q3. **Last name**	BORTHWICK
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I live in the district
Q6. **Where do you live?**	Cromwell Ward
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

If an increase to $2.40.m³ was introduced, then consumption could decrease, with even less watering would happen leaving the town looking even more like an unloved town. This could no doubt leave an even bigger hole in funding given there is such a reliance on usage recovery if reduction was greater than budgeted.

Q16. **Please select your preferred option.**	Option B: Maintain the current level of support that Council provides for all of the halls and facilities listed above.

Q17. **Which hall/facility would you like to comment?** not answered

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

not answered

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Walplata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** — Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

A second Central Otago turf would be best build beside the current one in Cromwell. This creates a facility that would attract higher profile games to areas creating an more engaged player base

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	Cromwell Bulletin Word of mouth

Q1.	**I'm registered for Let's Talk**	No. Please complete the demographic questions below.
Q2.	**First name**	Richard
Q3.	**Last name**	Lord
Q4.	**Email address**	[redacted]
Q5.	**What is your connection to the Central Otago District?**	I'm a Central Otago District ratepayer
Q6.	**Where do you live?**	Cromwell Ward
Q7.	**What year were you born?**	[redacted]
Q8.	**What gender do you identify with most?**	[redacted]
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

I would support Option A providing it can be demonstrated it will result in a cheaper option long term.

Q14.	**Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

I support Option C only. I own a reasonable size section with lawn, vegetable garden, fruit trees plants and ornamentals take great pride in. I also collect the rainwater off a standalone 3 bay garage to supplement the needs of a lot of the plants and lawns. Our lawns and gardens require regular irrigation under the dry hot conditions. My concern is that by quadrupling the cost per cubic meter of water, alongside the $509.24 fixed charge, it may well become far too prohibitive and costly to maintain our gardens and lawns. And I could well imagine the fixed charge would increase every year resulting in significant cost increases into the future.

Q16. **Please select your preferred option.**	Option A: Divest all of the community halls listed (highlighted in green above).
Q17. **Which hall/facility would you like to comment?**	not answered

not answered

Q29. Would you like to comment on the Ranfurly Hall?

This is a building that provides an essential and unique platform to support and display the role of the Arts in our local community. The uniqueness of the stage helps local schools and groups present productions, shows, speech competitions and prize-givings in a profound way. The back stage area encourages these types of presentations for all ages. It is a crucial hub of our community bringing people together and needs to stay in our community for this role.

Q30. Would you like to comment on the Naseby Hall?

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

The artificial turf at the Maniototo Area School has been the center of sport development and physical fitness in the Maniototo for decades. The turf is used to support netball, hockey, cricket and tennis in the community, just to name a few. The council needs to support the upgrade of this crucial community asset to ensure that sport development and physical fitness is maintained in our community in the future.

Q54. **Which option do you prefer?** Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	not answered
Q3.	**Last name**	not answered
Q4.	**Email address**	not answered
Q5.	**What is your connection to the Central Otago District?**	not answered
Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

Because a CCO would need Council oversight, there would be duplication and unnecessary bureaucracy.

Q14.	**Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Clyde Police Lockup
Clyde Railway Station Building
Former Clyde Museum Stables & Goods Shed
Blyth Street Museum, Clyde
Clyde Hall
Former Clyde Briar & Herb factory, and cottage

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

Clyde is fast growing community and a jewel in the crown of Central's heritage reputation. Also it is the hub of the extensive and expanding cycle trails. Retention of heritage buildings in public ownership is imperative until such time as a comprehensive heritage/museums strategy is in place that is generationally focused rather than a mere 10 years. The continued leasing of heritage buildings to private businesses is a good place holder in the meantime and likely to be increasingly attractive. As well as the obvious community/social benefits attached to museums and built heritage, the economic benefit to both Clyde and Council of control/retention will be huge.

Q21. **Would you like to comment on the Clyde Railway Station Building?**

See comments above.

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

See comments above.

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

See comments above.

Q24. **Would you like to comment on Clyde Hall?**

As well as the above comments, I would add that the Clyde Hall is already extremely well used and an integral part of the community. With the rapid housing development, both at the Alexandra end of Clyde and the densification happening since the commissioning of the sewerage scheme, the retention of the Hall is imperative. Also, with the decarbonisation of society that is imperative, localisation of services and 15minute communities make retention a no-brainer.

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

See comments above.

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

The continued pollution of the Manuherla from intensive, industrial farming practices that is, in part, facilitated by Councils, has made the local, free, natural swimming holes such as Shakey Bridge and Galloway mostly unusable. I suggest that intensive,industrial farmers should pay 100% of the cost of keeping the outdoor pool open until the rivers are clean enough to swim in again, then the outdoor pool can be decommissioned.

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Society faces an existential threat from the unabated use of fossil fuels. Council has recognised this by its declaration of a Climate Emergency. This proposed 1/4 million grant is surely a joke!

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

I find 10 years to be, at best, medium term. (Though I appreciate Council is constrained by legislation.) I would encourage Council to take a lead from mana whenua who are unafraid to think in terms of a hundred years. More recent settlers have often thought on similar lines. "The definition of civilisation is a person planting a tree that they know they will never sit under."

Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.
Q13. **Would you like to comment on our plan for water?**	not answered
Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.
Q15. **Would you like to comment on volumetric charges?**	not answered
Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Ophir Hall

Q18. **Would you like to comment on the Ophir Hall?**

The Ophir Hall is an extremely important asset to the small but cohesive Ophir community, a community that shares much with Omakau but has its own unique identity. It's the hub for community events ranging from dozens of musical performances per year, weddings, meetings, movies and is a significant asset for civil defence logistics for the Ida Valley and Ophir in the event of a natural disaster. The community has invested heavily in the hall in the past and will no doubt continue to do so but the whole burden for future investment should not lie entirely with Ophir as the hall is a unique regional asset, of great historical and other significance. CODC divestment of the hall would be a failure by council to maintain the safety, social, historic, cultural and tourism potential of this small but important part of Central Otago.

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Central Stories in Alexandra requires dedicated funding from Vincent Community Board to be able to continue. The funding at present is uncertain and only provides half of the operational costs. This limits ability to hire staff and provide 2 full time members. It desperately needs additional funding in order to provide a much needed service to Central Otago

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Please adequately fund Central Stories in Alexandra

Q58.	**Would you like to upload any supporting documents?**	not answered
Q59.	**How did you hear about this engagement opportunity? You may tick more than one.**	The News - Central Otago

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	not answered
Q3.	**Last name**	not answered
Q4.	**Email address**	not answered
Q5.	**What is your connection to the Central Otago District?**	not answered
Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

We are serviced by the Teviot Valley Water Scheme. We take personal responsibility for filtering and treating our household drinking water. We do not feel we need fully treated water for our laundry, bathroom, irrigation and other non consumable water.

Q14.	**Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

I assume this would apply to residential properties with water meters

Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. Which hall/facility would you like to comment? Millers Flat Hall

Q18. Would you like to comment on the Ophir Hall?

not answered

Q19. Would you like to comment on the Poolburn Hall?

not answered

Q20. Would you like to comment on the Clyde Police Lockup?

not answered

Q32. **Would you like to comment on the Walplata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

This facility is used on a regular basis by not only the local community but also the wider Teviot Valley residents and groups. Given that the Roxburgh town hall was burnt down and will take some years to replace, the Millers Flat Hall should be retained under CODC ownership at least until the Roxburgh facility is back up and running.

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

This pool is an amazing new facility. I would like to see it run to enable children under 18 to be able to swim without an adult accompanying them. I was able to take my grandchildren there during the summer but many of their friends could not come as their parents worked and they had no alternative adult to supervise them. I would like to see extended facilities/options offer such as aquafit sessions, swimming lessons etc. Yes, there will be a cost to rate payers for this but water safety and fitness for the wider community under trained supervision will definitely be an asset to our community.

Q46. **Which option do you prefer?** Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

There are outdoor pools close to Alexandra that people can enjoy eg Roxburgh and also Lake Dunstan.

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

No comment or opinions on this

Q50. **Which option do you prefer?** Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

I don't follow car racing all the time but have enjoyed events at Highlands Motorsport Park. Attracting a variety of people to our area can only have economic spin offs in many directions - directly and indirectly via word of mouth as to what a beautiful area this is to visit at any time of the year.

Q52. **Which option do you prefer?** Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

Supporting opportunities for sporting activities for our youth can only be a good thing!

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Supporting opportunities for sporting activities for our youth can only be a good thing!

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Not specifically related to the LTP but I would like to make the comment - CODC community board meetings are all? during the day on a week day. Many younger community members who could make an amazing contribution to our smaller communities cannot commit to offering themselves as candidates for local body elections as they are committed to full time jobs. I served for 3 terms as a community board member in Southland while I had young children and a part time job. This was only possible as the meetings were held in the evenings. Is it possible to gauge support for a more diverse range of Community Board candidates in the upcoming elections if the meetings were moved to evenings rather than day time? I would be keen to drive this concept if it was seen as a viable option.

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	Teviot Bulletin Social media

not answered

Q31. Would you like to comment on the Patearoa Hall?

I have lived in Patearoa for over 20 years and have used the hall on numerous occasions from weddings and birthdays to markets and other functions. The hall is a vital place for the community to get together and meet up especially now that the our local pub is permanently closd. Finally, please have the divestment of the Patearoa hall extended to year 9 so the community can decide the best way forward to ensure we continue to have a community hall in our town.

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

I have now lived in Poolburn for the last 20 years. My thoughts on the Poolburn Hall is that it is the heart and soul of our community. As a mother of 3 kids this is where I took my kids to playgroup and is where I caught up with neighbor's and friends on a weekly basis. When you live rurally this is so important. While I was apart of playgroup we really looked after the grounds, we had 'working bee' days on our rosters so we all knew to bring the gardening gloves along. I now set up the lawn mowing roster for the Hall to keep the grounds looking good. I drive past the Hall a whole lot and take note of what is going on there...who hasn't yet done the mowing, or wow it looks great! While I was still involved in Playgroup, we got a grant from the Ministry of Education to get a heat pump put in the supper room to keep us warm during the winter. I also applied for grants for an additional 2 heatpumps in the main hall area and for some new windows. I am not inside the Hall anymore on a weekly basis, however I am in charge of the rubbish and recycling bins. I drive to the Hall 5km from my house, pick up the wheelie bin and take it down to the main road. An additional 2km. Everyone pitches in and helps with the Hall and we are all proud of it. We love having our get togethers there which feel like they are too few and far between but we simply do not want to loose it. And honestly why should we? Cromwell have gotten a very expensive brand new Hall, so why can't we keep ours?

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

As a hockey player and coach I honestly believe Central Otago needs another turf. Having one is Alexandra would simply be amazing! This would mean a lot less travel for families and games would not have to be played so late at night which is also extremely beneficial to teams that have to travel. This is something I totally support and believe is very long overdue!

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

We need to keep the outside pool as a safe outside swimming option for Alexandra, our river is too dangerous for children and adults Also not to forget our increase population during the summer months, we need to accommodate those extra swimmers. Alexandra has two world champions in ice swimming, surely Alexandra wants to hosts more ice swimming events.

Q48. **Which option do you prefer?** Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option C: Do not support

Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

This is just going to cost rate payers more. Another highly paid CEO, new buildings, new vehicle fleet, new admin system/overheads that is even before they start there day job. Ratepayers are going to get a even bigger water bill than they are now due to this new organisation. I don't believe the council under its current configuration cannot work with councils to share information etc without the need to form a new CCO. It will also dilute the ratepayers say over what is happening with these services as a CCO. This has the hallmarks of another Aurora energy debacle in the making. If this does go ahead I would expect to see significant decreases in the current Council CEO salary and well as staff numbers as responsibilities/roles are shifted to the new organisation

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

As long as your calculations are correct. The council should stop making up its own units and use units as defined by the governments Measurement Standards Regulations 2019 https://legislation.govt.nz/regulation/public/2019/0091/9.0/LMS169053.html. cm3 is not the designated units for cubic meter. Cubic meter is defined as m3. Your calculations in the faqs section is out by a factor of 1 million https://lets-talk.codc.govt.nz/what-s-important-central-otago-2025-34-long-term-plan/widgets/460219/faqs#120259

Q44.	**Which option do you prefer?**	Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

Wasn't the majority of submissions under the districtisation for Roxburgh for the community to retain ownership of the pool

Q46.	**Which option do you prefer?**	not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48.	**Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50.	**Which option do you prefer?**	Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52.	**Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

No nearby suitable facilities

Q54.	**Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

I understand that this is school land aka Ministry of Education (MoE) land. They are likely to at anytime turn around and say they need that land for classrooms and rip up all this turf. If anything this should be funded by the MoE. Also just down the road at Pioneer Park the council has just finished upgrading a similar facility - so why the need for the double up.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Council is short sighted on its lands sales policy. The money from sales should be reinvested and a proportion of the sales can be used for council spending. Once the council has sold the family silver there is no more.

Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

I do not believe the creation of a CCO which would have accountability for water management for CODC ratepayers is in the best long term interests of the region and the community. The reasons for this are: 1). Costs for ratepayers will increase more than is required to maintain and replace assets. This is due to the creation of a CCO and the costs to support salaries and operational costs e.g salaries for a Chief Executive, CFO, COO, GMs and technical leads which are in addition to the current Council structure. These additional costs will require payment from funds gained from new and higher additional charges for water 2) There is diffusion of accountability from a ratepayer elected council to a CCO where there is no direct oversight by elected ratepayers - apart from annual reports etc. 3) Current examples of devolution of water management from ratepayer elected Councils to new organisations have been an abysmal failure i.e in NZ - Wellington Water, Watercare Auckland and in the UK privatisation of Council controlled water assets has resulted in squandered assets, low rates of asset replacement, exorbitant debt and salary structures. 4) I urge Council not to take the 'easy option' with the creation of a CCO for water services and a resulting huge increase in uncontrolled debt. This proposed Plan is an abandonment of accountability for which elected members are supposed to manage. Elected members of Council are in control for a relatively short period of time compared to the consequences of a major change in how we as a Community manage our water. This proposed Plan reeks of short term gains at the expense of long term control of Community assets. 5) IF the proposed Plan is enacted an a CCO for water management is enacted, then then needs to be clear and unequivocal guidance that the CCO CANNOT EVER be privatised. Lines of accountability between Council and a CCO need to be clear and answerable. 6) I urge Council to review overall annual expenditure and focus on providing core services for the Community, and pull back on nice-to-haves which do not add value to the majority of the Community. No more Cromwell Events Centres while basic services like water infrastructure needs replacement or enhancement. 7) Enabling new increased line of credit (debt) is not the answer unless the debt is within mandated guidelines for local councils.

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

I urge Council to retain the status quo. Reasons for this are: 1) the dialogue used in promotion of Option A and Option B is vague and appears to be unsupported by detailed market economics undertaken by a professional organisation to justify the figures/numbers provided. There are just to many 'it is likely' arguments without solid foundation. 2) It appears that the 30% reduction in water use from enabling Option A or Option B is a guestimate based upon a cost increases a decade plus years ago. There is appears to be no justification put forward to explain in detail the application of another 30% saving. 3) The water volumes promoted in Option A and Option B do not equate to water average water volumes use as used by NZ MBIE, and 4) The water volumes promoted in Option A and Option B do not equate to the total water volumes that would be reasonably required for a house of four occupants for a) daily washing of clothes b) sanitation c) food preparation and d) ancillary water use. This is even less so when family members are using more water due to playing sport once per week and training twice per week. 5) The water volumes promoted in Option A and Option B do not take into account additional water use by living in a hot dry summer climate such as we have in Central Otago. 6) Council have not provided information of volumes and costs for Council controlled water use, for example in watering reserve lands, and if Council will be paying similar charges to a CCO 7) CODC Plan Change 19 specifically calls out minimum section sizes for large lots. It could be reasonably argued that Plan Change 19 was supported by owner/occupiers of large lots in that there would be no significant changes in water use to continue supporting large lots. Given that Plan Change 19 has only been decided within the past 12 months, and proposed changes to water costs would have been discussed by Council during this time, it would appear Council were not transparent during Plan Change 19 for the designation of large lots. 8) If charges on a per cubic metre cost are substantially increased then Council should provide cost relief for large lot occupiers/owners to install water for non-potable use. 9) When I purchased my section I had costed within my rates an allocation of 720 cubic metres per year. Later this allocation was halved and I began paying per cubic metre after 360 cubic metres were used. Sometime thereafter, the allocation was reduced to zero (all while my water rate cost was increasing) and I now pay per cubic metre. All of this has occurred as Cromwell has expanded in size and population. It appears that the development levy for new housing developments have been inadequate to fund new water infrastructure and increased operating costs, all while historic connections are being asked to 'pay again' to support these increased costs. 10) Hence, it appears Council have not evaluated, assessed or costed differential water costs based upon historic and new housing developments. 11) The visual aspect/appearance of Cromwell significantly reduced in the 2010s when water per cubic metre water charges were introduced. Watering of roadside verges effectively stopped immediately causing a significant lowering in visual aesthetics. In the words of Council 'it is likely' that there will be further deterioration in Cromwell's visual aesthetics. 12) I urge Council to retain the status quo.

Q16. **Please select your preferred option.** Option A: Divest all of the community halls listed (highlighted in green above).

Q17. **Which hall/facility would you like to comment?** not answered

I do not have an opinion as I do not live in this community, nor use the facilities

Q46. **Which option do you prefer?** not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

I do not have an opinion as I do not live in this community, nor use the facilities

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

I do not have an opinion as I do not live in this community, nor use the facilities

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

1) Council should not support Highlands. This is a private commercial venture. Those involved or take an interest in motorsport Cromwell does not have the infrastructure/facilities to support a Supercars event 2) If Council supported a Supercars event at Highlands then other sporting groups with some justification should expect the same level of support from Council if they hosted a large sporting event. e.g Stockcars, Speedboat racing, Multisport competition etc etc

Q52. **Which option do you prefer?** Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Council should not be funding sporting facilities especially where there are alternative funding options. Once the precedent has been set then this opens up justifications for other community groups to seek funding. Council needs to restrain itself and keep it resources to fund core services. Providing artificial sports turf is NOT a core Council service.

Q54. **Which option do you prefer?** Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Council should not be funding sporting facilities especially where there are alternative funding options. Once the precedent has been set then this opens up justifications for other community groups to seek funding. Council needs to restrain itself and keep it resources to fund core services. Providing artificial sports turf is NOT a core Council service.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Council should evaluate the opportunity to engage/invest in systems to further optimise efficiencies within Council operations, specifically systems used by private organisations to avoid waste and enhance delivery value.

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.** Cromwell Bulletin

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	not answered
Q3. **Last name**	not answered
Q4. **Email address**	not answered
Q5. **What is your connection to the Central Otago District?**	not answered
Q6. **Where do you live?**	not answered
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	not answered
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

The unknows with all of the options are huge from lack of regulations, uncertainties in information to the accuracy of the estimates provided by the consultants (Morrison Low and Utility). The estimates for the setup of the CCO have high uncertainties as will many other aspects of the preferred option. Hence the Status quo will have the least risk to the ratepayer. While the main benefit of forming a CCO is the higher debt availability (500% of revenue), this comes with increased debt and is not what rate payers need or can afford.

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

The council has chosen an expensive means of achieving protozoa protection for Clyde and Alexandra and now the rate payers are left to pay for it.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Clyde Police Lockup Clyde Railway Station Building Former Clyde Museum Stables & Goods Shed Blyth Street Museum, Clyde Clyde Hall Former Clyde Briar & Herb factory, and cottage

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

remain with CODC

Q21. **Would you like to comment on the Clyde Railway Station Building?**

remain with CODC

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

remain with CODC

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

remain with CODC

Q24. **Would you like to comment on Clyde Hall?**

remain with CODC

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

remain with CODC

Q29. **Would you like to comment on the Ranfurly Hall?**

not answered

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44. **Which option do you prefer?**	Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

Carry on running it by the local community.

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Great facility for the tourists in the area so fund it from the tourism budget

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

spread the cost without depleting reserves

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

you have got to be joking

Q52. **Which option do you prefer?** Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

spread the cost without depleting reserves

Q54. **Which option do you prefer?** Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

the town already has a turf area supplied by the council

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

these should not have been included in the LTP, the document is too long.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

rates increase should not be more than the LGCI. Not plus 5% and plus 2.1%. Why has this benchmark changed since last year? comparison of costs over the full 9 years should have been available. Taking water services out makes it impossible to analyze. This is borne out by the Auditors letter. The reliance on future sales of land to balance the budget is "highly uncertain" and attempts to predict the future markets, potentially at rate payers expense.

Q58. **Would you like to upload any supporting documents?** not answered

Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17.	**Which hall/facility would you like to comment?**	Ophir Hall

Q18. **Would you like to comment on the Ophir Hall?**

Community Halls are non cash generating assets and as such are not required to make a commercial return. Other examples are Libraries and the Museum. I have ticked the circle that Council should support specific halls and facilities, this is because there may be some communities that are not making good use of their facilities and see that the asset is surplus to present (and future) community requirements. I would see that as a community decision in the first place and that this LTP Consultation process in considering such facilities is the right place to start this process. That said, there is something to be said of a small town being marked by having a Hall: there is community here. In regard to the Ophir Hall: A recent Public Meeting in Ophir had 40-50 locals attend in support of maintaining the status quo and I am sure Council will be aware of this and that there will be plenty of submissions in support of this. I have refrained from outlining our families use, support and attachment to the function and benefits of the Ophir Peace Memorial Hall as this will be well covered by others. In the unfortunate situation where Council forget who elected them, and who they represent, and they therefore proceed with divestment, I would submit that any transfer of the asset be affordable to the community. Through this action CODC would be asking the Community to take over what is their responsibility. Council shouldn't place undue onus onto the community now or in the future by making a transaction that is not in the communities favour. To that end, the divestment should come with a Council contribution as well as a commitment to future undertakings. The facility should also be be zero rated for CODC Rates and Services now and in perpetuity. I would further submit that no district wide targeted or other rate specific to a community facility be rated to the Ophir community that would now be required to meet its own costs. On the argument that the Omakau facility benefits the wider Manuherikia Valley this is no more than a convenient illusion to widen the ratepayer base to be captured by any targeted rate. To understand this statement you need to be mindful of the history of Halls and such facilities in both Omakau and Ophir. In 1863 Blacks Diggings sprung up as part of the Goldrush. When a permanent town was evident the name was changed to Ophir. The Hotels competed with each other to host public meetings and the like and this would continue unto 1926 when the Ophir Peace Memorial Hall was built. Meanwhile, in 1900, Omakau was established when the railway bypassed Ophir - taking the Tiger Hill route rather than tackling the engineering challenges of the Ophir Gorge. For fifty years Omakau had no Hall until the now divested post World War II Omakau Memorial Community Centre (Hall) was built opening around 1950. The building of this hall was championed by the newly established Omakau Progressive League as it recognised that whilst Omakau had ripped the commercial heart out of Ophir it was struggling to replicate Ophir's community heart, centred on Ophir Peace Memorial Hall. I have been a VCC and now CODC Ratepayer since 1988 and the only event that was district wide seemed to be the Anzac Service, with silence falling on the idea such a service may be better held at the Ophir PEACE MEMORIAL Hall. Understanding of this 1900-2025 long divide will serve to illustrate that it is most unlikely communities such as Ophir will receive any particular benefit from the Omakau Hub, or that the building of this hub will have any impact on the function and utilisation of the Ophir Hall: certainly there will be no exodus of use . I might add that this also applies to the nearby Ida Valley/Poolburn community that is separated by its own "razor wire". There will be the argument that Omakau, as the largest community in the Manuherikia Valley, is the logical place for Fire/Civil Defense to use as a base in the event of an emergency. This forms and important, but insignificant part of the scope of works for an Omakau Hub. Elected members are elected by ratepayers, the community, and have a prime responsibility to represent their wishes and in the case of the Ophir Hall the message is clear: maintain the status quo and if you must divest complete this on sustainable terms that apply well into the future. In answer to item 25 I wrote: The "elephant in the room" seems to be the EQC Reports. When I completed my Bachelor of Engineering (First Class Honours) in Civil Engineering 1972, it was drummed into us that buildings in an earthquake have to be safe to evacuate after the event. It was not expected that the building would necessarily be saved from demolition. To my knowledge there has been no loss of life in a timber framed / corrugated iron building as the joints are nailed (flexible) and, in the case of the Ophir Hall there is nothing that can fall into the space and injure occupants. The proposed EQC Strengthening for the Ophir Hall will undoubtedly increase the %NBS but make it no safer awaiting an event in the lowest EQC rated area in NZ.

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

This is an example of a project completed in 2023. The approval/business case was obviously fraught if it now needs $250kpa. This is in excess of the $284 operating costs for ALL CODC Community Halls!

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

inextricably linked

Q48. **Which option do you prefer?** Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

It belies understanding that CODC would divest the Ophir and other Halls that are district wide with (in comparison) $284k operating costs. A feature of Central Otago District is the small towns and communities that were established as a result of the goldrush and then the railway. Despite many economic cycles and other factors against them they have survived with a strong heartbeat. History shows that stating that the new Omakau facility will become a Manuherikia Valley Hub is unlikely to be the case. Facilities like the Ophir Peace Memorial Hall will continue to serve their communities and Council's Targeted Rate will unduly burden ratepayers with a cost for something they already have and are paying for. This will apply regardless of status quo or divestment. The "elephant in the room" seems to be the EQC Reports. In 1972 I completed a Bachelor of Enginering (Civil) with First Class Honours). On earthquake engineering it was drummed into us that buildings in an earthquake have to be safe to evacuate. It was not expected that the building would be saved from demolition. To my knowledge there has been no loss of life in a timber framed / corrugated iron building as the joints are nailed (flexible) and there is nothing that can fall into the space and injure you! The proposed EQC for the Ophir Hall will undoubtedly increase the %NBS but make it no safer awaiting an event in the lowest EQC rated area in NZ. It seems that divesting Community Halls is no more than a mechanism to provide (transfer) that funding for a grander centralised hub (facility) that the smaller and distinct communities have no expressed desire.

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

seems like the decision has just be made for you. Support the Halls instead!

Q52. **Which option do you prefer?**	Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

=Turf Life one would expect

Q54. **Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

=Turf Life one would expect

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Although the topic is not mentioned here.... it is crucial that all existing parks and reserves in our towns NOT be sacrificed for medium and high density housing. Green spaces for recreation and for children to play on are ESSENTIAL for community wellbeing! The Council will do well to put its community needs before monetary offerings of the ardent property developer.

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.** Postcard in the mail

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	not answered
Q3. **Last name**	not answered
Q4. **Email address**	not answered
Q5. **What is your connection to the Central Otago District?**	not answered
Q6. **Where do you live?**	not answered
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	not answered
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	yes
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	[redacted] only wish to speak if you need me to say more.
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

At this stage it would be good to keep control by council but need water engineer or civil engineer working in this council department. The community is not ready to have a council owned organisation as we know from experience in NZ that this only leads to a selloff and the consumer being charged more. Veolia and Ventia need to be accountable for their lack of skill. We will only have accountability if council steps up and has the right employees training others.

Q14. **Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

There needs to be a way to reward those who use less water and encourage others to use less. It may be an idea for CODC to talk to www.aamaadhmiparty.org in Punjab as that anti corruption party has achieve wonders in Punjab with improving water treatment and reticulation. They allow ther first so many cubic metres free then charge. Reducing the annual water charge with options A and B mean that if someone uses 150 to 200 cubic metres or less, they will be better off: but any more, and it is going to cost them more.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Ophir Hall Clyde Railway Station Building

Q18. **Would you like to comment on the Ophir Hall?**

The Ophir Peace Hall has the support of a number of visiting musicians who have said that they would use it but unlikely to use the new facility at Omakau. Tess Liautard, Adam McGrath have said that they value halls like Ophir for small gigs as they have ambience and acoustics for music. I think that they may have played at Millers Flat as well. This brings us to "Can the community do anything to assist in the earthquake strengthening and other maintenance and increase use of the hall.

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

Has the council approached the tenant on: Do they wish to be there long term? If so, assistance towards earthquake strengthening if rent is appropriate to cover costs? The Railway station needs to be used to keep it in good maintenance. Would the tenant buy it and keep utilising it? That would be a way of keeping it alive and functioning without being a cost to council. The other historic buildings and halls may need a commercial use to make them viable. Bannockburn hall being improved by a trust is a good example of how the old can be kept. There is no point in building new facilities if they are going to cost an arm and a leg to run.

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. Would you like to comment on Vallance Cottage?

not answered

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

It is not in my knowledge area as I do not spend much time in Roxburgh. Please listen to the people of Roxburgh.

Q46. **Which option do you prefer?** Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

If this is going to make the pool more viable and the indoor pool will cope with the demand in summer now and in the future; why not close it. Just do not make a short sighted decision.

Q48. **Which option do you prefer?** Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Would it be cheaper to improve what they already have. We do not need a Cromwell cost blowout example in the Manuherikia. It will only put a millstone around the future.

Q50. **Which option do you prefer?** not answered

Q51. **Would you like to provide comments on the Supercars Championship?**

Would not supporting the Supercars mean that it does not come? How important is it to CODC core business? Is it really important or a NICE TO Have? These are questions that council needs to ask on each thing. If supporting the Supercars is likely to mean that it becomes to Cromwell what the Blossom Festival means to Alexandra then it is probably worthwhile.

Q52. **Which option do you prefer?** Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

This is another example of the Education department not funding schools appropriately. Funding this and the Dunstan one could be a way of explaining to David seymour that this is CODC contribution to reducing truancy. Just like MacKenzie District contributes to Twizel school library to buy books to encourage youth to attend school and realise that they are valued members of society. Any antisocial children should be given constructive things to do. A number of years ago Shane Jones organised funding of a BMX park in Kerikeri to reduce juvenile crime and it worked.

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Same as Maniototo application comments. Kick the central government ministers for not solving truancy etc by positive means that the children want to go to school.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

I prefer to only comment on those things that I may know a little about. I do think that the Blossom Festival is important to keep going as it is a positive thing to get the community working together.

Q58. **Would you like to upload any supporting documents?**

not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.**

not answered

Q43. Would you like to upload any supporting documents about halls and facilities?

https://s3-ap-southeast-2.amazonaws.com/ehq-production-australia/c147b4348b5f8a9730242497384b548aac7f2dc6/original/1746005025/12beff0be13dffe39cb3b2fc98051ff0_The%20Teviot%20Valley%20relies%20on%20the%20Millers%20Flat%20Hall.docx?1746005025

Q44. Which option do you prefer?

Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

Of course, no other option but for CODC to take over o/ship & mgt of our fantastic new pool.

Q46. Which option do you prefer?

Option B: Retain the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

not answered

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

non -essential

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Fees, charges, Dev & finance charges are already too high, hold to the status quo "Significance & Engagement" how ridiculous, scrap this as not essential

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

The focus of this questionaire on recreational facilities that people use and enjoy is cynical. Same as Wellington City Councils cynical proposals to close pools etc. There are many much more expensive non-essential CODC functions that should be axed / drastically reduced ie organic rubbish collection, community, economic development, Tourism Destination Mgmt & LGNZ membership.

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.** not answered

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46.	**Which option do you prefer?**	Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

I go to pool regularly with my kids but most of the time, including in summer outdoor pool is closed. My husband too the kids to the pool one time when it was actually open and they loved it. It also brings in the ice swimming championship which brings people into our region.

Q48.	**Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50.	**Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Big waste of money for a commercial event. Will still cost too much for most people in our region to attend and most people attending the event will spend more in Queenstown. Use money to keep outdoor pool open in Alexandra for people who live and pay rares in our community.

Q52.	**Which option do you prefer?**	Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54.	**Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

not answered

Q25. Would you like to comment on Becks Hall?

not answered

Q26. Would you like to comment on Vallance Cottage?

not answered

Q27. Would you like to comment on the Riding for the Disabled?

This site should be offered to Ngai tahu to incorporate into their development plans. The inclusion of the site would result in a more regular site perimeter, lending itself to better design outcomes - including the provision of sites fronting on to the golf course. Ngai Tahu also have the scale and commitment to resolve lead contamination issues on the site in tandem with remedial works on their own site. Remedial works would be uneconomical for any other developer so the site would likely be of little value to other developers and could easily end up being a 'no-mans-land'

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. **Would you like to comment on the Walplata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

This is a really unfortunate situation and reflects poorly on Council. Lesson's should be taken that before Council allows community project to go ahead, the maintenance obligations should be considered also.

Q46. **Which option do you prefer?** — Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

No

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Have maintenance and operational costs (and who funds these) been considered for this community hub?

Q50. **Which option do you prefer?** Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

No

Q52. **Which option do you prefer?** Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

No

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

No

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Check and ensure alignment between development contributions policy with long term infrastructure projects supporting development catchments. See below.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

1. Would be great to factor in a significant financial contribution toward a project to re-activate the historic Clutha River Bridge as a shared use link across the Clutha, and establish Old Bridge Road as a shared space - making this the primary pedestrian and cycling link between Bridge Hill and the rest of Alexandra, as per the attached plans. I imagine this project would yield good 'bang-for-buck', with the following key benefits: - Minimise/eliminate the need for cycling and mobility commuters (including plenty of school children) to use the narrow, and in my mind unsafe, section of footpath between Earnscleugh Rd and the current bridge - Provide a safe crossing point to convey Bridge Hill commuters to town across State Highway 8 (which from observation and experience, is generally currently done by (unsafely) crossing immediately north of the bridge - with limited sight distance across the bridge and near an intersection) - Provides an important, functional, safe and aesthetic cycling connectivity link between the Roxburgh Gorge/Alex-Clyde river trail and the Rail Trail, via the Kaimoanahaehae Riverside Park, which would do a lot to enhance the attraction of Alexandra as a cycle tourism destination. 2. Check and confirm the Infrastructure Strategy includes allowance for funding of capital works for key transport links, safety improvements and upsizing of designated collector/arterial roads, including but not limited to: - SH8 intersection north of Molyneaux estate and collector road north and south of this. - Upgrade/safety improvements to McNulty Rd/Gair Ave intersection - Upgrade/safety improvements to McNulty Rd/SH6 intersection - Upgrade/safety improvements to Cemetery Rd/SH6 intersection Costs for these works (plus others I'm sure I've missed) should be factored in and allocated fairly across developments in the contributing catchments through development contributions (apologies if they already are, I couldn't see these on a quick look). This should avoid a need for developers to negotiate these on an ad hoc basis, resulting in uncertainty and delays.

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	not answered
Q3.	**Last name**	not answered
Q4.	**Email address**	not answered
Q5.	**What is your connection to the Central Otago District?**	not answered
Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

I support status quo but set up a CCO tied only to similar council districts to Central Otago but definately not affiliated to QLDC given the major issues facing them. CODC ratepayers could end up inheriting the QLDC problems

Q14.	**Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

I support the status quo but wonder why the volumetric charges in options A & B have such a huge difference to the status quo?? Why not increase from 60cents by 5 or 10 cents annually.Options A & B benefit the many & growing number of holiday home owners many of whom do not water in summer anyway which harms the asthestic of the town. Permanent residents are penalised if they wish to have green grass as opposed to everything dead & dry.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Clyde Police Lockup Clyde Railway Station Building Former Clyde Museum Stables & Goods Shed Blyth Street Museum, Clyde Clyde Hall Former Clyde Briar & Herb factory, and cottage

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

Given this is historical it should be retained

Q21. **Would you like to comment on the Clyde Railway Station Building?**

Historical & testament to the lifeline that it has provided for both passenger traffic & commerce for many decades & should be retained as it is tenanted

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

Could this perhaps be placed in the hands of historic places trust

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

This should be retained as a museum given Clyde's importance through time or perhaps a district museum should be developed

Q24. **Would you like to comment on Clyde Hall?**

This should be retained given that it is well used & it actually is our local WAR memorial & that should be important enough for it to be reatained

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

As above with the clyde museum stables & goods shed perhaps this could be placed in the hands of historic places trust

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? not answered

Q44. **Which option do you prefer?** Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

With council control it may be easier to employ lifeguards etc so I support council ownership

Q46. **Which option do you prefer?** Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

I think Mr Quinn would get the Supercar event here whether ratepayers contribute or not & he is wealthy enough to fund it himself. Alternatively the main beneficiaries of the event, ie, motels, food outlets, bars, hotels, wineries, etc could fund it & not the general ratepayers who in the big scheme of things will receive no direct benefit as the businesses I mentioned

Q52. **Which option do you prefer?** Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

I believe the Ministry of education should be providing this surface so why has the MOE not been asked to contribute. Why should the ratepayers of CODC have to provide this is beyond me

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

See my comments re the previous turf grant request

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	The News - Central Otago Social media

Q2. **First name**	George
Q3. **Last name**	Collier
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I live in the district
Q6. **Where do you live?**	Vincent Ward (Alexandra and surrounds)
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

Central Otago is a different Geographical environment than Gore or Waitaki and has its own issues and opportunities that will be vastly different to Waitaki and Gore . It is preferable to set up a CCO because council does not seem to have a commercial focus or the skills to run a lean commercially focused organisation so it should be outside of council with a focus on having Directors with commercial and practical experience We should be wary of partnering with other geographical areas . Bigger is frequently not better

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	Option A: Divest all of the community halls listed (highlighted in green above).
Q17. **Which hall/facility would you like to comment?**	not answered

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

Council Owns Pools in Alex and Cromwell and Maniototo It is too much of a burden on the Roxburgh community to own and operate themselves The bigger question is who should fund the monster of a town hall in Cromwell . This was built from by the Cromwell community brought from their pot of Gold and this should not be funded district wide. Cromwell choose to build it they should maintain it !!

Q46. **Which option do you prefer?** Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

The Council put $50 million into building the Cromwell Hall and you are asking if the council should put $1.6 million into the Manuherekia Valley Community Hub.. . The $1.6 million question you are asking here doesnot even get on the radar compared to $50 million spend in Cromwell The Manuherkia Valley Community Hub is a critical community asset particularly if you are going to decommission community halls such as Poolburn , Becks and the Ophir Hall . The council should defiantly be funding this . The community have scrimped and saved to get this built The building of a $50 million hall in Cromwell is irresponsible and council needs to have more control over this type of reckless spending going forward. This is a long way from the directive of a back to basics approach that has been given by the present Government . Every rate payer in Central Otago is now going to wear the extra rates burden of this monument for a very long time

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Why is this even a question being asked ? We are having a rating crisis in Central Otago with rates running 2 to 5 times the rate of inflation This is a nice to have it is not an essential service We are already on the map as a tourism destination .Why should rate payers subsidise the Highland Motorsport park ? The real question is do we need to spend less on tourism promotion ? Should this activity be a private sector funded activity ? The tourism reserves accounts could be used to fund existing tourism activities with a resulting in a drop in rates $250,000 could build a new bridge over the Manuherikia River into Little Valley which is badly in need of replacement. We have to think in terms of needs not wants !!

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Development Contributions by Developers are essential to provide the capital to continue to expand the infrastructural requirements of the district 1. As we are one District I feel the Development contributions should be the same across the whole district regardless of the location . The vast majority of he rates are based on a district wide approach so I believe this should also be reflected in equal Development Contributions across the whole district 2. I support the expansion of Waste Water and Potable Water in the Alexandra/ Clyde area in the coming yaers budget and see this as an perquisite outcome of Plan Change 19 . If new land has been made available for residential development then it should be able to be have access to those essential services as quickly as possible. Plan Change 19 is very positive in that it provides one of the best opportunities that Alexandra and Clyde have had to grow in the last 30 years and is long overdue. One of the best ways to make housing more affordable is to enables a greater supply of residential land to be available for subdivision to the appropriate size in order to keep residential sections at a more affordable price for new houses to be built on. Omakua/ Ophir needs a better long term plan to their current waste water and

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

This is an important plan in that there is a need to reduce some council services and show constraint in some areas and have a greater focus on what is needed rather than trying to be everything to everyone It is however important to invest in the future and maintain critical infrastructure . Further and timely investment into Waste water and Potable water infrastructure so growth is not constrained is very important to the future prosperity of the district

Q58. **Would you like to upload any supporting documents?**	not answered

Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

Although I support Option A in general, I do worry that with water services belonging to a separate entity/company that there would be less accountability/opportunity for community input regarding raising costs of water related services. At present, we are paying for these costs within our rates, with opportunity to give feedback during CODC community consultation before any significant rates rises are confirmed. I would hope that with water services being moved to a separate company that there would still be opportunity to feedback on any prices increases rather than being powerless/voiceless as is the case with services like power provided by private companies.

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

I support this option A as I think it is important to encourage people to be more sensible about water usage and reward low usage given that increasing water usage puts pressure ultimately on our natural environments, rivers, lakes, subterranean water supplies which all impact the health of our land, flora and fauna. This becomes more and more important as our population grows and increasing pressure is put on our finite water supplies. However, my only concern would be that this option is approved for now which at face value seems like a good deal for low water users and then in the near future the fixed charge is bumped up again leaving the low users worse off again. I would also hope that the council could support the process of encouraging lower water usage by providing educational opportunities around things like rainwater collection, greywater recycling ect. or even subsidised opportunities to invest in alternative water usage options to encourage people to switch to other options for watering gardens ect.

Q16. **Please select your preferred option.** Option C: Maintain Council support for specific halls and facilities on the list above.

Q43. **Would you like to upload any supporting documents about halls and facilities?**	https://s3-ap-southeast-2.amazonaws.com/ehq-production-australia/2889f3944a234481f985554d3168409b1165ef59/original/1746013465/f951011dbc4020c3d92f15d29452e6ea_CODC%20LTP%20Halls%20and%20Facilities%20Feedback%20from%20Eve%20O%E2%80%99Brien.pdf?1746013465
Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

I think that the Roxburgh pool is an important community resource particularly as it provides crucial opportunities for school children to participate in swimming lessons leading to increased water safety/less drowning risk later in life. Particularly as there are less natural safe learn to swim spots in Roxburgh than in Alexandra/Cromwell areas. If it is becoming difficult to maintain the use of the facility and manage risk from a community level I think that it makes a lot of sense for it to be taken over by CODC. However, I am concerned about the impact of the increased pool related rates on local residents...$260 jump just for a pool is pretty rough! I'd like to comment on the Roxburgh pool alongside the question about whether or not to retain the Alexandra outdoor pool. Both are nice to have in an ideal world and I'd be sad to lose either of them but at the end of the day if it becomes a trade off between what we keep and what we can't afford to hold onto, then I'd support keeping the Roxburgh pool open at the cost of closing the Alexandra outdoor pool.

Q46. **Which option do you prefer?**	Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

As I mentioned in the comment above, it is nice to have the outdoor pool and I've certainly used it on occasion with groups through my work in the social service sector and swum there myself. There is a definite appreciation of the nostalgia of outdoor pools that takes me back to my childhood swimming in Clyde and Alexandra pools. I also know that it gets used by those such as the ice swimmers who'd be sad to lose it and parents with kids in summer. However, I also agree with comments in the consultation document that we have plenty of outdoor swimming options in the area such as at Lake Dunstan or local outdoor pools in surrounding smaller towns. So it's a nice to have rather than an essential and $500, 000 to replace water system plus the annual operating costs does seem pretty steep if it get's minimal use. I'd rather than money was put towards funding pools in areas like Roxburgh that would not otherwise have a facility. I do hope that if it is decommissioned that the land could be put to another good use for the community.

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

I fully support the move to make sure the Community Hub can progress to the tender stage and lock in a contract as soon as possible. I think the local community really need this facility and have worked so hard to make it happen. I look forward in my work role with the Central Otago Friendship Network to making use of the space, having a modern, warm and accessible community facility will make it much easier to run community connection activities which in turn leads to a more connected community with better health outcomes and improved mental health.

Q50. **Which option do you prefer?**	Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

I do in principle support contributions to new turfs for Maniototo Area School and Dustan High School. However, the reality is that I know so many people struggling with massive rates increases and I just know we can't have everything. We have to weigh up the real needs vs nice to haves. And the main reason I support the funding of turf at Maniototo Area School is the recognition of the remote rural location and the lack of access to sports and recreation facilities experienced by young people living in remote areas. Ranfurly is such a long distance from any other facilities for young people to participate in sport and rec that I feel the investment in a new multi use turf is more than justified. As a former teacher in at risk youth education I feel that supporting good mental and physical health for young people in remote areas through provision of adequate recreation opportunities should be a priority for council. The pay offs in terms of encouraging healthy active lifestyles and participation in positive community activities is really important and worth the sacrifice in terms of a rates rise.

Q54. **Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

As mentioned in my comments above in support of contribution towards a new turf at Maniototo Area School, I do in principle support our local schools drive to improve sports and rec facilities. However, I also am a realist about the fact that we can not have all the 'nice things' without a significant rates rise which I just don't think many locals particularly elderly on those on the lower end of income brackets can manage at the moment. It would be great to support an artificial turf at DHS but I do not see that as an urgent need or essential item. Young people in Alexandra have access to a decent range of sport and rec opportunities and there is a good artificial turf in Cromwell that is within 30 mins drive which I feel is reasonable in terms of commuting for those who are committed to sports like hockey. Ideally in the long term it'd be great to see an artificial turf developed at DHS but I feel that it does not have the same need as Maniototo and so should not be a priority at this time.

Q32. **Would you like to comment on the Waipiata Hall?**

Waipiata Memorial Hall Review of the hall at 1 May 2025: Presently under the ownership and control of CODC. Issues arising out of deferred maintenance have impacted on the useability of the hall for the Community. A Fire Safety Report (2 June 2023), Accessibility Report (2 June 2023) and a Detailed Seismic and Concept Strengthening Report (26 Sept 2023) reveal the extent of work that was confirmed two years ago, to bring the building up to code compliance. Use of the Hall: It has been noted that use of the Hall has decreased. This is likely due to a number of factors. There is a perception that charges for the hall are expensive and rigidly applied. For example, a group of Community volunteers met in 2023/2024 with the Derek Shaw, Emergency Management Advisor, Central Otago, to plan for the establishment of an Emergency Civil Defence Community Hub at Waipiata. CODC charged for the use of the supper room for these meetings. With the failure and eventual decommission of the diesel boiler, the main area of the Hall lacks adequate heating. External access to the toilets was discontinued completely for 4-5 years by CODC, after the Waipiata Country Hotel ended it's contract for cleaning/maintenance. The toilets reopened in late 2024, when a member of the Community volunteered to clean the toilets, without recompense. There is a sense of pride and commitment in our Community to preserve and use our historic buildings and facilities. Waipiata has taken it's turn hosting Anzac Day Commemorations. On the last of these occasions (2022?) there was a service in the main hall of the building followed by morning tea. This was provided by the Community and volunteers cleaned the hall before and after the service. Restoration by volunteers of the Waipiata-Hamilton's Library in the Main Street is futher evidence of the importance of these facilities in our Community. Historical buildings in small towns provide important opportunities for socialisation. Socialisation is an important issue in maintenance of cognitive function and mental well-being. Notice/timing of the proposed divestment: I would like CODC to work in partnership with our Community, to investigate ways to increase the usage of our Memorial Hall. Functions could be put on in co-ordination with the Waipiata Country Hotel. Our Community has neither the capacity nor the means to undertake on it's own, the remediation and upgrades needed for the Hall. It appears that CODC has already budgeted for Accessibility and Earthquake strengthening of the Waipiata Hall. I ask the Committee to recognise that there is pride and commitment in our Community and a reasonable course of action would be, to be open to working in partnership with us to retain the Waipiata Memorial Hall for the Community. Yours sincerely, Mike Jameson

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

Central Otago District Council April 2025- Ranfurly Service Centre CENTRAL OTAGO DISTRICT COUNCIL LONG TERM PLAN: I am signing this letter to accompany the Community Feedback support form as I believe that key buildings in the Maniototo district should be retained . The Wallace Memorial Building is an important asset to our community for several reasons: • A memorial space that must be kept by the Community: The Wallace rooms, built in 1953 with donations from James Wallace and the Maniototo Women's Group, initially served as Women's Rest and Plunket Rooms, offering indoor toilets for adults and toddlers and a resting place with Plunket Services. It also provides access to toilets near the children's playground. The adjoining flat housed the local Plunket Nurse. Now, various community groups and specialists use it for activities and services such as physiotherapy, optometry, smoking cessation groups, and social agencies. These groups pay a rental fee to CODC for usage. • Generates Income to cover running and capital costs: The Wallace rooms have a self-contained flat that generates consistent income for CODC. Operational costs are minimal. Rental income from the unit and room users helps cover these costs. • Groups find the meeting rooms ideal for small gatherings. They are easy to heat and perfect for small to medium-sized meetings. The rooms are well utilized. • Structurally sound and not prone to earthquakes. • The Wallace Memorial rooms are structurally sound, well-maintained, and located on freehold land. with no need for expensive earthquake strengthening • Accessibility • The building offers accessible angle parking in front and is a single-story structure on a level surface. This design allows users to safely enter and exit the building. Many users are elderly, and the accessibility supports their continued confidence and independence in the community. • Maniototo Bridge Club: As Users of the Building: The Maniototo Bridge Club has used the Wallace rooms for weekly bridge sessions on Wednesdays and monthly team competitions from February to December for approximately 15 years. The building's size is ideal for our club membership, and amenities like a new heat pump, LED lighting, and ample storage make it an ideal space for card playing. The adjoining kitchen is perfect for preparing light suppers, enhancing the social experience. More recently beginner lessons have been run from the venue and provide a quiet space for learning. • Promotion of the building could increase usage: The space is ideal for smaller community groups or visiting specialist visiting the Maniototo. It offers an insulated, heated and well-lit area with no alternative or similar size in the area The Wallace Memorial Rooms are an asset to our community. Preserving this building maintains local history and offers benefits through minimal maintenance costs and tenant income, ensuring sustainability. Its potential for future use further increases its value, deserving preservation for future generations. The current level of Council support should continue. Signature: Mike Jameson..... Name: ..... Mike Jameson..... [PRINTED]

Q2. **First name**	Rachel
Q3. **Last name**	Checketts
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I'm a Central Otago District ratepayer
Q6. **Where do you live?**	Vincent Ward (Alexandra and surrounds)
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.
Q13. **Would you like to comment on our plan for water?**	not answered
Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.
Q15. **Would you like to comment on volumetric charges?**	not answered
Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ophir Hall
Poolburn Hall
Blyth Street Museum, Clyde
Clyde Hall
Becks Hall
Vallance Cottage
Riding for the Disabled
Ranfurly Hall
Centennial Milk Bar
Millers Flat Hall

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

This hall is a cornerstone of the local community. It hosts parties, social gatherings, community fundraisers as well as being hired to many groups, providing revenue for upkeep. The people use it range from zero years to 100 years! Playcentre to sewing groups to school productions. There would not be a week, often a day that it is not used.

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

This hall is a cornerstone of the local community. It hosts parties, social gatherings, community fundraisers as well as being hired to many groups, providing revenue for upkeep. The people use it range from zero years to 100 years! Playcentre to sewing groups to school productions. There would not be a week, often a day that it is not used.

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43.	**Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44.	**Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46.	**Which option do you prefer?**	Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

This pool makes Alexandra unique and is awesome! I would rather see the lane pool closed on some weekend days due to staff shortages and the outdoor pool staffed. Please, please do not close it.

Q48.	**Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

This hub is a vital part of the community. A growing community it would host many groups and allow the community to thrive in more activities together in Omakau. Residents already have to travel long distances to access facilities and the hub could provide some of these.

Q50.	**Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52.	**Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54.	**Which option do you prefer?**	Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

No

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	**Other (please specify)** Becks Bulletin

Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

Need more info on how a CCO would be allowed to charge. Believe an independent auditor should evaluate performance annually. Wary of council getting stuck with another council's problems i.e. QLDC.

Q14. **Please choose your preferred option.**	not answered

Q15. **Would you like to comment on volumetric charges?**

Assuming high users have business level requirements/usage then they should pay accordingly. They have the option to claim GST and move pricing to consumer. Residential only use does not BnB's also need to be looked at.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Other

Q18. Would you like to comment on the Ophir Hall?

not answered

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

Any & all tenanted buildings should be retained & leased to reflect repair & maintenance required. Exception being those used by Council which could double with other business or service to reflect rates already charged to provide these services. An even spread of community halls should also be mapped. A mix of council and community care groups should be achieved to ensure the long life of community facilities, however I do not support funding perceived treaty obligations to be allowed to operate in community spaces.

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? not answered

Q44. Which option do you prefer? not answered

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

I honestly am unable to make head nor tail of the options here.

Q46. Which option do you prefer? Option A: Close and decommission the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

not answered

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

This is a closed private business and hobby. They can do their own marketing. Don't believe there is much added value to the area in this.

Q52. **Which option do you prefer?**	Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Outside users should cover the majority of ongoing costs. As should govt (central) however what impact will hours have on outside users?

Q54. **Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Again, school hours will dictate outside use? Not sure why ground as hard as it is in central actually needs artificial turf. Also the upkeep of such surfaces is reasonably high and will possibly need more funding inside 5 years. Need more detail!

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Ultimately I doubt anything expressed here will be considered useful or significant. Council will continue to be an enigma to the majority of citizens who will be unable to extrapolate any actual info from the word salad of detail, the closed door of decision making and the enforced significance of the T.O.W. but we try.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered

Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

This would have been better solved outside local government. Its needs expertise and finances outside local government capabilities. 4 entities of expertise who could tap into large scale purchasing abilities would reduce costs to local ratepayers. Once established, Local Governments with their reoriented focus of maintenance could be tasked to manage it. Unfortunately this idea was dismissed after a huge outcry from a rural sector. Many of who were not affected by the down side of a crumbling urban problem. I think the idea of an outside entity has huge merit and should be re-investigated with a more rational mindset.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

It is a wonderful and unique opportunity to be able to acquire funding from organisations like the Central Lakes Trust. But the responsibility to consult and ensure that the community supports the proposal is essential before it proceeds especially if that proposal has continuing costs that the community has to pay. We don't have the mechanisms for such a discussion. The Teviot Valley community has grappled with this issue before when a skate board ramp was installed. The cost to the society in this instance was belated awareness of the downing of long lived trees in a local reserve where the ramp was to be constructed. This should have been canvassed long before its construction so alternative sites could have been suggested or concerns ameliorated. The ongoing costs of the pool were never in the public domain to my knowledge and committee that build the pool seem disinterested in its ongoing management. Yes all will agree ..It would be good if our kids learnt to swim. In a more affluent time in the 1960s dads spent weekends building the school pool. These days are gone. It could be that this ideal is a 'nice to have'. My opinion is that it would be preferable that children leave school equipped with the numeracy and literacy skills to forge a successful life for themselves and our community. The future looks rather bleak and the 'nice to haves' will need to be replaced by the 'need to survive'. The issue that sparked these thoughts was a public consultation document asking for ideas for childrens playgrounds 30 years in the future. Was it a joke ? As I look at the night sky full of tumbling and twisting satellites that were not there 10 years ago I wondered at the mindlessness that initiated such a survey. We have no idea what the world will require 30 years in the future. No idea of the pressures that our community will have to endure. It seems such a fruitless exercise. A waste of time and money. Best concentrate on what we know and what is not currently working.

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Before commenting on the individual proposals I would like to express my concerns that the current system Local Bodies are operating on is fundamentally flawed. Pre the 1990s reform local government was headed by a Town Clerk and the employees were service sector workers. That system in the intervening period has evolved into a business model headed by a CEO with jobs and employees generated and expanded. The model is flawed. Business growth is constrained by the amount of money a business generates. Money has to be eamt before it can be spent. Local Government has no such constraints…it is not generating any income. To cover expenses local government raises the revenue from the ratepayers of the region. I cannot recall in recent history when rate increases have been less that inflation. Most instances rate increases have been in double digit percentages. This can not continue. Our society is tumbling into more austere times and will no longer be able to contribute to the increasing demands. A new model is needed and I suggest that a return to the previous mind set would be a sensible direction to go. A structural change. A Manager in charge of a Maintenance Team which services the local community The business-like structure has not served the public well as can be seen in the dilapidated state of the water infrastructure. Sexy big item projects have been pursued at the expense of the necessary infrastructure require to support liveable communities. This systemic mess is not the fault of council workers but I think they will inevitably wear the brunt of criticism from worried and desperate rate payers. An internal change in emphasis would avoid a chainsaw massacre and would protect those functions necessary to the ongoing support of our communities. It would be nice to see a change in focus in the next 10 years. A reformed organisation dedicated to the basic services required to maintain healthy communities. An organisation we can afford to support.

Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	not answered
Q9. **I am submitting**	**on behalf of an organisation or business (please provide the name below)** Roxburgh Golf Club Incorporated
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.
Q13. **Would you like to comment on our plan for water?**	not answered
Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

Roxburgh Golf Club Incorporated is a small club, run and maintained by volunteers. We pay a green-keeper on a part time basis of 20 hours per week. Our water use charges for the year ending 30 September 2024 were $3,722 up on September 2023 amount of $2,548. Water is the lifeblood of our course, without it we cannot water the greens, if we have no greens, we have no course. Our course has national recognition as being a "hidden gem" and this year was named, for the first time, in the top 50 courses in New Zealand. The course brings in visitors from all over New Zealand, who not only come to play, but also enjoy the other amenities the Roxburgh (and other surrounding areas) have to offer. The proposed increase of $2.40 or $1.80 per cubic meter would not be sustainable for the Club and that is why we support Option C, the Status quo remaining.

Q1.	**I'm registered for Let's Talk**	No. Please complete the demographic questions below.
Q2.	**First name**	Belinda
Q3.	**Last name**	Georgeson
Q4.	**Email address**	[redacted]
Q5.	**What is your connection to the Central Otago District?**	I'm a Central Otago District ratepayer
Q6.	**Where do you live?**	Cromwell Ward
Q7.	**What year were you born?**	[redacted]
Q8.	**What gender do you identify with most?**	[redacted]
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

My concern is if the water is a separate organisation then all the expense of running it - staff etc. will be doubled up. Therefore the costs for such a separate means a bigger out-lay.

Q14.	**Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

What I believe is that we will have a brown Cromwell. People could not afford to water their gardens. We are trying to encourage people to grow vegetable and be self-supportive, but they will be too scared to use the water.

Q16.	**Please select your preferred option.**	not answered
Q17.	**Which hall/facility would you like to comment?**	not answered

Q18. Would you like to comment on the Ophir Hall?

not answered

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option B: Agree to provide a $250,000 grant funded through a promotions rate.

Q51. **Would you like to provide comments on the Supercars Championship?**

It does not appear that the Supercars Races will be held at Highlands park.

Q52. **Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

I feel any costs should be met by the Education Board but if the facilities are to be used by the communities and not solely for the school then funding could be offered.

Q54. **Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Any money spent by the Council needs to be the community use not solely for a school.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

There needs to be a Hybrid Model, whereby the pool is still community owned and operated, but the CODC provide the lifeguards.

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?**	Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?**	Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

There is no benefit to my community by having this added to my rates. Should be targeted to Maniototo Area only.

Q54. **Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Keep rates down, can't keep increasing every year for less and less services. Re-build the Roxburgh Town Hall Cinema

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	Social media

Q44. Which option do you prefer? not answered

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

not answered

Q46. Which option do you prefer? Option A: Close and decommission the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

not answered

Q48. Which option do you prefer? not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

I fully support an initiative that utilises funding earmarked for tourism and, if successful, will deliver a significant return on investment to the CO community. Although there have been numerous reports about this opportunity already having passed, I consider it imperative that Council ensure that the right decisions have been made to enable the team to continue conversations not only for the coming season, but also future seasons and events. Demonstrating that CODC is supportive and ready for major events can only result in positive future outcomes, even if this particular opportunity is not realised.

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

not answered

Q23. Would you like to comment on Blyth Street Museum, Clyde?

not answered

Q24. Would you like to comment on Clyde Hall?

not answered

Q25. Would you like to comment on Becks Hall?

Becks War Memorial Hall is the Community Hub that keeps our isolated area in contact with one another It is consistently used by many groups and organisations(eg. meetings, classes,entertainment, fundraisers, celebrations, funerals) is and well maintained by council and a small, voluntary and at times, a very hard working committee. It is also used in emergency situations as a base for helicopter landings and co-ordination of events that need community help. I feel our Rural Area misses out on a lot of council support, especially considering how high our rates are. The very least our Council could do would be to support our Community Hall.

Q26. Would you like to comment on Vallance Cottage?

Q9. **I am submitting**	**on behalf of an organisation or business (please provide the name below)** Naseby Vision Incorporated
Q10. **Do you want to speak to your submission at a formal meeting?**	yes
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	+[redacted]
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

The status quo is not working. Naseby has for many years had a raw water storage issue causing many days of boil water notices particularly when Naseby is full of visitors. Council have made attempts to remedy the treatment of raw water, but this appears to have been ineffective. Promises of more storage from previous mayors have not eventuated. Currently there is no raw water storage and supply relies on a water race, which is subject to frequent turbidity issues. Naseby Vision has tried to encourage council to build a raw water storage facility on council owned land beside the water race supply and the treatment plant but unfortunately, this encouragement has not been advanced.

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

While the high fixed and low volumetric status quo, serves a small community with a high proportion of holiday homes, like Naseby. This will no longer be the case with charges being smoothed across the district. We also note that higher volumetric charges is a more water conscious approach and may help to drive lower water usage and therefore reduce processing costs.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Naseby Hall Naseby General Store

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

not answered

Q30. **Would you like to comment on the Naseby Hall?**

We believe that this should largely be driven by local communities and while Naseby Vision remains concerned about the lack of upkeep and reduction of facilities across the district and particularly the Māniatoto we feel that our scope and mandate drives us to focus on the two Naseby facilities. This does not mean that we are not deeply concerned about the other facilities within the Māniatoto (or indeed across the district). We are also concerned that there has been very little planning in this proposed divestment strategy. It seems that the decision is driven as a means of last resort and no planning into how communities are served or how historic buildings that were once saved by the council or the community might be maintained or specific facilities rebuilt to meet the needs of communities and in particular smaller communities. We are trusting that each community will be vocal about their facilities and that council will indeed listen to the smaller voices. Naseby Vision however does remain concerned that the loss of critical infrastructure in Ranfurly. The Ranfurly Town Hall is the only facility with the Māniatoto area that has true performance features (stages and back of house) and a reasonable audience space. The Centennial Milk Bar which holds the Art Deco Museum could be lost along with that collection without council support. The Wallace Memorial Rooms serves as a place for small visiting practitioners and meetings and services the adjacent playground. We provide further comment in the uploaded document, NV LTP Submission re Divestment to CODC [redacted].

Q31. **Would you like to comment on the Patearoa Hall?**

https://s3-ap-southeast-2.amazonaws.com/ehq-production-australia/be687f3615894b34a8a50def9aaeefd0d535948e/original/1746051401/29c90a104bec840d2890b710cedb8c58_NV%20LTP%20Submission%20re%20Divestment%20to%20CODC%[redacted].pdf?1746051401

Q44. **Which option do you prefer?**

Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

Pools servicing smaller centres are vital to those centres, even if the community does not have the capacity to run them. Naseby Vision is concerned that when the Ranfurly Pool is due for renewal, the easy option would be for this to be closed and this outcome would be terrible for the community.

Q46. **Which option do you prefer?**

not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

We have ignored this question, as this is for the Vincent community to determine whether it should be retained. However, please see our response to the Ida MacDonald Roxburgh Pool Punawai regarding local pools.

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

We have ignored this question, as it for the Manuherekia communities to have there voice heard. However, we note that the building of a community hub is an investment in building community resilience. Naseby Vision is confused as the divestment proposal seems quite at odds with this.

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Naseby Vision very strongly supports efforts to encourage economic growth in the district. However, funding private enterprises seems off the mark, when there are so many community initiatives that this funding could be used for. Further, in this consultation, we are asked about supporting community hubs, pools, sports fields, and existing community facilities. Surely this $250,000 if it exists could be used for more community focused initiatives. Naseby Vision would support a broader fund for economic development and growth initiatives if the council were to consider it.

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

There is a lot of travel for remote communities like the Māniatoto. A facility for training and playing may encourage further growth on the Māniatoto and reduce the number of children who must travel away for schools that have modern sporting facilities. The Maniototo Area School is recently rebuilt as a modern school and having sporting facilities there will enhance the school's attractiveness to prospective pupils and their families to join or stay on the Māniatoto.

Q54. **Which option do you prefer?** Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Naseby Vision supports growing community infrastructure which will lead to attractiveness of the district and encourage economic growth.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

No comments.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Impact of districtisation can mean that smaller communities can be forgotten. We rely on council to be equitable with their treatment of all communities and not just the ones with large populations.

Q58. **Would you like to upload any supporting documents?** not answered

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long Term Plan. I support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors. The Museum is an important source of information within our community. It is a focal point, well run and deserves to be resourced (funded) appropriately.

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

We wish to express my concerns for the future of the Patearoa Public facilities, namely the Hall and amenities and we wish to see an extension on this present suggested planning time frame. It is essential there be allocated time now to work through the requirements for the village facilities, both what is available presently and that which is required in the future. It appears there are structural issues with the present Patearoa Hall as it stands now and independent assessment may be required. There is definitely a community need for a facility which houses public toilets, as there are more travellers, walkers and bikers in the area than ever before. As we see it, an option if the present Hall can not be retained we suggest a large simple sunny building be constructed as part of an extension to the present Bowling Club be considered, where kitchen facilities are already available. It would be logical to fence off the playing surface of the Bowling Green and construct a playground on the present Hall site for Community use. There is plenty of parking space in the area. Public toilets, of course, would be required in the area as a separate entity. Thanking you for allowing time now, as an extension of your original plan, for proper assessments & surveys to be carried out.

Q32. **Would you like to comment on the Waipiata Hall?**

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long Term Plan. I support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors. Musuem is great for the local community.

Q1. **I'm registered for Let's Talk**	No. Please complete the demographic questions below.
Q2. **First name**	Julene
Q3. **Last name**	Anderson
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I'm a Central Otago District ratepayer
Q6. **Where do you live?**	Cromwell Ward
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	not answered
Q13. **Would you like to comment on our plan for water?**	not answered
Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

I realise that costs have to go up due to government regulations to ensure we have healthy water, so I reluctantly support Option C of the proposed Volumetric Water Charges - retain the status quo and keep the charge rate at 0.60 cents per cubic metre, though would prefer the status quo on the District Water charge to not increase any further. Based on my most current usage available (28 Nov 2023 to 28 Nov 2024) I used a total of 1188 units = $712, plus the District Water charge of $756.45, making my total water bill $1469.25. ($28 per week) Based on these figures retaining the status quo of 60 cents, plus an increase to an annual charge of $843.54 would cause an increase of $87.09 per year, or $1.67 a week which on a pension is manageable. If Council goes for Option B, ($1.80 per cubic metre) my total water bill (still based on usage of 1188 units) would be $2777.64, an increase of $25 per week. Not manageable. If Council goes for Option A ($2.40 per cubic metre) my total water bill would be $3360.36, an increase of $36 a week. Absolutely not manageable on a pension. I use water as little as possible on the garden and try to only have drought tolerant plantings. However, I do have to water our edible crops, including soft fruit, (raspberries etc) fruit trees, and vegetable gardens. No water = no food. I strongly urge Council to reject Options A and B.

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long Term Plan. I support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors.

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.** not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? not answered

Q44. Which option do you prefer? Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

The situation at present is not good, most hot days in the school holidays there would be more under 18 yr olds swimming in the clutha river than the Roxburgh pool, its only a matter of time before anther person is swept away never to be seen again. I would like to see a mixed acess system place. Key holders only prior to 12pm/ 7 days a week(and school hours), have short term key rental available. Reason is to reduce costs of life guards and relieve the pressure on the availability of life guards

Q46. Which option do you prefer? not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

$250,000 is alot of money to rate payers, and it's our money. In the supercar world it's peanuts, it won't make any difference as to whether they come to Central Otago or not, they will be looking at the whole infrastructure and services package we have (or don't have) to offer.

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

I have only answered questions relating to where I live, the Community hall section should be split into districts so there is no unfair bias. Also can you please make the font larger on the graphs

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.**

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	not answered
Q3.	**Last name**	not answered
Q4.	**Email address**	not answered
Q5.	**What is your connection to the Central Otago District?**	not answered
Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

As it stands it doesnt work for Naseby. We don't have decent water storage and have issues when either we have lots of holiday makers in town which is terrible for the businesses here or when there is turbidity in the water race.

Q14.	**Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

It doesn't make sense to penalize the cribbies when people in the town need to be responsible for the water they use or waste

Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ranfurly Hall
Naseby Hall
Naseby General Store
Centennial Milk Bar

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

I have attended many shows and events in this hall and it works very well for these purposes. If we were to loose it what would we use instead. A great stage etc

Q30. **Would you like to comment on the Naseby Hall?**

Naseby Hall is part of the historic fabric of the town and I am not sure how we would manage without having something of this size for special events we hold here e.g. the yearly Lions auction, book sales, Naseby meetings etc.

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

This store is a major part of our infra structure and we know from experience when it had closed the effect on the town. It is a hub, a meeting place of locals. It is our post office as we do not get a mail delivery. The place that all the holiday makers go to get an icecream or the workers for their morning tea pie.

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

This again is an important building in the Maniototo. Not only does it have the Art Deco vibe but it currently houses a great museum. We need to have these attractions for our tourists or why else would they bother visiting and spending their money in the Maniototo. I have another Hat on here and am a member of the Catholic Womens Fellowship and we run the Op Shop out of the back of this building. Another place for not only tourists but very much used by the locals not only to upcycle their clothes but a cheap way for us to buy our clothes. The shop is run by volunteers, and all the money is put back into the community particularly supporting our local hospital. We do not want to lose this.

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44.	**Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46.	**Which option do you prefer?**	Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

I have used this pool as a small child and recently spent a few days in the Twizel outdoor pool. It is special and cannot be compared to an indoor pool. Instead of Decommissioning it make a plan to get people to use it more!!!!

Q48.	**Which option do you prefer?**	not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

This is for the community to provide answers

Q50.	**Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Not sure why we should be supporting private enterprises when there are so many other community activities we could be supporting

Q52.	**Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Families in rural regions spend many hrs and miles travelling to sporting venues. It makes sense that we improve the accessibility to good sporting surfaces in our area. Make it more suitable to play on in our winter weather alsol woul

Q54.	**Which option do you prefer?**	not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

I support ongoing infrastructure that improves the attractiveness of visitors etc to our communities

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58.	**Would you like to upload any supporting documents?**	not answered

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long Term Plan. I support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors.

not answered

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

Recently I read through the discussion Consultation Document for the Central Otago District Council Long Term Plan 2025-34, within which the management of water services is a key topic of discussion. Thank you for the opportunity to provide feedback. Specifically in relation to the cost of water per m3, the council proposes to increase the volumetric charge from the current rate at $0.60c/ m3 to either $1.80/ m3 or $2.40/ m3. A $2.40c charge which is the council's favored option would mean a 4x increase in water bills each year. The impact on the average householder would be significant. I wrote the following concerns down, and presented them to a Cromwell Community page to give others the opportunity to read through

the Discussion Document themselves, to read through the points I have made on the following page, and to add their names to this submission. 57 people responded, and are represented on the following pages who share and would like to provide feedback to council on the proposals. Collectively, we do not consider the Options of either A or B to be affordable or workable for residents. Among those who responded, there are represented both residents of various town locations, pensioners, families, business owners, and rural block holders. All share the same concerns. I would like to make some points from a personal perspective that are separate to the points made on the following pages. My husband and I live on a small rural block. We were blessed to inherit this from my father. We do not have large weekly salaries, and struggle with the rates and water bill currently. We are surrounded by pine trees and so having a lawn and some plantings is vital for fire fighting protection. We selectively and carefully water this during summer. Our plantings are on minimal drip lines and are hardy dry tolerant natives. None the less they still require water once to twice a week in order to survive in our harsh summer. We water our lawns to the bare minimum to keep it alive (usually largely brown but still alive over summer). The areas where we do not water to conserve use are now mostly bare and dusty. We know this will happen to our whole lawn if we did not water. Our water bill is 895 m3 per annum. We would be considered in the high volume user category. However I am distressed at the assumption 1. that high users have an option to reduce their water use, and 2. that there seems to be some kind of unspoken assumption that high water users have lots of money and can afford higher charges because they live on a rural block. We can hand on heart say we cannot reduce our water use unless we are willing to have our lawn and plantings die, permanently. This for us would mean a dismal and distressing outlook on our property, a severe loss of value in our property, and significant fire risk. Already we only water 270 degrees around our home. My elderly mother who lives next door and has 360 degrees protection from fire (again she is surrounded by pine trees which are tinder dry), requires significantly more water than we do. She is on a fixed income. For us, if the increases of 400% are put in place, we will be paying around $2148 per year for water. May I just say that this could equate to removing our potential for having any kind of family holidays or leisure spending. Additionally, on a personal level, we are in the process of beginning an accommodation business next to our home. As part of the conditions of the consent we were required to put in a large amount of native planting for screening. We will need to keep this planting alive for the consent, but also we will need to make it welcoming to visitors. Already we are concerned about the viability of the business given the costs of the build, but are going ahead anyway to make something attractive and enjoyable for visitors. The increase in water costs may amount to around $4000 per year. This may be a significant chunk of our profit. We may need to make the accommodation almost ludicrously expensive to make it viable (and risk losing bookings), or face working for very little return. We implore you as council representatives to please investigate all options for future water generation that reduce cost for the existing ratepayers. As a community we are already at breaking point. Water Services in CODC Long Term Plan -Joint Submission The Consultation CODC LTP 2025-34 document outlines proposed increases in costs under three options, Option A. $2.40 per m3, Option B $1.80 per m3 and Option C $0.60c per m3. We would like to submit the opinion that increases in volumetric water metering of the order as what is suggested in Options A and B will result in significant impacts to residents' ability to provide for their well-being, to fire risk, to the amenity of our town and rural surrounds, to our businesses viability, and to the demographics of our communities (as people are pushed out due to the cost of living). These costs will have significant flow on effects to the well-being of our community as a whole. We would like to make the following points; 1. Water rates hikes as proposed in Option A and B will be unaffordable for the average household. The cost of living and the current high level of CODC rates are placing increasing pressure on most households. Increases such as what are described (up to 400%) are likely to contribute to people having to leave our community. 2. Most water users, even high water users, are unable to reduce their water use. The existing water charges are already acting as an effective disincentive to unnecessary water use. The water consumption of most users is now only equal to that which is necessary to provide for their household needs and keep lawn and plants alive. Any decrease in use will result in dead plantings, dead and dusty lawns, no ability to water fruit trees or vegetable plots, and constant worry over water use. The assumption that high water users (which is most often attributed to rural households) can take the 'option' to use less water is not realistic. The reality would involve completely dry and dead plant surrounds. 3. People's wellbeing will be considerably impacted Because the rates proposed are unaffordable, people will be forced to make decisions which directly impact their sense of wellbeing. With irrigation the highest use of water, a large number of residents will be forced to face dry, barren and unappealing garden surrounds, and will not be able to undertake that which is for some people is their only source of joy- their garden. 4. Fire risk will increase, and residents will be unable to provide for their fire safety Properties that are dry are a considerably higher fire risk. In most cases in town and especially in rural settings, using less water will result in dead plantings and dried off lawns which present a fire risk. A recent brochure distributed by Fire and Emergency NZ to the Cromwell rural district gave details on how to best protect your property from fire by having green (low) plantings around the house, and a lawn around the house sufficient to stop fire

spread. Choosing the 'option' to use less water will inevitably place home owners in the situation where they are subjecting themselves to greater fire risk, and a greater risk of fire spreading to neighboring properties. 5. Businesses will be impacted Commercial activities often require a certain minimum amount of water for their operations to be carried out. Business activities are already under considerable pressure financially; increased costs are a significant added burden. Impacts to businesses have a flow on effect to the community. Increased costs will be passed on to the consumer. 6. Amenity values in town and surrounds- linked to a sense of wellbeing- will be significantly reduced. The appeal of residents surrounds contributes to a sense of wellbeing. Some resentment will occur with residents 'sacrificing' their home surrounds while observing high council water use on reserves and parks. 7. Those on fixed incomes will be impacted most Residents on fixed incomes are likely to cease watering their garden all together in fear of an excessive water bill. 8. Council has an obligation to provide its services in good faith, in line with its obligations to provide for the communities well-being. Both Options A and B do not feel like 'options' which are acting in good faith in enabling residents to provide for their wellbeing. This is compounded by the fact that most water users do not have an alternative water supply option available to them. The following have provided written permission for their names to be included; 1. Carolyn and Matthew Squires, 281a Pearson Rd, Cromwell 2. Helen Scoles, 7 Kerry Court, Cromwell 3. Ashlie Lockwood and Kris Dyer, 105 Richards Beach Rd, Cromwell 4. Tracy Bukavesi, 11 Monaghan St, Cromwell 5. Tom Agate, 9 Kerry Court, Cromwell 6. Kathleen and Alan Dundass, 12a Gavan Street, Cromwell 7. Robynne and Kevin King, 137 Bannockburn Rd, Cromwell 8. Lindsay Olsen, Central Otago District resident 9. Dan and Ngaire Ross, Bannockburn 10. Warwick and Theresa Gair, 32 Pegasus Court, Pisa Moorings 11. Jan Wood, 281 Pearson Rd, Cromwell 12. Vicki Froom, 21 Ray St, Cromwell. 13. Tim and Zoe Wood, 230 Bannockburn Rd, Cromwell 14. Pauline Stevens, 5 Hotop Place, Cromwell. 15. Peter and Suzy Wood, 22 Coleraine St, Cromwell 16. Fredi Lustenberger, Central Otago District resident 17. Neroli McRae, 15 Robertson Court, Cromwell 18. Debbie McEwan, Central Otago District resident 19. Victoria Hoskin, Central Otago District resident 20. Margaret Wilkinson, Central Otago District resident 21. Lyall and Jan Hopcroft, 28 Thelma Place, Cromwell 22. Angela McKenzie, 15 Panners Cove Lane, Cromwell 23. Tia Gable, 7 Austral Place, Cromwell 24. Carl and Angela Geel, 16 Cairnmuir Cresc, Cromwell. 25. Hayley Bruhns, Central Otago District resident 26. Kay Downer, Central Otago District resident. 27. Danielle Knott, 16 Antimony Crescent, Cromwell 28. Mark and Sarah McCloy, Perriam Place, Pisa Moorings. 29. Raewyn Georgel, Pisa Moorings. 30. Jennifer Pont, Central Otago District resident 31. Sandi Mulholland, 5 Hatters Lane, Pisa Moorings. 32. Ken Churchill, Alexandra 33. Helen Rule, 104A Molyneux Ave, Cromwell 34. Donna and Syd Dyer, 25 Richards Beach Rd, Cromwell 35. Donna and Martin Hale, 256 Bannockburn Rd, Cromwell 36. Dean Knowles, 231D Bannockburn Rd, Cromwell 37. Ron and Colleen Gillett, 231a Bannockburn Rd, Cromwell 38. Graeme Pont, Cromwell. 39. Maureen O'Connell, Bannockburn Rd. 40. Gregory Cairns, Bannockburn Rd, Cromwell 41. Ivan Coutts, 157 Bannockburn Rd, Cromwell 42. Paul and Gay Allison, 217 Bannockburn Rd, Cromwell. We anticipate and sincerely hope that the council will recognise in good faith that this submission represents 57 residents, rather than a single submission.

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

I can't comment of other halls, but am very aware that the Millers Flat is very well used and in a good state of repair. While there may be earthquake strengthening required. I believe the hall committee should be given the opportunity to find the funding that is needed for that work. I'm also aware that the ownership of the hall is, at the very least in dispute and the CODC may not be in a legal position to sell the hall. I would submit that the Hall should be retained for use by the Millers flat Community.

Q44. **Which option do you prefer?** Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

While i support the community having facilities that are well used, I am totally opposed to a small community such as Millers Flat, which successfully manages its own pool being asked to accept a rate to cover the cost of of the Roxburgh Pool. No other communities are rated to support the Millers Flat Pool. To my mind this smacks of double dipping. It may seem an easy solution to CODC to ask the people of Millers Flat to financially support an additional pool in another community. I would submit that what may seem as an easy solution to the elected members will be a sever impost on many ratepayers in the small community of Millers Flat, who will get absolutely no benefit from the Roxburgh pool.

Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

I would support either of the options .... based on engineers and economic experts clearly defining the most efficient and effective long term option. Too much money wasted in flip flopping. I do think our size though does restrict what we need to do and therefore are more collective approach feels realistic.

Q14.	**Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

My understanding is that the Clyde Hall is a very well used facility and has been recently refurbished, becoming more useful. I have been involved in many groups that have used and continue to use the facility and especially with it being a good wooden floor (allowing dancing and sports). With this facility and any others kept under CODC control there needs to be strong property management and even stronger operational modelling. Facilities like these need to have proven / planned income streams and be given ongoing oversight of income to expense. Not retrospectively. I believe some of those being kept and being built have not been planned with the expectation that they operationally perform .....improved focus on asset management and operation should be given priority.

Q44. Which option do you prefer?	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

There was some work done around recreation strategy - considering population growth and how collectively thinking around location is important. Once you take something away it is harder to get back - the entire recreation area around pool / bike park / sports facilities has opportunity for better collective thinking (this feels piecemeal).

Q48. **Which option do you prefer?** Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

I do not currently support. As per my earlier comment of operational costs. I have previously asked two parties (people involved in the trust and CODC) regarding how this building is going to function operationally and no one was able to answer basic questions... apart from Council will operate. Will the income streams from community groups make the building operate without further rates increase and build maintenance fund?

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Think that the "tourism" money could be better spent to support tourism in the area : - Blossy Festival funds, Info Centre (with bus bookings) back in Alex, Support other events in the district that are more grass roots. In particular I mention the Info Centre - since the change in what this looks like in the Alex area certain local NFP orgs have required to fill the gap and this is increasing a problem for them. It feels like a gap in delivery to locals and visitors alike.

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Aligning the long term plan with the wellbeing work completed last year seems to be missing. Housing affordability and access to affordable rental with secure tenure is, in my mind, one of the biggest issues in our region. As a ratepayer I would pay additional rates to have appropriate full time resource within the CODC to make this a priority. This is not about supplying housing from CODC but having a formal commitment to it.

Q58. **Would you like to upload any supporting documents?**	not answered

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long Term Plan. I support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors. My sons love going and visiting museums.

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

The Council should improve it's communications. The Bulletin no longer serves a purpose as it is full of advertisements and practically nothing else, to the point where most people no longer read it. The News has better coverage of Council plans and events but is not distributed in Cromwell. You have to go searching for copies at the supermarkets or petrol stations.

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	Word of mouth **Other (please specify)** I am a member of the Cromwell Community Board so am aware of the process in place.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-2034 Long-term Plan. I support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they for for our community and visitors.

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long-term Plan. I Support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors.

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long-term Plan. I Support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors. it is great for visitors and kids with history of the area.

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? — not answered

Q44. Which option do you prefer? — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

not answered

Q46. Which option do you prefer? — Option B: Retain the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

With QLDC/CODC/ORC allowing discharging of effluent into waterways, it makes sense to keep the outdoor pool at Alexandra open for at least the intervening years ie. a minimum of 5 years anticipated before QLDC can solve the discharge issue

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Council districtized for a reason - to protect Cromwell Ward ratepayers from bearing the full cost of their new $46m Memorial Hall. It makes sense to ensure that all halls in Central Otago are supported using this same formula. However, given that there is funding available in the Vincent General Reserve, it makes sense to use it. Although this does mean that Vincent Ratepayers are in fact paying for their own facility

Q50. **Which option do you prefer?**	Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

Attracting large scale events to existing infrastructure within our region makes sense as long as it bring benefit to community groups and to business owners in Central Otago

Q52. **Which option do you prefer?**	Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Ministry of Education should support this upgrade, or raise funds via sponsorship

Q54. **Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Ministry of Education should support this upgrade, or raise funds via sponsorship

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Fees & Charges for all new Halls - whether under construction or yet to be built (Cromwell, Roxburgh, Manuherikia Valleys) should be much higher than fees detailed in the schedule. Capital investment such as this need 'users' to contribute appropriately - access to brand new facilities is a privilege and should be paid for by users/hirers

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered

Q13. **Would you like to comment on our plan for water?**

I understood this was an issue to be consulted on later once some due diligence had been done so am not intending to comment at this stage other than don't get dragged into an arrangement with a cot case council.

Q14.	**Please choose your preferred option.**	not answered

Q15. **Would you like to comment on volumetric charges?**

Firstly, concerning the changes in water charging a confession; we are high water users, in the order of 700-1000m3 a year for the past four years. We happily applied this water in a non-wasteful manner to give value to us and the wider community. When we say happily, we don't expect any contribution for the wider benefit we provide to the community through our water use. Also we have been a willing buyer of the water and until a month ago we assumed you were a willing seller at that price. But the point is we don't waste water and we use most of it at night through a programmed irrigation system as we don't want to impact pressure and create capacity issues. Now we understand you want us to reduce the draw from the 'town supply' we are happy to work with you to achieve this council benefit as I am sure many other consumers would be if real alternatives were made clear and available. Hence, we would support during the term of this LTP movement to a more appropriate pricing system for water use. Our submission on this issue is more about how council could better get there by

working with the community, not in opposition to the desires of the community. The rationale outlined in the Consultation exposes a perception that is unhelpful and damaging to the community who are just trying to live their best lives in Central Otago. Council's rationale is recorded below: "By increasing the volumetric charge and lowering the fixed charge it is hoped to change the behaviour of high-water users. This will reduce our electricity use, delay the need for replacing pipes that have life left in them and delay further upgrades to our treatment plants. This is also a fairer system where the costs are borne by the heaviest users." p 14 Council's perspective is inward looking. This rationale fails to consider the impact this perspective will have on the community. The problem is people living within the semi-arid (i.e. almost desert) conditions of Central Otago (CO) want to use water which is, in most places in CO, abundantly available due to our water collection systems (rivers) flowing passed most towns. Council's focus on delivery of the Government established potable water quality is understandable but doesn't acknowledge this community desire, and leaves only one option of engineering the community to do things council's way through price manipulation. Furthermore, the one option, the status quo with three funding alternatives, Option A being the preferred, if approved in June, council is providing less than a month for ratepayers to consider and establish alternatives to source the water they desire to support their lifestyles before the impact of pricing hits. This will cause a negative backlash once people realise what has happened. Focusing on delivery of potable water only and immediate amendment of the charges, doesn't address and respond to the many community and lifestyle benefits from current use of water that people who live in this area desire. These include but are not restricted to, safety from fire, an increasing concern; quiet enjoyment of life through areas that absorb heat rather than reflect it in an increasingly warming world; and growing and sharing crops (e.g. fruit and veges) from one's own labour. It also fails to consider the impact the change will have on people's perception of the council. In short, they will think badly of you if you maintain this inward organisational view rather than what matters to the people you have the responsibility to support to live their best lives. We understand the problem the council is facing and have some sympathy for the situation you are in. You have been required to increase the treatment of the water you provide at significantly greater cost. As a result, you need to find a fair way to distribute this cost. To do this without worsening your relationship with your community, we are suggesting you consider supporting the development of multiple options for supply of water. These do not have to, and probably should not be council provided, but council needs to be involved in the development of these if these are to be made available quickly and gain the reduction in demand from council's water systems. Suggestion/Solutions: One of the advantages of being a significant water user is we have kept records of water use so have valuable information that can be used to consider alternatives. For instance: • We know that two people living in a dwelling use about 10 m3 of water a month, roughly your breakeven point. The majority of that will be sanitation use, so in towns this flows out through the sewer system (we recycle that water for irrigation because of our septic tank.) • Water capture on our property is physically possible with plenty of space for tanks, not so on small sections, but the monthly rainfall in mm for the past six 'summer' months from November 2024 of 3, 19, 12, 10, 11 & 12 would need a catchment surface measured in acres rather than the roof area currently available, 200m3 in total provided .6m water capture in November around 25 minutes irrigation for the vegetable garden for the month. In most parts of the district we just don't get enough rainfall to make the investment in water capture successful. Water capture is more realistic in areas with reasonable rainfall and hence lower water use. CO is an extreme, it needs local appropriate solutions. • Bore water is not possible on our property but a take from an adjacent creek may be, and has the potential to service other adjacent lifestyle properties. The point of this is, demand within each locale needs to be understood, and realistic options of appropriate designs identified and tested. This will facilitate the transition from council supply to local community untreated supply for some of the demand. Hence, we submit that council confirms it intends to move to a more volumetric system for provision of water (such as option A) once alternatives are available for communities to move to, which are reliable and deliver the water the community wants to use. By this we do not mean that council has to necessarily provide the infrastructure. Rather, after council has: • Understood from the community's perspective, the value the community gains from water use other than drinking water and the volume necessary to achieve this, • Facilitated designs that can be community based to provide appropriate non-drinking water options, • Provided any direct support such as establishing or amending current water consents to allow multiple, distributed takes, creating design templates for private, 'body corporate' type agreements to cover supply and invoicing arrangements then pricing for council supply can change with community support. Once these have been tested and proven in a small number of locales, it can be scaled as quickly as citizens want and council will have been 'providing leadership for the district, providing sustainable management of local infrastructure, including …water…' (source CODC Governance Statement) If at that point residents don't want to take advantage of the alternative option(s) they can make that decision knowing they have the remaining options of using less water or paying more for what they use. Once these simple options are in place then it is reasonable to change the volumetric water charges. We and others can come up with lots of ideas that might work for alternative supplies and water

capture as described above, but the needs and opportunities of each community must be studied first and designs based on that knowledge for this transition to be successful. As far as we are aware this hasn't been done as we have asked if it has twice during the consultation process and haven't to date received a response. (That isn't a criticism, we are assuming people are still looking to see if it has and we will get a reply in due course.) But our assumption is it hasn't been done. This study would be an admirable place to start. A study to understand what is needed can happen very quickly (weeks not years) if a qualitative process is followed by a more general quantitative survey based on the initial findings. (I.e. Ask a few people about their needs, then from what is learned survey widely on what has been learned to build knowledge of what is happening out there and what the appetite might be.) Then some representative areas could be established to prototype some different approaches, and with those interested, design, installation, testing and review could be arranged. This would identify issues to solve for such arrangements and once solved, scaling could occur. In all this, council's role should be focused on facilitation and barrier crushing, with any physical investment coming from the community to provide their own infrastructure. This has the benefit of sorting the tire-kickers from those really interested in doing the mahi. Council's facilitation and path finding involvement is sensible from the point of view council gains through lower demand on the alternative higher cost higher quality water supply without the angst that will come from driving up the cost to engineer people's behaviour. When has that ever been a joyful process. Little, local, distributed supply systems may also be a process that brings neighbours together strengthening community wellbeing and resilience. Hence our suggestion is: • Immediately i.e. from June 2025 work with the community to understand demand for water, and by summer 25/26 support testing multiple design and build solutions of local non-potable systems that people can migrate to easily. Migration scaled up in 2026/27 when tests have been proven. • 2025/26 signal the introduction of higher volumetric water charging from as early as 2026/27 Option B, with Option A being introduced in 2027/28 (the only reason for time extension being progress delayed by council, i.e. the community can't drag the chain to extend the time.) • Review progress regularly and amend system as appropriate this time next year once you have understood more. • And don't give this job to the Water Team, they will be too busy to make it happen quickly. (Not their fault, just is.)

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Donation to Highland Park We find the concept of making a donation to a private business for them to operate and expand both unacceptable and the thin edge of the wedge. The argument that, an activity which is going to have 'positive economic impact' should be considered for financial support from captured ratepayers money, is one that was disgraced back in the 1990s. I can provide many international examples of failures and waste. Furthermore, every good business has a 'positive economic impact.' They bring workers, users, visitors, support industries... so if you support this one where does the line get drawn for support? Council should be making it clear to anyone who asks, it is already significantly supporting these business events or activities, as without provision of quality services and infrastructure, roads, 3water services, planning and building consents ..., these activities would not be able to operate here. That is council's role, to get those services and infrastructure working so well that this becomes the favourite place for business people to operate. It is not council's role to support high end activities for the wealthy where only those who can afford to attend will attend, through the use of funds, in part sourced from struggling families and individuals who can't afford to pay their rates let alone attend these events. If Council contributes financially any profit from the event would be a direct transfer payment from many poor families to a rich one. Council - the inverted Robin Hood. Our central government has made it clear to council, 'stick to your job' and has shown some leadership through their refusal to donate to the America's Cup. These are no longer sports, they are large businesses. That's why our submission is: council contribution to these business events, needs to be limited to the great local government services that support them going ahead, like you aim to do for all businesses. As a side note, I think you will find the $250,000 can be applied to any legitimate expenditure by resolution. These are not defined 'reserves' they are surpluses. At the least they can be applied to current legitimate tourism expenditure to reduce the rate burden for those paying the tourism rate, for one or more years. For these reasons, we do not support the proposed donation. We support option C only.

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Thank you for the opportunity to lodge a submission in respect of the Central Otago 2025-34 Long-term Plan. I Support Central Stories Museum and Art Gallery to receive funding from Central Otago District Council that allows them to function and to continue to provide all the programmes they do for our community and visitors. Museum is awesome in alexandra and great way to learn for school children.

Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	Option B: Maintain the current level of support that Council provides for all of the halls and facilities listed above.
Q17. **Which hall/facility would you like to comment?**	not answered

Q18. Would you like to comment on the Ophir Hall?

not answered

Q19. Would you like to comment on the Poolburn Hall?

not answered

Q20. Would you like to comment on the Clyde Police Lockup?

not answered

Q21. Would you like to comment on the Clyde Railway Station Building?

not answered

Q24. Would you like to comment on Clyde Hall?

not answered

Q25. Would you like to comment on Becks Hall?

not answered

Q26. Would you like to comment on Vallance Cottage?

not answered

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? not answered

Q44. Which option do you prefer? Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

not answered

Q46. Which option do you prefer? Option B: Retain the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

As a swimmer, I use this pool daily during the summer months; however, if it were better staffed and the public knew exactly when the pool was open, many more members of the public would use this facility.

Q48. Which option do you prefer? not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** not answered

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54. **Which option do you prefer?** Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

This is not enough money considering Maniototo is getting $200,000 for a half turf, and for a full turf, you are only providing $300,000

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

As a member of the Catholic Women's Fellowship, we desperately need the use of the room in that facility to be able to run the op shop, which serves a great need in our district to locals and visitors, the money earned is given out to local organizations, I will enclose a summary of such finances. We open the shop twice weekly our ladies are all volunteers, and we provide a service in our town to many people.

Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.
Q13. **Would you like to comment on our plan for water?**	not answered
Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.
Q15. **Would you like to comment on volumetric charges?**	not answered
Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Naseby Hall Naseby General Store

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

not answered

Q30. **Would you like to comment on the Naseby Hall?**

A cultural and social centre for the Naseby community, necessary for local activities and subsequently the weaving of community history and identity. The hall is currently in adequate condition and very important to the increasing Naseby population.

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Walplata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

Naseby people experienced what it was like without the Naseby General store and would not wish to return to that situation. The store is vital to the community o many levels. It is hoped the present arrangements will continue safely with CODC partnership.

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** not answered

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** not answered

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?** not answered

Q59. **How did you hear about this engagement opportunity? You may tick more than one.**

Positively Maniototo
Word of mouth

Q1. **I'm registered for Let's Talk**	No. Please complete the demographic questions below.
Q2. **First name**	Jules
Q3. **Last name**	van Uden
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I'm a Central Otago District ratepayer
Q6. **Where do you live?**	Not applicable
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

From 2023 to 2024 you already increased the water rate by $250.00 and the wastewater rate by $400.00. If you create a new CCO the ratepayers will have to pay for a new company, and directors fees and a chairman. Our rates are at an unsustainable level already.

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

Option C is only $100.00 move that what we are currently paying.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Riding for the Disabled

Q18. Would you like to comment on the Ophir Hall?

not answered

Q19. Would you like to comment on the Poolburn Hall?

not answered

Q20. Would you like to comment on the Clyde Police Lockup?

not answered

Q21. Would you like to comment on the Clyde Railway Station Building?

not answered

Q22. Would you like to comment on the Former Clyde Museum Stables & Goods Shed?

not answered

not answered

Q24. Would you like to comment on Clyde Hall?

not answered

Q25. Would you like to comment on Becks Hall?

not answered

Q26. Would you like to comment on Vallance Cottage?

not answered

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities?	not answered
Q44. Which option do you prefer?	Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

not answered

Q46. Which option do you prefer?	Option B: Retain the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

not answered

Q48. Which option do you prefer?	Option D: Do not support

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?**	Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54. **Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Use the $250,000.00 you found in the tourism reserves. So the ratepayers wont have to borrow the money.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

I think a development charge should be met by the developer when proposing new subdivision i.e. Sewerage and water and an upgrade if need be to our sewerage plant.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	Word of mouth

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Poolburn Hall

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

Poolburn MoaCreek Memorial Hall: I strongly abject to this hall being on your divest list. This is our Memorial Hall, Lest We Forget. The hall is our only meeting place in the valley of this time it is sued all the time. Uses of our hall: School concerts, Play Group, 21st parties, community Group meetings, Gift evenings, Cricket socials, Rugby and Hockeys socials, Balls, School re-union, family re-union, church re-union, send off for locals, exercises, line dancing, afternoon teas for local clubs, Twighlight tennis, patchwork groups, badminton and bowls, meetings of all kinds eg. irrigation, hockey, cricket, curling. Our hall is a very valuable asset to us and is our soldiers memorial Hall if we haven't got a hall where do we meet where do we have functions. We haven't got much else left so please as is.

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

all halls and buildings not useable get sold off to private enterprise with conditions on sale for use as tourism ventures or private accommodation etc. I would like council to allow another camping ground development i.e. supply land only so that a permanent camp for workers could be established with buildings paid for by power trust or private enterprise it could pay a lease back to council. There is a shortage of accommodation in Cromwell this will only get worse as the 2 remaining camps shut down.

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	Mary Ann
Q3. **Last name**	Baxter
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I live in the district
Q6. **Where do you live?**	Vincent Ward (Alexandra and surrounds)
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	yes
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	[redacted]
Q12. **Please choose your preferred option.**	not answered

Q13. **Would you like to comment on our plan for water?**

I am not ready to make a choice with the options offered. I've commented in my written attachment at the end of the form addressing issues of concern I have in expecting ratepayers to respond to what is provided, mostly because at the moment what is providedis not substantive.

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

Again, I comment on this in my attached submission. I feel before we make any choices we should be looking at water with a holistic overview, taking into account all we need to consider regarding whether or not one of the CCO options is the best option. I do not agree to participating in a partial or piecemeal approach to this element which I consider is very much part of strategic big picture thinking and decision making.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	not answered

Q18. **Would you like to comment on the Ophir Hall?**

not answered

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

This small community did a great job getting this fine facility for their district. This was always a likely outcome. It's important to have Teviot feeling we do commit to their needs and enjoyment as a community.

Q46.	**Which option do you prefer?**	Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

We have some amazing winter opportunities here and also it may well be about promoting it far more as an area to use. Such facilities are so hard to regain should we close it. I do wonder if to have got to this point is also probably about past prioritising elsewhere in terms of maintenance by CODC, rather than looking after it as well as it should have been throughout the years?

Q48.	**Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Given how much Cromwell continues to be enabled to think big because of the Endowment Fund it is critical that our other smaller communities also have a slice of our overall pie now too. This is a wonderful example of a community which has worked so hard to get this fine truly community facility without needing to be an icon - it is practical and will not cost us anything like we're looking at having to provide to cover Cromwell's various capital projects - hopefully only through their Endowment Fund and other sources other than rates.

Q50.	**Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

This is a really concerning aspect of this council's current commitment to tourism and why I am suggesting it is time we divested ourselves of the whole of tourism - reserves funding and staffing and any other line of the budget that is about tourism. This is about a business which is highly successful and does not need any seeding funding.

Q52.	**Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Great to see some ratepayer funding going back into the Maniototo - and where better than for our youth and for sport!

Q54.	**Which option do you prefer?**	Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

We have a highly successful high school here, sports-wise and this is a very small way as ratepayers that we can continue to show our support for all our secondary students, and others who will use it, and also to support our dedicated teachers and coaches who make sure all of this happens as well as the parents who are such great "taxi' drivers. .

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

I question that numbers is always a significant factor when an issues arises - it is a very convenient and easy way to dismiss an idea or a marginalised group that you may need to be hearing from. How does it sit alongside your policies about Equity and Commitment to Te Tiriti practices - it may need some modifying? How do you feel your revenue and financing policy and development and financial contributions policies stand up to the critique of the issues I have with the LTP and which I have submitted as an attachment? Happy to discuss this further.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**	See my supporting document in 33.
Q58. **Would you like to upload any supporting documents?**	https://s3-ap-southeast-2.amazonaws.com/ehq-production-australia/f4fb6735678ed92543bf5d4151013c037042de6a/original/1746068052/d286f4f3c438e51f42e60cc3bf0a924b_Submission%20to%20CODC%20Long%20Term%20Plan%202025.pdf?1746068052

I've read the document! But I'm left anxious wondering when Teviot Road will be widened by 500mm to control edge break. All our "riding" rates were used to seal this. road during the 1950's, 1960s & 1970s. A huge financial investment. We cannot allow this to revert to a gravel road. (as Southland is threating too do) Where is the Teviot Special plan?

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q13. **Would you like to comment on our plan for water?**

Water Done Well 9. Access to safe water and sanitation is a fundamental human right and essential for protecting public health. To ensure this right is upheld, the delivery of drinking water, wastewater, and stormwater services must be maintained or strengthened. 10. This includes sufficient investment in the renewal and maintenance of infrastructure to sustain levels of service over the medium and long term, and this includes adequate provision made for future population growth. Treatment plants must meet regulatory standards. 11. The chosen delivery model must be cost-effective and keep costs manageable for users, while also ensuring that higher-risk and currently underserved communities receive adequate resources. Consideration of intergenerational equity, including the impacts of climate change, must be embedded in all decision-making. 12. Where stormwater systems are discussed, there should be evidence of coordination between local and regional councils to manage interactions with flood protection systems and avoid increasing flood risk. If different water services are managed under separate arrangements or documents, these must be aligned and coordinated. 13. NPHS supports consultation with iwi Māori on all issues related to water services. Additionally, water metering and charging should be applied equitably, with appropriate provisions for water used for life-supporting purposes.

Q14. **Please choose your preferred option.**	not answered

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. **Would you like to comment on another hall or facility?**

NPHS acknowledges that some community facilities and halls are ageing, and in some cases, the cost of earthquake strengthening may not be justifiable for rate payers. NPHS also recognises that CODC, like many councils across the motu, is looking for ways to reduce costs. That said, the divestment of community halls and facilities may leave rural and isolated communities vulnerable, particularly in times of emergencies. 15. In many communities, halls serve as vital emergency hubs. They become spaces where people can access information, shelter, and food5 , or use them as cooling/warming centres during extreme weather events. 6 Divesting from these facilities may exacerbate existing inequalities in underserved areas such as Ophir, Poolburn, Naseby, Millers Flat, especially as the frequency and intensity of climate-related emergencies continue to increase.7 16. If the Council proceeds with divestment of community halls, NPHS recommends that some practical preparedness is provided to support community resilience in the event of a natural disaster or other climate emergency. Any reduction in community infrastructure should be offset by practical preparedness measures to ensure residents are not left more vulnerable as a result. Practical preparedness at a local level could be initiatives such as community training on First Aid or Civil Defence, supporting resilience planning (example: flood plans are up to date), and ensuring that communications systems are disaster resilient. 8,9 4 17. Community resilience and the social capital of a community are key determinants of a community's ability to respond to natural disasters and emergencies and are equally important for everyday wellbeing. Community halls play a key role in developing this resilience and social capital when they are utilised by community groups.10 18. To address the potential loss of social infrastructure and the impacts on community connectedness and cohesion, NPHS recommends that the Council work with local communities to support alternative ways of fostering social connection. This could include providing funding or capacity-building support to grassroots groups, enabling shared use of remaining facilities (e.g., schools, sports clubs). Strengthening social infrastructure in this way can help maintain community cohesion and wellbeing even where physical halls are no longer maintained.11 This also aligns with Community Outcomes - Robust Social Fabric.

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Significance and Engagement Policy 19. NPHS supports the inclusion of a Māori Participation Framework in the Significance and Engagement Policy. NPHS recommends that if any consultation with Māori has been done prior to the wider community consultation, the report of engagement with Māori is released with the other consultation documents. This would enhance transparency and support the community to understand Māori aspirations and values.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Conclusion 20. To summarise, NPHS recommends that the Council consider how to ensure changes are implemented equitably and with mitigation measures to prevent potential harm. 21. We welcome the chance to support the Council's efforts to promote community wellbeing, build resilience, and ensure all residents, particularly those in rural, underserved, and priority populations, have equitable access to the conditions that enable good health. We are available to provide further advice and/or support the implementation of health-promoting and equity enhancing initiatives under the Long-Term Plan.

Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	not answered

Q15. **Would you like to comment on volumetric charges?**

None of the options are acceptable. The increase in out water bill would be 400%because of the proposed "fired charge".

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Clyde Police Lockup
Clyde Railway Station Building
Former Clyde Museum Stables & Goods Shed
Blyth Street Museum, Clyde
Clyde Hall
Former Clyde Briar & Herb factory, and cottage

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

Long term lease and maintain council funding and support as per Clyde Museums submission.

Q21. **Would you like to comment on the Clyde Railway Station Building?**

Divest the building to a business so the public and tourists can view and enjoy the history. e.g. cafe, Clyde company

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

Divest the building to a business so the public and tourists can view and enjoy the history. e.g. cafe, Clyde company

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

Divest the building to a business so the public and tourists can view and enjoy the history. e.g. cafe, Clyde company

Q24. **Would you like to comment on Clyde Hall?**

Divest the building to a business so the public and tourists can view and enjoy the history. e.g. cafe, Clyde company

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

Divest the building to a business so the public and tourists can view and enjoy the history. e.g. cafe, Clyde company

Q29. **Would you like to comment on the Ranfurly Hall?**

not answered

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	not answered
Q3. **Last name**	not answered
Q4. **Email address**	not answered
Q5. **What is your connection to the Central Otago District?**	not answered
Q6. **Where do you live?**	not answered
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	not answered
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

While a CCO looks more attractive initially, it also presents an opportunity for increased bureaucracy. Currently water is supplied to households on a 'user pays' basis. It appears that a similar situation would prevail under a CCO but with additional infrastructure costs which would likely have the effect of increasing water charges beyond those of a Council--owned operation.

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Clyde Police Lockup
Former Clyde Museum Stables & Goods Shed
Riding for the Disabled
Millers Flat Bowling Club
Roxburgh Squash Court Building

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

If the premise has nil use it should be divested.

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

If the premise has nil use it should be divested.

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

If the premise has nil use it should be divested.

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

If the premise has nil use it should be divested.

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46.	**Which option do you prefer?**	Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48.	**Which option do you prefer?**	Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

While a community hub seems desirable for the area, the amount being proposed for it's constructions seems excessive when the total population of the Manuherekia Valley is only 1,310. If the community can't make do with existing facilities in Oturehua and Omakau and they want something grander, they should be prepared to fund it themselves.

Q50.	**Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Apart from the considerations for carbon pollution and its relationship to global warming, the Council should not be committing its ratepayers to contributing to the funding of a private business owned by a foreign multi-millionaire in the hope that this will possibly bolster business for the local hospitality sector - not all ratepayers benefit from the profitability of hospitality operators.

Q52.	**Which option do you prefer?**	Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54.	**Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58.	**Would you like to upload any supporting documents?**	not answered

Q59.	**How did you hear about this engagement opportunity? You may tick more than one.**	Central App **Other (please specify)** Attending public meeting with Council representatives.

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	Tony
Q3.	**Last name**	Streeter
Q4.	**Email address**	[redacted]
Q5.	**What is your connection to the Central Otago District?**	I live in the district
Q6.	**Where do you live?**	Cromwell Ward
Q7.	**What year were you born?**	[redacted]
Q8.	**What gender do you identify with most?**	[redacted]
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.
Q13.	**Would you like to comment on our plan for water?**	Sensible move to achieve economy of scale.
Q14.	**Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

Can see the inequity in low users playing proportionally more because of the relationship between the fixed and volumetric charges. The move towards remedying that the option is no change, or exorbitant increases of 300% and 400% for cubic metre water charging. Would have supported a smaller increase, but as none is available have chosen option C. Have the figures been skillfully chosen to support a preferred outcome and swing public submission in support of the Council preferred option A. What proportion of users consume 50% of the Council's water? Our property would be similar to a number of others as a rural residential resource area property like ours sits on sand and gravels. We have felled some large pines, planted deciduous, drought tolerant and natives for shelter and biodiversity, sown a 'smallish lawn for summer heat amelioration and grow fruit, nut, berry and vegetables for our sustainable use and those of friends and neighbours. A justification for the volumetric charge is to reduce water usage. Retired our only income is from savings and so we will seriously need to consider our water usage. We can't go back, out garden is there so we see as a result a dieing garden, potentially the loss of shelter belts, increased fire risk, and loss of well-being.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Clyde Hall

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

A great little hall! It is important that this growing community retain a hall. Savings in Council divestment of other Clyde buildings should be channeled in to Clyde Hall upkeep.

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. Would you like to comment on the Riding for the Disabled?

not answered

Q28. Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?

not answered

Q29. Would you like to comment on the Ranfurly Hall?

not answered

Q30. Would you like to comment on the Naseby Hall?

not answered

Q31. Would you like to comment on the Patearoa Hall?

not answered

Q32. Would you like to comment on the Waipiata Hall?

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. Would you like to comment on the Millers Flat Hall?

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?**	Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Declining use due to other options. Better spent on Roxburgh pool.

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

A valuable facility that has a dedicated committee who have been proactive in planning (and fundraising) for a new centre given issues with loss of hotel and current hall needing significant earthquake strengthening. Continued population growth in the Omakau area will encourage use of new facility, particularly if halls further down the line are closed.

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Hardly a 'must have'. This is a commercial operation and should not be supported by ratepayer funds. Through the Cromwell Motor Sport Park consent process to the Environment Court hearings no detailed cost analysis was provided. After the initial patronage flurry attendance has been ' lack lustre'. There has never been a sound business case for the facility. Cromwell businesses have generally been disappointed at the revenue that rolls in on race day as most patrons are at the meet for the day and then travel back to Queenstown and Wanaka for the evening. Highlands is already 'on the map' and doesn't need the injection of $250 000 of Council money to be any 'brighter'. I would suggest that much of the financial benefit of large race meetings heads to QLDC territory.

Q52. **Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Important that there is a safe high quality surface for sports in the Maniototo. Dual use by school and community benefits all. Ranfurly's climate and distance from other similar surfaces means that money spent on artificial turf is well spent.

Q54. **Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

-

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

-

Q58. **Would you like to upload any supporting documents?**	not answered

not answered

Q33. Would you like to comment on the Wedderburn Hall?

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

Submission to Retain Millers Flat Community Hall As a Millers Flat resident I am an advocate of the Millers Flat Community Hall and wish for it to have the continued level of council support that it is receiving and not be divested. 1. Community Importance The Millers Flat Community Hall has been the centre of our rural community since 1887, The hall serves as a vital hub for social connection, learning and development for the local Millers Flat School next door, and is also used by individuals, groups and outside organisations. as The hall is good meeting point between the outer nearby communities. The hall provides a facility for a range of activities: • Local community and group meetings • Family, community celebrations and funerals • School use – prize giving's, indoor sport, also the school has a large seven aside tournament at the hall this is one of their major fundraising events for the year. It in turn contributes to the local economy via spending at small business. • Fitness and wellness classes – yoga etc • Voting for the local and wider community • As a designated emergency centre we provide a facility for emergency response and coordination in times of crisis and refuge (e.g., earthquakes, floods) 2. Facility The hall has a strong sense of community, it provides fantastic space for locals and wider community to use. Events held here bring in visitors and contribute to the local economy. • A full kitchen that is able to cater for large and small events • There are two parts to the hall, one that is carpeted and the other that has a wooden floor so can cater to a number of types of events. These include wider organisations having meetings, community meetings/get togethers, school prize giving's and indoor sports where need due to weather, yoga, parent groups etc. • Very good toilets • There is wheelchair access • A very large carpark area 3. Emergency Response Facility As a designated emergency centre Millers Flat Community Hall is a much needed facility on the other side of the river to state highway 8 if the bridges in Millers Flat and Roxburgh were disrupted for any reasons (earthquakes, flooding etc) we would be isolated. It is the only space that we can use in an emergency event. As a designated emergency centre it is well equipped with civil defence radio's, first aid kits, a generator etc.

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

Carrot and stick model. Some incentive to save and some education. Big water use is gardens. These provide ambience and enhanced living conditions and should. Council could take a greater lead on dryland landscaping. Thinking Centennial Avenue verges now look generally very messy, a poor entrance to the town. How about plantings of xerophytic plants (natives Kanuka, tussock grasses, hebes etc)?

Q16. **Please select your preferred option.**	not answered

Q17. **Which hall/facility would you like to comment?** not answered

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** — Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

If the pool is retained a greater use of the opportunity to use the heat transfer system from the adjacent ice rink. An independent review needs to be completed so as the pool can maximise the use of the waste heat from the rink.

Q48. **Which option do you prefer?**	Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

I support community hubs in general

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

This is not supported. This is a commercial operation.

Q52. **Which option do you prefer?**	Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Sport and exercise keep people (the community) healthy. Play sport, keep people out of court.

Q54. **Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

As for the Maniototo proposal.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	not answered

Q2. **First name**	not answered
Q3. **Last name**	not answered
Q4. **Email address**	not answered
Q5. **What is your connection to the Central Otago District?**	not answered
Q6. **Where do you live?**	not answered
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	not answered
Q9. **I am submitting**	**on behalf of an organisation or business (please provide the name below)** Big Sky Adventures Ltd
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

I'd like to see private water schemes within the Maniototo retained and not merged within a CODC entity

Q14. **Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ophir Hall
Clyde Police Lockup
Clyde Railway Station Building
Former Clyde Museum Stables & Goods Shed
Clyde Hall
Former Clyde Briar & Herb factory, and cottage
Ranfurly Hall
Naseby Hall
Patearoa Hall
Waipiata Hall
Naseby General Store
Centennial Milk Bar
Ranfurly Service Centre

Q18. **Would you like to comment on the Ophir Hall?**

It's a key local community asset and should be retained by the Council

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

The Council should continue to own and maintain building of historical significance such as this building

Q21. **Would you like to comment on the Clyde Railway Station Building?**

The Council should continue to own and maintain building of historical significance which is also an integral part of the Otago Rail Trail story. It's also the home to a significant family-owned rail trail tourism operator that contributes strongly within the community and who also maintain the small railway museum within the building

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

It's an integral part of the Rail Trail story and should be retained and maintained by the Council

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

A major centre of musical productions and theatre which needs to be retained as a community asset by the CODC

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

Key historic buildings which will only survive if retained by the council

Q29. **Would you like to comment on the Ranfurly Hall?**

Much used local asset. Should be retained by the Council and it's use should be more widely promoted

Q30. **Would you like to comment on the Naseby Hall?**

This is a key community asset and part of the historic fabric of Naseby, which must be retained by the CODC. Regularly used for community functions, weddings, funerals, birthdays. The only building in Naseby which is capable of holding larger functions. However, rather than contemplating selling this valuable asset the Council should be working with the community to increase it's useage.

Q31. **Would you like to comment on the Patearoa Hall?**

Should be retained by the Council

Q32. **Would you like to comment on the Waipiata Hall?**

Should be retained by the Council

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

Naseby is growing as a tourist centre and the store is not only provides an important function to locals and cribbies but has become a focal point for visitors. If the store building was sold there is a real risk that it may lead to the demise of our local shop. It's also the NZ Post agency and a central meeting place. The Council should retain the building and continue to rent it to the current shop owner.

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

Iconic Ranfurly building and major art deco feature. Should be retained by the Council

Q41. **Would you like to comment on the Ranfurly Service Centre?**

This is the face of the Council in our area and should be retained. Also an important art deco feature

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** — not answered

Q44. **Which option do you prefer?** — Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** — Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** — Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** — Option B: Agree to provide a $250,000 grant funded through a promotions rate.

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** — Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

An important sports facility which needs to be upgraded to support and encourage Maniototo's many hockey players

Q54. **Which option do you prefer?** — Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

The Naseby water and sewage connection fees seem extortionary given that both systems have recently been upgraded and the infrastructure is in good order.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	The News - Central Otago Positively Maniototo Central App

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	not answered
Q3. **Last name**	not answered
Q4. **Email address**	not answered
Q5. **What is your connection to the Central Otago District?**	not answered
Q6. **Where do you live?**	not answered
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	not answered
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ranfurly Hall
Fenton Library
Naseby General Store

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

not answered

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

I appreciate this hall doesn't have high use, however, it is a vital connection in our community that brings many people together from the Maniototo at the times it is used. The Drama Production is an example of gathering the Community together over 4 shows. The School end of year prize givings are another example of bringing many in the Community together. Where else would these events take place if we didn't have our hall?

Q30. **Would you like to comment on the Naseby Hall?**

not answered

Q31. **Would you like to comment on the Patearoa Hall?**

not answered

Q32. **Would you like to comment on the Waipiata Hall?**

not answered

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

As a past board member of the Radio Charity Trust, I'd like to suggest the Fenton Library is maintained by council for the greater good of the Maniototo. This Community hub is a vital link in increment weather and natural disasters. I appreciate that it could be run remotely in times of need, but a base for the equipment and office space is still required. It's always surprising how many people 'drop in' to the station.

Q38. **Would you like to comment on the Naseby General Store?**

I don't live in Naseby, but I do visit regularly. The local store is an essential community asset. To lose the store would hugely disadvantage the locals and visitors alike.

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** not answered

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** not answered

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Our children are already at a disadvantage living in the Maniototo when it comes to turf sports. The need to travel every week is costly and time co symington for families. Having a safe, fit for purpose turf here in the Maniototo means they can at least practice here on a good surface. If we were to lose our turf due to disrepair, alot of families would pull out of sport as the cost of transport for practices as well.

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	not answered
Q3. **Last name**	not answered
Q4. **Email address**	not answered
Q5. **What is your connection to the Central Otago District?**	not answered
Q6. **Where do you live?**	not answered
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	not answered
Q9. **I am submitting**	**on behalf of an organisation or business (please provide the name below)** Coterra Ltd & Pisa Village Development Ltd
Q10. **Do you want to speak to your submission at a formal meeting?**	yes
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	[redacted] and [redacted]
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

If a CCO will provide a greater level of service, and transparency regarding existing network capacity, planned infrastructure works and upgrade requirements (including clear timeframes), then this is certainly the preferred option. More information is required to understand this however, and it is understood that this will be a separate/ongoing community engagement exercise.

Q14. **Please choose your preferred option.**	not answered

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	not answered

Q54. **Which option do you prefer?** not answered

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

The focus of this submission is on the Development and Financial Contributions Policy, the associated Infrastructure Strategy and proposed/forecast three waters infrastructure works, and how these aspects relate to Council District Plan Change 19 outcomes and projected growth modelling. Some specific queries/requests were submitted to Council in an email sent to Julie Muir (from Coterra Ltd on behalf of Pisa Village Development Ltd) on the 17th of April 2025, but no response has been received to date, so a response (and/or meeting with Julie) in relation to that email may address this submission. One of the obvious queries in relation to the Development and Financial Contributions Policy is whether Council have updated (or intend to update) the Policy to acknowledge the Plan Change 19 outcomes, particularly for greenfields sites that have been re-zoned through the process, but which sit outside of the current Council Water and Wastewater scheme boundaries. Whilst it is clear that Council has a significant programme of infrastructure works ahead, and these works have triggered significant increases in development contributions, Coterra Ltd and Pisa Village Development Ltd have been seeking clarity regarding existing water and wastewater network capacity within, and leading to/from, Pisa for quite some time. This has included engaging a hydraulic modelling consultant, but it has not been a successful exercise due to the inability to obtain base modelling information/data from Council. Coterra Ltd and Pisa Village Development Ltd feel that there would be mutual benefits in developers being able to work more closely with Council (or potentially a CCO in future) to understand network constraints and manage required upgrades (not just within the Pisa area, but District wide). Potentially this might include situations where developers install required Council bulk infrastructure and are credited for associated levied development contributions. Ultimately, Coterra Ltd and Pisa Village feel that a greater level of efficiency, including reduced costs and timeframes, can be achieved in the management of Council three waters infrastructure through better transparency and engagement between Council and developer/consultants. This would also be expected to allow for improved management of population growth and housing demand.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Because this submission is primarily on behalf of Pisa Village Development Ltd, with a particular three waters focus, it does not provide comments or preferences in relation to Council's key proposals (other than the proposed CCO matter).

Q58. **Would you like to upload any supporting documents?**	not answered

Q1. **I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2. **First name**	Ann
Q3. **Last name**	Rodgers
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I live in the district
Q6. **Where do you live?**	Teviot Valley Ward
Q7. **What year were you born?**	[redacted]
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

As a low user I have worked out that Option A will result in the lowest increase for me. I believe this option will encourage more efficient water use and result in higher users paying a fairer price for their high use rather than lower users subsidising higher users through fixed annual charge being significantly higher.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?** Clyde Hall

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

not answered

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

The Clyde Hall is a well-used hall and home to the Clyde Theatre Group. Clyde is a rapidly growing community with a new large-scale subdivision and a new retirement village recently developed, and a number of other large scale subdivions planned. A community hall seems an approprirate facility to support.

Q25. **Would you like to comment on Becks Hall?**

not answered

Q26. **Would you like to comment on Vallance Cottage?**

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities?	not answered
Q44. Which option do you prefer?	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

The comittee are to be congratulated for the enormous effort they have put in to get the new pool constructed. It is an outstanding facilitiy and I would like to see it used to its full potential for locals and visitors alike. As it currently stands the health and safety risks associated with not having lifeguards etc are to significant and potentially leaving any comittee members personally liable. If the pool were Council owned, the community would have access to lifeguards and potentially swimming lessons. As it currently stands 14-18 year olds are required to have an adult present. Roxburgh Area School as at 1 July 2024 had a role of 129 students. The 14-18 year old cohourt making up a large part of the role and they are currently not able to access the pool without an adult. It would be good to see the pool run by the professional team at CODC which would serve the local community and also provide a recreation option for visitors and seasonal workers further enhancing the experience in the Valley. If the pool were to be taken over by CODC I would also like to see that a concession card could be used across all pools in the District and perhaps a week or month card that could be used accross the District.

Q46. **Which option do you prefer?** Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

The outdoor pool has never been fully utilised. I recall when it was first opened, when my children were young, the biggest barrier to it being used was the lack of shelter which remained until Fulton Hogan installed two shade sails. We used to use it for childrens birthday parties. Had trees been planted at the time the pool was installed to provide future shade I believe it would be more widely used. I would like to see it retained and more shade trees, picnic tables etc installed to provide a nice outdoor area.

Q48. **Which option do you prefer?** Option B: Provide additional funding of up to $1.6 million, loan funded over a period of 10 years.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?** Option B: Provide a $200,000 grant loan funded over a period of 10 years.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?** Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Fees and Charges that are 'deposits' should be adjusted to better reflect the average cost of the activity they are funding. A disproportionately low deposit followed by a final account that is significantly higher than the deposit doesnt give the user of the service a realistic indication of the cost of the service.

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	**on behalf of an organisation or business (please provide the name below)** Hamilton Runs Ltd
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

Our preference is to maintain the current system due to uncertainties surrounding the financial impacts of creating a Council-Controlled Organisation (CCO) for water services. The consultation document excludes water services after year 2, and there is concern that if a multi-council water service is not adopted, the content of the Long-Term Plan (LTP) will change significantly. If other districts do not agree to combine as a multi-council organization, it could result in duplicated costs for administering separate entities (one for rates and one for water) for Central Otago , re-recruiting staff, and legal and accounting expenses. Ratepayers could face higher bills due to setup fees and duplicated administrative costs. Therefore, the preference is to stay with the existing system until it is determined that a multi-council controlled operation is feasible, cost-saving, and clearly defines shareholdings for each region involved. An example of how removing services and recreating them under another model that has been a backward step would be the removal of our Maniototo County Council that serviced our local roads , we certainly had better maintained roads locally under the original system. The result of disbanding the local model was our area became a little fish in a big pool . From experience under both systems we had much better servicing of our roads under the previous local works. The same scenerio could result from a multi-council water system.

Q14. **Please choose your preferred option.** Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

We do not agree with the council's preferred option because: Only individuals consuming 275 litres per day or less will make a small saving under current usage, which equates to $67 per annum. If they further reduce their consumption, they could save slightly more. If you consider that a 5-minute shower consumes between 90-120 litres of water, a load of washing around 100 litres, washing and rinsing dishes 8-10 litres, and food and cooking preparation 8-10 litres. If you add in cleaning equipment, washing a family car occasionally, and watering a small vegetable plot, it clearly shows that the only people who would meet any savings would be single occupant households that do not have a partner or family living with them. If this option is adopted, We feel very concerned for young families with children who are already struggling with meeting mortgage costs and feeding and clothing their children. They are the demographic who will suffer the most with volumetric charging. Their water usage would be much greater, family showers for 2-4 children as well as mum and dad, a couple of loads of washing. It would certainly result in young families having to pay huge water charge increases. There is also no guarantee that the initially reduced connection charges will remain static they will likely increase as well. Option B would impact negatively . That is why preference is option C staus quo . Council could improve education on reducing water usage, e.g workshops on connecting rain water collection pods to guttering outlets on houses that could be used for watering gardens in preference to using town water . Other initiatives could be information on the most efficient toilet systems, shower heads etc for reducing water use.

Q16. **Please select your preferred option.** Option B: Maintain the current level of support that Council provides for all of the halls and facilities listed above.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

not answered

Q52. **Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

Fully supportive of this improvement which will be very well utilized by the entire community. It will benefit the school which is geographically isolated and so often have to travel long distances to attend practices and games at other facilities.

Q54. **Which option do you prefer?**	Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

The LTP contains multiple proposals and should have been documented and provided to communities at least six months ago. I feel there is much information to digest and the Community Halls and facilities portion of the LTP could be overlooked by many people completing feedback because they are unaware of how it will effect some of the smaller communities in the Central Otago area. This could result in closures and divestment of buildings of less populated areas based on feedback from larger urban areas who will remain unaffected. One of the reasons our organisation has completed feed back is because we heard the information about so many council owned halls being divested from Radio Burn , a largely volunteer run radio station that provides exceptional community service. Ironically the building they operate from "Fenton Library" has been recommended for divestment. It provides an essential service in our community as well as operating from a significant historic building. Many of these buildings and halls are worthy of retention and we implore council to work with communities to formulate positive outcomes. The facilities and Halls only make up one small portion of the overall spending by council. It would be prudent to take a look at other areas of council spending where costs could be cut before considering divesting buildings. I would like to comment that we appreciate our local service centre at Ranfurly and have found the council staff in the Maniatoto facility provide really outstanding service and have been very helpful with questions and queries about feedback of the LTP.

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	Positively Maniototo Radio

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50.	**Which option do you prefer?**	Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

This is a huge event for Cromwell and Highlands will certainly invest into making it amazing. This is the only value for money in our LTP that will give all rate payments and communities a return on investment. This event (when it eventually comes to Central) will reach far and wide. If Wanaka can do it with Warbirds, Wheels at Wanaka and their A & P show attracting between 40,000 and 65000 people then Cromwell can. We should be investing more than $250,000 to secure this amazing event.

Q52.	**Which option do you prefer?**	Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54.	**Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58.	**Would you like to upload any supporting documents?**	not answered
Q59.	**How did you hear about this engagement opportunity? You may tick more than one.**	Cromwell Bulletin Word of mouth

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

I wish this email to be part of the submission process for the LTP and require acknowledgement that it will be considered as such. Firstly, you have been made aware that the entire submission process has been designed to confine and constrict submissions to those topics selected by Council. Every piece of advertising – as I have pointed out – has informed residents and ratepayers that staff and some Councillors will be available to talk about or discuss the nine topics of discussion identified by the Council. Not one piece of advertising or communication issued by the Council has made it clear that any resident or ratepayer can comment on any issue. Some who have answered my observation have said that people who have shown up to these orchestrated sessions have talked about other things. No wonder. People who live here wish to talk about a variety of things which affect their rates, but I say again, the Council have confined and constricted conversations and that is done for a very good reason. Take a step back and look at the entire "Lets Talk" on line submission form. If you want to make a submission, you can't without registering and going through the entire 9 item constricted agenda. Only as a last minute thought you are asked if there is something else you want to discuss. That is not communication – that is limited discussion. Secondly, my experience as a very active Community Board member, has enabled me to fully understand the entire process of public submissions. It may be cynical, but it is nonetheless true, that the submission process takes place because of Local Government requirements under the Act. A box ticking process at best. I have viewed on many occasions the reaction to submissions by Councillors – it can be summed up by "the staff know best", or "the submitter doesn't understand", or "just more noise from a squeaky wheel". Thirdly, there is no evidence whatsoever that the Elected members ask the most basic questions of the CEO. Such questions as "why has central Government clearly identified rises in Council rates and insurance as being the two major factors in household unaffordability and what are you doing about it?" The answer is clear and obvious. The Council staff never start from a zero baseline. Everything is predicated upon "this is what we cost last year, and we need to spend more this next year because of inflation etc". There are absolutely no incentives to examine the entire gamut of Council roles and positions. As an example of this, a simple service request to remedy faulty chip sealing on a number of Clyde roads resulted in the involvement of a Roading Manager who appeared to do nothing, an Infrastructure Manager who appeared to do less, and complete reliance on self-governing by a contractor who operates on a cost-plus basis. Traffic management has evolved into a multi-million dollar industry on Council roads to the extent that, as another example, no work was being carried out on Clyde roads (Sutherland Street being an excellent example) while multiple company's employees stood around looking at traffic lights or miles of orange cones with no actual workers on site. Again, requests to fix minor things such as traffic directions signs resulted in Council staff wanting to hold on-site meetings. The option of actually doing something is one which doesn't seem to occur to some staff. Fourthly, financial management within Council seems to be either inadequate or run by those who are unqualified. "Finding" reserves is but one example. The whole issue of the effects of districtisation and depreciation is one that is either not understood by elected members or staff. I refer to a submission I made to the VCB a couple of months ago. It is time for the Council elected members, along with many other Councils around the country, to actually take responsibility and accountability for their positions. They set policy, not the staff, and it is more than time for a total review of numbers of Council staff based upon actual need. My submission hence to the Council is that a full, independent review of the Council's staffing levels and financial competence is commissioned.

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Halls - I'd like to make a general comment: If you divest the facilities to the community to "save ratepayers", take responsibility for a share of the maintenance and overheads at least for the first 10 years. I was chair of the Bannockburn community organisation when you divested the hall, and , before that gave funds to the purchase of the church. The expenses for both of these are vital. At least have the decency and responsibility to have them (including ours) free of rates for 10 yearsII Cromwell Cemetery - The Friends of Cromwell cemetery request the following: o A collaborative relationship with the council to improve the Cromwell Cemetery. We believe that a joint effort will be less cost to the council and thus the ratepayers. We have viewed the latest draft plan for the cemetery and would like to clarify the following: o A timeline of the scheme of works. 0 What is the timeline for the Council Contractors to remove the dangerous trees? a When will the Council install the dripline irrigation? 0 Why is there no rabbit proof fence? We believe a boundary rabbit-proof fence is necessary to protect the graves from further rabbit damage. The current process of laying Pindone once a year is not sufficient to take care of the rabbits as there is nothing to stop them returning. Plus, we consider the laying of Pindone in an area accessible by the public poses a risk to pets & children. 0 Request ORC biosecurity team monitor the cemetery quarterly for rabbit activity and this report be accessible. Other items we believe the Council need to incorporate into the Cemetery Plan 0 Local businesses and individuals should be engaged to contribute to the planting. a We need an ablutions block — 4.2x 3.0m included in the plan for the western extension. This can easily hook into these we rage line going down Cemetery Road for the industrial area in 2025. o The public need a designated carpark. This could be placed next to the ablutions block. 0 Bench seating. The Menz Shed has offered to build these, and we are sure that the local building supplies companies will contribute to the timber. 0 Build a stone wall along the front of the cemetery. 0 Install a brass “Cromwell Cemetery” sign and automatic sliding solar powered gates. o A plot & block directory at the front gate. 0 Signage and borders around the unmarked graves and Chinese areas. This would be in consultation with the community so that we consider the cultural needs of all stakeholders It's not an easy job of juggling. A bed tax would help on overseas tourist. Thank you for your work for the CO community.

Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	[redacted]
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

My comments on our plan for water. A. I believe that Council has set out only carefully handpicked information for ratepayer consideration. The information presented 'looks' comprehensive but is limited in its scope. For example, Council has presented just two 'black and white' options for our consideration but advise on p.10 (of their Submission Document) that '[Central] Government-providec councils with five options for the delivery of these services.' For a decision as fundamentally important as this, every option provided by Government should have been set out for our consideration, even if Council considered that some of them were inappropriate or perhaps unsuitable for implementation in Central Otago. Ratepayers should have been allowed to be the judge of that. I find these actions by Council to be patronising and, while maybe unintended, slightly offensive. B. Another example of the shortfall of valuable background material is my understanding that Council commissioned consultancy company Morrison Low to provide them with advice about the future options available for water delivery services. Any consultancy company worth their fee would have set out some form of risk/reward analysis for each option. Based on some nebulous argument of commercial sensitivity I can see no convincing case that allows Council to withhold sharing the Morrison Low report with the District's residents/ratepayers. C. During at least two Community Information Sessions, when asked, the Interim Mayor advised the audience that the cost of establishing a Council Controlled Organisation would be north of $13.0M. No summary breakdown of that headline figure was provided nor was there any offer to subsequently supply a breakdown of that headline figure. D. At one of the Community Information Sessions, the Interim Mayor advised a ratepayer that the proposed Board of our Council Controlled Organisation would definitely have local iwi representation on it. I cannot find this information in any Council-provided information source. E. Based on those considerations, I believe Council has knowingly and quite deliberately denied the District's residents/ratepayers sufficient critical information upon which they can come to an informed decision on this topic. F. For these reasons, there being only one other option that I can choose, I have chosen Option B - Status quo. In choosing this option I would like it placed on the record that I may well have provided different feedback (chosen a different option), if all of Central Governments five (5) options and the Morrison Low report had been provided for our consideration.

Q14. **Please choose your preferred option.** Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

My comments on volumetric charges. A. Council has presented an interesting argument with their preferred option; that ratepayers should choose Option A, especially if they are low or average water users, they will then cease to subside the District's high water users, those being properties that use over 700m3 of water per annum. B. Council makes the point that we are a District that uses a lot of water. Perhaps it has failed to register with Council's policy planners that vast areas of the District experience very low rainfall and very warm to hot conditions during the late Spring, Summer and early Autumn months; some would describe it as almost a desert-like environment. C. Council is, and has for a long time, been responsible for 3 waters planning and infrastructure delivery; it is one of its core responsibilities. Anyone surveying the District's built-up areas would see that many people enjoy having both a garden and a green lawn. The obvious enabler that allows us to live in this 'dry environment' and still be able to grow a garden and a have a lawn that is not wheaten in colour during the summer months is the use of water. D. I believe that Council has adopted a fundamentally flawed strategy to supply water to its ratepayer base. That fundamental flaw was to not design and progressively install a dual supply system; separate grey water and potable water supplies. E. As Council has signalled future consultation focused on water delivery, I will set out more detailed views on that subject within that specifc consultation process.

Q16. **Please select your preferred option.** Option C: Maintain Council support for specific halls and facilities on the list above.

Q39. Would you like to comment on another hall or facility?

My comments on Council divesting the community halls listed. A. This subject can induce a strong emotional or nostalgic reaction from some ratepayers. If one read only section 3 of Council's Consultation Document (CCD) they may conclude that if the costs defined in the spreadsheet table are accurate, then the combined operating costs, capital expenditure costs and earthquake strengthening costs of these facilities is really significant and makes Council recommendation of divestiture of them appear both rational and prudent. B. The Otago Daily Times printed an article on 10 April 2025 titled, 'Community wants council to own hall'. The article described opposition by a significant-looking proportion of Ophir's residents to the Council's proposal to divest itself of the Ophir Hall. The article described the predictable reaction of a group of locals facing the potential loss of their community's primary hub. But it also raised an interesting and important point. - ----------~ ~ C. The Ophir community has apparently raised a significant sum of money over the past few years, these monies being spent on the hall. The article was written in a manner that suggested that it was the ratepayers, rather than Council, who had installed brand new toilets, polished all the floor, upgraded the kitchen and installed new heat pumps. D. If the Otago Daily Times article is accurate, then for me it raises the question; Are there other buildings on Council's list, tagged for divestiture, where the facility has either 'regular' or 'moderate' bookings and the focal community's wish for it to continue as a community hub has been matched by their preparedness to either raise funds for improvements or both funded and even performed installation of said improvements? E. Council facilities that enjoy strong community support should possess a different status to facilities like the 'Clyde Police Lockup'. F. Council's decision to describe all the costs of operating these facilities as a cumulative figure covering a 9-year period makes each sum appear very large. Council's L TP is renewed every 3 years. Even just the variable and unknown rate of annual inflation should limit cost projections beyond the (L TP) Plan's life. G. So rather than me list particular Council-owned facilities worthy of special consideration, I believe that Council should properly consider then comprehensively set out the case for each facility to be either retained or divested (by Councillor decision). Criteria, like 'Identified community support', 'number of groups who regularly use the facility', 'likely higher use if (the facility) was known about as being rentable', should be added as criteria to provide a more balanced picture for future Councillor consideration.

Q40. Would you like to comment on the Centennial Milk Bar?

Q43. **Would you like to upload any supporting documents about halls and facilities?**	not answered
Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

My comments on Council taking over ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora. A. Having read the section of CCD relating to the Ida MacDonald Roxburgh Pool Punawai Ora, I was interested to see if the Council proposal included a financial adjustment that effectively reversed the decision made by Council, at the time of districtisation, that excluded Teviot Valley ratepayers from paying the District-wide cost of running community-owned swimming pools. While the CCD suggested that Council had made this adjustment, the Deputy Mayor verbally confirmed that Option A would reverse the Council decision made at the time of districtisation. B. Choosing Option A would result in saddling ratepayers with a new District-wide cost burden, it is a decision which I believe is justifiable. Without personal knowledge of all the machinations that proceeded the construction of this pool, I would imagine that the Teviot Valley community believed that a new pool was a desirable asset for the community to have and the Ida MacDonald Roxburgh Pool Punawai Ora Committee focused its attention on all the activities necessary to locate, design and build the pool, without perhaps detailed thought given to the potential challenges of running the facility. " C. Taken at face value, the CCD outlines the difficulties the Ida MacDonald Roxburgh Pool Punawai Ora Committee has faced whilst operating their new pool. Rather than 'turn our back' on the Committee's current plight, I believe the rest of the District's ratepayers should applaud their determination and self-help mindset that has seen the creation of this new, technologically efficient asset. - D. I believe that the ongoing average cost increase of $16.85+ per ratepayer simply brings forward a cost which we would inevitably have had to bear when Council had decided that Teviot Valley residents should have a pool facility equivalent to that enjoyed by the ratepayers of the other wards of the District.

Q46. **Which option do you prefer?**	Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

My comments on the Alexandra outdoor pool. A. During this consultation period, I have read multiple views from Alexandra residents regarding the potential closure of this outdoor pool. Most hold the view that they wish to retain the use of Alexandra's outdoor pool, and, without providing any hard evidence, believe that Council is 'fudging reality' when it advises that, 'staff have noticed a steady decline in the outdoor pool's use', and 'fudging the figures' when it advises that, 'the cost of running Alexandra's outdoor pool is $200,000 per annum ... '. I simply don't know whether their claims are valid or not, only that the people who have made these claims nave not backed them up with hard evidence. B. Again, these are difficult economic times. Council is again proposing a double-digit increase in its Rates Demands. For this reason my choice is Option A. C. I choose Option A because Council provides currently a perfectly adequate swimming pool for Alexandra's swimming/water sports community. I concur with Council's view here that there is no real reduction in the level of service if the Outdoor Pool is closed. D. I anticipate and look forward to seeing the 'credit' line item on our Rates Demand of $13.48. If there is no such line item on our Rates Demand notice I will form the view that Council has essentially achieved my agreement to its preferred option by the use of a deceptive offer.

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

My comments on the Manuherekia Valleys Community Hub A. I believe it is fundamentally wrong for the Options available to submitters to exclude a 'Do not support' option on this topic. The topic has been set up to allow only one key outcome. B. As there is no 'Do not support option', I will not set out rtiy reasoning. C. In the absence of a 'Do not Support' option, Option A makes sense to me because it would require the appropriate Ward (Vincent) to draw down its General Reserves fund.

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

My comment on the Supercars Championship Round A. I understand the CODC, as a member, was present at Local Government NZ (LGNZ) Conference held in August 2024. The Prime Minister delivered an address to Conference attendees on 21 August. During that address he told Councils that he, 'wanted a good partnership with councils but also to ensure that ratepayers funding was being used appropriately.' I believe that if he were presented with this proposal, our Prime Minister would categorise it as, 'inappropriate use of ratepayers funds'. B. These are difficult economic times. Council is again proposing a double-digit increase in its Rates Demands. I believe for Council to even participate in the process where it offered Supercars $250,000 to 'secure' the event for Highland Motorsporl Park both looks, and in my view is, recklessly extravagant. C. I understand that organisations like Supercars shamelessly engage in a process where they demand 'contribution' or 'support funding' in exchange for them agreeing to host their event in one place as opposed to another. This process simply plays one local authority or city off against another. This cynical process could be ended in a heartbeat if all NZ local authorities and cities simple agreed to cease participating in it. D. No matter how anyone attempts to justify the action of paying this bribe, the financial process of paying Supercars $250,000 is utilising accumulated Rates Demand monies. to facilitate a sporting event to come to our District. It is impossible for Council to ever justify, to the District's residents/ratepayers who have zero interest in Supercar racing, spending any portion of their Rates Demand monies for this purpose. E. If the businesses who would directly benefit from the running of this event want it to be run at Highland Motorsport Park, they should appoint a negotiation advocate and deal directly with Supercars. In this scenario Council could and should simply credit the differential rates already gathered, back to the domestic/commercial ratepayers who have built up the tourism reserves from which the 'contribution' would have been paid.

Q52. **Which option do you prefer?** Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

My comments on the Artificial Turf at Maniototo Area School A. Again, are difficult economic times. Council is again proposing a double-digit increase in my Rates Demand. " B. While it could be argued that it is Counsel's role to facilitate participation by young people within the District to play sport, no suggestion has been made in the CCD that students living in the Maniototo are denied the opportunity to play sport because of the absence of a top-quality artificial turf within their school's grounds. C. The CCD advises that there currently is a court surface, but that it 'has seen its best days'. That language indicates that there is some remaining life left in the court's surface. Options A and B would involve a further financial impost on residents and ratepayers across the whole District. Neither option looks attractive to this ratepayer, given the anticipated level of Rates Demand for the next financial year. This is the core reason that I rejected both Options A and B. D. What is not included in Council's Consultation document are the alternate sources of funding that could be pursued by the organising committee currently fundraising ' .. .for the remaining cost'. New Zealand's National Education Budget includes funding constructing sports turfs in primary and secondary schools through its KiwiSport program. Complimentary funding can apparently be sought from Sporl New Zealand via Sport and Recreation (SPARC) and regional sports trusts. Partial funding could also be sought from the Otago Community Trust. While I am sure that the organising committee is already eware of these funding sources, I raise their existence to make the point that Council choosing Option C on this subject does not automatically dash the likelihood of a replacement artificial sports turf being funded.

Q54. **Which option do you prefer?** Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

My comments on the Artificial Turf at Dunstan High School are similar, but not the same, as the comments made on the Artificial Turf at Maniototo Area School. A. Again, these are difficult economic times. Council is again proposing a double-digit increase in my Rates Demand. B. While it could be argued that it is a role of Counsel to facilitate the participation of young people in the District to play sport, no suggestion has been made in the Consultation document that students living in Alexandra or immediate surrounding areas are denied the opportunity to play sport because of the absence of a top-quality artificial turf within the Dunstan High School's grounds. C. The CCD suggests a quite different scenario to the proposal for the Maniototo School in that it advises that Molyneux Turf Incorporated (MT/) would obtain revenue from renting time on the completed turf court. I assume that that as the planned turf court would be constructed on the Dunstan High School's grounds, only non-school groups would be charged for its use. D. Council's Consultation document suggests that Molyneux Turf Incorporated (MT/) are well aware of the alternate sources of funding for this project. Because of its proposed location, in Alexandra, partial funding could be requested from both the Central Lakes Trust and the Otago Community Trust.

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

Preliminary Statement I have read the following items of communication put into the public domain by Council: 1) Council's flyer for this Consultation process that reads in part, 'Discussion topics' and then lists nine topics, the list starting with 'What's our Plan for Water'; 2) Council's website page; https://lets-talk.codc.govt. nz/what-s-important-central-otaqo-2025-34-long-term-plan; the page version as at 21 March 2025; 3) Council's website page; https://www.codc.govt.nz/yourcounci1/news?item=id:2t65e0ou91 cxbybl1 kff, the page version as at14 February 2025. On 18 March Deputy Mayor Neil Gillespie contacted me by phone. He advised me that Council was not conducting a li,mited consultation process and would consider submissions on subjects other than those previously defined in Council flyer and website communications. After repeatedly raising the issue of the incorrectness of those 'communications' advising that this consultation process was limited to the nine (9) topics defined by Council counteracted personally by the Deputy Mayor's verbal assurance that the consultation process included any subject included in the LTP, Council finally amended the 'Lets Talk' page of their website around 17 April. Anyone accessing the 'Lets Talk' page of Council's website prior to 17 April was therefore misinformed as to the range of subjects they were able to cover in their submission to Council. I believe this is an unacceptable outcome and that Council contact early submitters and, provide them with a timed opportunity to make further submission if they wish to. Anticipated Annual Rates Demand increases 32. 33. My comments in relation to proposals and content contained in the Revenue and Financing Policy 2025-2034. A. I can find nothing in this Policy that talks to the imperative, that whilst considering and approving any spend that would involve the use of income derived from general rates or targeted rates on the District's properties, Councillors primary objective is to cap overall annual spending to a level that equates to next years' general rates or targeted rates increase not exceeding the annual increase in the Consumers Price Index (CPI). B. I request that Council amend its Revenue and Financing Policy 2025-2034 so that it states that Councillors, whilst considering and approving any spend that would involve the use of income derived from general rates or targeted rates on the District's properties, their primary objective in making that decision is to cap overall annual spending to a level that equates to next years' general rates or targeted rates increase not exceeding the annual increase in the Consumers Price Index (CPI).

Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option B: Increase the volumetric charge to $1.80 per cubic metre, with the fixed charge at $639.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

It's mindful to consider that at $2.40 per cubic meter of water is a 400% increase on the current rate whilst the fixed charge only decreases by a mere 39%. Whilst user pays is the best way forward I think option B provides a more measured approach to soften the blow on water users. Whilst some households will benefit from a change to a higher user pays model, most households wont as per current modelling in the LTP. It's the young families with 2-3 kids who all need showered and bathed each day that will feel significant rises in their water bill of which they have very little control (kids get dirty). It is also important to consider the implications on the sports ground and golf club who are on town supply.

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17. **Which hall/facility would you like to comment?**	Millers Flat Hall

Q18. **Would you like to comment on the Ophir Hall?**

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

Irrespective of recent events in Roxburgh this hall should be maintained under the status quo arrangement that exist's between CODC and the Millers Flat hall committee. Council should recommit to the proposed EQ strengthening of this building that was proposed to be undertaken in the previous LTP. Key points The versatility of the hall itself, a large hall with bench seating and elevated stage provides a great venue for large gatherings and performances- I note tonight (16th Dec) the MF school prizegiving end of year concert is being held and the car park was filled 4 rows deep with cars (40+ vehicles). The front of the hall provides a very versatile soft meeting area with a decent size commercial kitchen/catering area. The hall itself is used very frequently in comparison to other country halls, at 82-128 times per year which equates to 1.5-2.5 bookings/uses per week. The hall provides the meeting space for the majority if not all community groups and clubs in the lower Teviot region- including but not limited to. Teviot Valley Water Care group Millers Flat Rodeo Club Millers Flat Collie Club Millers Flat Coffee Group In addition to the above, rural groups/organizations such as Beef and Lamb NZ are frequent users of the hall when providing extension services and workshops to farmers and rural professionals in the wider region. Millers Flat hall is a preferred venue given its large meeting area, projector and its central location to the rural community in the lower Central Otago/West Otago and Lawrence area. National meat processors have in the past chosen the Millers Flat hall to deliver producer roadshows given the location and standard of facilities the hall provides. One other major event is the annual Millers Flat 7 a side tournament, this year was a record event with 1000 participants, an event not capable of being run without the facilities the hall provides (Kitchen, change rooms, public toilets, general HQ operations). One off major events, such as the 2023 Cavalcade wouldn't be possible without the facilities provided by the MF Hall. Events like these can raise significant money for the community, in this instance significant donations were provided to the MF memorial war baths(18k) and bakehouse (10K) The hall has done so in the past (1995 & 1999 floods) and no doubt in the future will be the focal point in a CD emergency. Given that a major flood would cut off the east side of the valley, it will be a very important consideration to keep a council maintained CD and community hub on this east side of the Clutha River should a major flood occur which would cause the community to be cut off from services and facilities on the west side of the river. Lastly the view of the community is that this has been and will remain a critical and essential community facility for all residents, rural/urban young and old. The hall is one of, if not the only council owned and maintained community facility in this part of the Teviot ward and one that the community has a very strong connection to given the role it has played in fostering the social fabric of a sparsely populated, vibrant, predominantly rural community.

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?** Option B: Do not support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

This issue was only brought to the attention of the community in December 2024. The full impact on every rate payer in the Teviot ward wasn't known until the LTP was notified in March. The is widespread angst and dismay that the wider community hasn't had an opportunity to come forward with a practical low cost solution to the alternative being proposed (Council owned and operated). I believe a community solution is in the works and is very close to being presented to the current pool committee for consideration. The rating impact is large and will be ongoing, the community wants and deserves that this issue is given an off season (winter) for a practical low cost solution to be properly considered and implemented.

Q46. **Which option do you prefer?** Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

Only if matched by QLDC as the benefits of this event will be dispersed to their district as well.

Q52. **Which option do you prefer?**	Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	The News - Central Otago Teviot Bulletin Central App

Q1.	**I'm registered for Let's Talk**	Yes. Please skip past the demographic questions and click next at the bottom of the page.
Q2.	**First name**	not answered
Q3.	**Last name**	not answered
Q4.	**Email address**	not answered
Q5.	**What is your connection to the Central Otago District?**	not answered
Q6.	**Where do you live?**	not answered
Q7.	**What year were you born?**	not answered
Q8.	**What gender do you identify with most?**	not answered
Q9.	**I am submitting**	as an individual
Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

I think there's too many unknowns with the CCO to vote for it. As stated in the document CODC don't yet know if the CCO will be CODC only or in collaboration with other councils in the region. If the CCO involves QLDC does their water woes, and coming massive problems with water in the 'southern corridor' become the dominant burden of the proposed regional CCO? Far too many unknowns! How can CODC claim this will be cheaper when we may find ourselves overshadowed by the water woes in other districts within the region?

Q14.	**Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

I have little control over how much water I use as our property is allocated 1 cubic meter per day - enforced through a restrictor. Increasing the charge per cubic meter will make no difference to my use if water. CODC should consider rural users on with restrictions who will pay more through options a or b but can't actually change their behavior due to current limitations. Could we not be priced separately to other users? It is unfair to push up my costs when I'm most likely a lower water user than the average rate payer.

Q16. **Please select your preferred option.** Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?** not answered

Q18. **Would you like to comment on the Ophir Hall?**

not answered

Q19. **Would you like to comment on the Poolburn Hall?**

Q44. **Which option do you prefer?** Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

not answered

Q46. **Which option do you prefer?** Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?** Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?** Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

CODC had declared a climate crisis. How on earth then can CODC's preferred option be option A? The two simply don't align. Supercars and the associated international tourism with Supercars is harmful to climate. There's no way to get around the hypocrisy of CODC on this one. CODC must show that it has a backbone on their climate crisis declaration, otherwise the declaration just looks like virtue signaling or worse, greenwashing.

Q52. **Which option do you prefer?** Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

Yes, support this as it is for education and wider community.

Q54. **Which option do you prefer?** Option A: Provide a $300,000 grant rate funded in the 2025/26 financial year

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

Yes, support this as it is for education and wider community

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

Q10.	**Do you want to speak to your submission at a formal meeting?**	no
Q11.	**Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12.	**Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.
Q13.	**Would you like to comment on our plan for water?**	not answered
Q14.	**Please choose your preferred option.**	not answered
Q15.	**Would you like to comment on volumetric charges?**	not answered
Q16.	**Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.
Q17.	**Which hall/facility would you like to comment?**	Poolburn Hall

Q18. Would you like to comment on the Ophir Hall?

not answered

Q19. Would you like to comment on the Poolburn Hall?

The hall is very important for the community especially the local school. We would not be able to hold prizegivings, performances, playgroups and many other things. The school does not have an area big enough to do these things

Q20. Would you like to comment on the Clyde Police Lockup?

not answered

Q21. Would you like to comment on the Clyde Railway Station Building?

not answered

Q22. Would you like to comment on the Former Clyde Museum Stables & Goods Shed?

not answered

Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option A: Increase the volumetric charge to $2.40 per cubic metre, with the fixed charge of $509.24 per connection.

Q15. **Would you like to comment on volumetric charges?**

not answered

Q16. **Please select your preferred option.**	Option C: Maintain Council support for specific halls and facilities on the list above.

Q17. **Which hall/facility would you like to comment?**

Ophir Hall
Poolburn Hall
Clyde Hall
Becks Hall
Ranfurly Hall
Naseby Hall
Patearoa Hall
Waipiata Hall
Ranfurly Service Centre
Millers Flat Hall

Q18. **Would you like to comment on the Ophir Hall?**

great venue for music and theatre shows. The hall has had alot spent on it in recent years with toilet stage and kitchen upgrades and now present as a modern cosy local quirky hall.

Q19. **Would you like to comment on the Poolburn Hall?**

focal point for local community

Q20. **Would you like to comment on the Clyde Police Lockup?**

not answered

Q21. **Would you like to comment on the Clyde Railway Station Building?**

not answered

Q22. **Would you like to comment on the Former Clyde Museum Stables & Goods Shed?**

not answered

Q23. **Would you like to comment on Blyth Street Museum, Clyde?**

not answered

Q24. **Would you like to comment on Clyde Hall?**

Lots of use for theatre and dance groups.

Q25. **Would you like to comment on Becks Hall?**

focal point for local community. Has been upgraded in recent years and now a great venue for field days, meetings and presentation etc

Q26. **Would you like to comment on Vallance Cottage?**

not answered

Q27. **Would you like to comment on the Riding for the Disabled?**

not answered

Q28. **Would you like to comment on the Former Clyde Briar & Herb factory, and cottage?**

not answered

Q29. **Would you like to comment on the Ranfurly Hall?**

focal point for local community

Q30. **Would you like to comment on the Naseby Hall?**

focal point for local community

Q31. **Would you like to comment on the Patearoa Hall?**

focal point for local community

Q32. **Would you like to comment on the Waipiata Hall?**

focal point for local community

Q33. **Would you like to comment on the Wedderburn Hall?**

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

focal point for local community

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

not answered

Q36. **Would you like to comment on the Roxburgh Squash Court Building?**

not answered

Q37. **Would you like to comment on the Fenton Library?**

not answered

Q38. **Would you like to comment on the Naseby General Store?**

not answered

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

not answered

Q41. **Would you like to comment on the Ranfurly Service Centre?**

I thought Council would need to have this building to continue their presence in the town.

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

not answered

Q43. **Would you like to upload any supporting documents about halls and facilities?** not answered

Q44. **Which option do you prefer?**	Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. **Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?**

This pool has recently had a large investment in its upgrade and refurbishment. I wonder why the continued cost of running the pool was not considered before this investment was made.?

Q46. **Which option do you prefer?**	Option A: Close and decommission the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

not answered

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

Its going to be a great facility and i forsee alot of use.

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

Supercars are a vastly popular sport and can look after themselves

Q52. **Which option do you prefer?**	Option A: Provide a $200,000 grant, rate funded in the 2026/27 financial year.

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

not answered

Q54. **Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option A: Create a Council Controlled Organisation (CCO) from 1 July 2027.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

Keep charge at 60c per metre considering Clyde/Alexandra were promised when the dam was built would NEVER have to pay for water!!

Q16. **Please select your preferred option.**	Option B: Maintain the current level of support that Council provides for all of the halls and facilities listed above.
Q17. **Which hall/facility would you like to comment?**	not answered

Q1. **I'm registered for Let's Talk**	No. Please complete the demographic questions below.
Q2. **First name**	Jo
Q3. **Last name**	Shaw
Q4. **Email address**	[redacted]
Q5. **What is your connection to the Central Otago District?**	I'm a Central Otago District ratepayer
Q6. **Where do you live?**	Cromwell Ward
Q7. **What year were you born?**	not answered
Q8. **What gender do you identify with most?**	[redacted]
Q9. **I am submitting**	as an individual
Q10. **Do you want to speak to your submission at a formal meeting?**	no
Q11. **Please provide your daytime phone number and email. We will be in touch to confirm the date and time of the meeting. The hearings will be held on 15-16 May 2025.**	not answered
Q12. **Please choose your preferred option.**	Option B: Status quo. Water services continue to be owned, maintained and delivered by Council.

Q13. **Would you like to comment on our plan for water?**

not answered

Q14. **Please choose your preferred option.**	Option C: Status quo. Retain the charge at 60 cents per cubic metre, with a fixed charge at $843.54 per connection.

Q15. **Would you like to comment on volumetric charges?**

It would be preferable not to have the yearly charge at all - its disgusting that the council should propose such pricing under the guise of giving us a choice.

Q16. **Please select your preferred option.**	not answered
Q17. **Which hall/facility would you like to comment?**	not answered

Q18. Would you like to comment on the Ophir Hall?

not answered

Q19. Would you like to comment on the Poolburn Hall?

not answered

Q20. Would you like to comment on the Clyde Police Lockup?

not answered

Q21. Would you like to comment on the Clyde Railway Station Building?

not answered

not answered

Q35. Would you like to comment on the Millers Flat Bowling Club?

not answered

Q36. Would you like to comment on the Roxburgh Squash Court Building?

not answered

Q37. Would you like to comment on the Fenton Library?

not answered

Q38. Would you like to comment on the Naseby General Store?

not answered

Q39. Would you like to comment on another hall or facility?

not answered

Q40. Would you like to comment on the Centennial Milk Bar?

not answered

Q41. Would you like to comment on the Ranfurly Service Centre?

not answered

Q42. Would you like to comment on the Wallace Memorial Rooms?

not answered

Q43. Would you like to upload any supporting documents about halls and facilities? not answered

Q44. Which option do you prefer? Option A: Support Council ownership and management of the Ida MacDonald Roxburgh Pool Punawai Ora.

Q45. Would you like to provide comments on the Ida MacDonald Roxburgh Pool Punawai Ora?

not answered

Q46. Which option do you prefer? Option B: Retain the outdoor pool in Alexandra.

Q47. Would you like to provide comments on the Alexandra outdoor pool?

This pool adds valuable learning and recreation space to the community without overcrowding indoor facilities in the summertime. Its great to see such a wide variety of sports utilising these pools.

Q48. Which option do you prefer? not answered

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option A: Agree to provide a $250,000 grant funded through the tourism reserves.

Q51. **Would you like to provide comments on the Supercars Championship?**

This kind of event really helps put Cromwelll on the map as a tourist destination. Any way council can support Highlands is good for Cromwell in my opinion - its a 5* tourist attraction here and this event has potential to be lucrative for both.

Q52. **Which option do you prefer?**	Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Maniototo Area School?**

not answered

Q54. **Which option do you prefer?**	Option B: Provide a $300,000 grant loan funded over a period of 10 years

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	**Other (please specify)** saw it at Cromwell and Alexandra pool facilities

not answered

Q34. **Would you like to comment on the Millers Flat Hall?**

not answered

Q35. **Would you like to comment on the Millers Flat Bowling Club?**

When the list of buildings to be considered for divestment was created, the Millers Flat Sports & recreation Hub project had not been heard of by the CODC buildings team Significant progress has now been made on this project and an upgrade to the grounds has been proposed by CODC Parks & Reserves and approved by the TVCB Due to timing unknows, the Pavillion was not included in the MF S&R Hub project. Until the outcome of funding requests is known, we cant move any further forwards. We expect that to be in September. · If we are successful, we see the pavilion as being of some benefit to enhance the overall ambience and amenity of the hub for participants and spectators. We see the potential usage as follows : • Sun Deck use for spectators and tennis/ pickle ball/ netball participants • Changing rooms and toilets useful when we have pre-planned events. (not open on 'normal' public use days) • Same for kitchen for cups of tea and light food provision o Committee member key holders may open those facilities under their management • Maintenance sheds would be used to store equipment such as nets and minor maintenance gear. Again these would be under key holder management. • Main pavilion hall may be used on pre-planned occasions to support a sports tournament, event or Sports Hub fundraiser. (not for general hi rage outside of this) Subject to further discussion, we anticipate a lease may be signed and agreements made regarding such pre-requisites as retaining wall and sump. We also anticipate our committee would undertake minor maintenance as an agreed undertaking in return for the granting of a lease. With this in mind, we suggest that divestment of the pavilion decision be deferred until the potential lease option is considered, or until the 2027/36 LTP.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

Subject: Urgent Concerns Regarding the Potential Closure of the Alexandra Outdoor Pool Dear Councillors, I am writing to express my deep concern and disappointment regarding the proposal to close our local outdoor pool, in Alexandra. As a resident of Clyde, I believe this facility is a vital community asset, especially given our region's consistently hot summer climate, one of the hottest in New Zealand. The council's justification for the closure, citing low usage numbers, is frankly unacceptable. Several factors contribute to the pool's underutilization, all of which could be easily addressed: • Lack of Heating: The pool, particularly the toddler pool, is unheated. This makes it uncomfortably cold for much of the swimming season, especially for young children. • Inadequate Shade: The lack of sufficient shade around the pool area makes it unbearable on hot days, discouraging families from spending time there. • Unsuitable Grounds: The clover-filled grass area is not conducive to relaxation and makes it difficult for patrons to find a comfortable place to sit. • Staff Morale: It has been observed that staff meribers appear unhappy and unmotivated.to be outside which undoubtedly impacts the overall atmosphere of the outdoor pool. Having recently returned from New South Wales, Australia, where they experience similar summer conditions, I was impressed by their commitment to providing high-quality outdoor aquatic facilities. They have invested in heated, covered pools, especially for children, and created engaging water play areas. These facilities are clearly valued and well-used by the community. I urge the council to reconsider this short-sighted proposal. Closing the pool demonstrates a lack of understanding of the needs of our community, especially families with young children. Instead of closing it, I implore you to invest in improving the facility by: • Installing heating, particularly in the toddler pool. • Providing ample shade around the pool area. • Improving the grounds to create a more inviting and comfortable environment. • Supporting and motivating staff to create a positive atmosphere. Why doesn't our council value its children and residents enough to maintain and improve this essential community facility? I urge you to reconsider this decision and invest in the health and well-being of our community. I have enclosed some photos of this beautiful pool in a small town where they obviously value children and provide a fun safe play area for parents to take them to.

Q48. **Which option do you prefer?** not answered

Q51. **Would you like to provide comments on the Supercars Championship?**

I read in local newspapers that the Council are thinking of giving our ratepayer funds to Highlands - Don't you Dare. What an unthinkable thing to do when we are struggling with our increased rates, and the talk is the rates are going to increase next year as well. Highlands Motorsport Park is a business, a very successful business. Yes it would bring money into Cromwell businesses - but using our money that we struggle to pay. The recent "windfall" of $400,000 should be for us, spend it upgrading footpaths, fixing water pipe problems, put it in the long term plan fund so our rates don't keep going up, etc. What a stupid idea to give money to a successful business.

I don't support taking on the Roxburgh Pool if the outdoor pool in Alexandra is closed. If both can be maintained I support taking it on

Q46. **Which option do you prefer?** — Option B: Retain the outdoor pool in Alexandra.

Q47. **Would you like to provide comments on the Alexandra outdoor pool?**

The outdoor pool is a great asset to the community. I travel from Cromwell to Alexandra to swim in it. The other outdoor pools are further away for me

Q48. **Which option do you prefer?**	Option A: Provide additional funding of up to $1.6 million towards the construction of the Manuherekia Valleys Community Hub, funded from Vincent General Reserves.

Q49. **Would you like to provide comments on the Manuherekia Valleys Community Hub?**

not answered

Q50. **Which option do you prefer?**	Option C: Do not support

Q51. **Would you like to provide comments on the Supercars Championship?**

I don't think Cromwell has the accommodation services to support the event locally

Q52. **Which option do you prefer?**	Option C: Do not support

Q53. **Would you like to provide comments on the Artificial Turf at Manlototo Area School?**

I don't support artificial turf in general

Q54. **Which option do you prefer?**	Option C: Do not support

Q55. **Would you like to provide comments on the Artificial Turf at Dunstan High School?**

not answered

Q56. **Long-term Plan Policies Would you like to provide comments on the following policies as outlined on pages 34 - 41 of the consultation document?- Fees and charges- Development and Financial Contributions Policy- Revenue and Financing Policy- Significance and Engagement Policy**

not answered

Q57. **Other commentsDo you have any other comments to make in relation to the key proposals and content of the draft 2025-2034 Long-term Plan?**

not answered

Q58. **Would you like to upload any supporting documents?**	not answered
Q59. **How did you hear about this engagement opportunity? You may tick more than one.**	not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

I am signing this letter to accompany the Community Feedback support form as I believe the key buildings in Ranfurly should be retained. The Centennial Milk Bar is an important asset to our community for several reasons: • Visitor numbers are approximately 4,000 per year • It exemplifies the Art Deco flavour of the Maniototo and promotes tourism, which positively impacts local businesses • The Art Deco Museum is staffed by unpaid volunteers with local knowledge. They regularly provide advice to visitors, especially when the Visitor Centre is closed • The Centennial Milk Bar was opened in 1948 to recognize Central Otago's Centenary. This highlights our deep community links • As the only Art Deco Museum in the Southern Hemisphere, we are visited by local schools and tourist coaches • Our historical collection is donated or loaned by Maniototo families and provides an outstanding educational resource for Local Context studies • As our building does not have earthquake strengthening issues, we have the potential, if assured of our future, to explore other options such as an 'Artist in Residence' in our upstairs area or a Community Venue • Additionally, the building contains an Opportunity Shop that generates funds for charities and supports local community initiatives. Also, a beautician offers skin care and well-being services, empowering individuals to feel confident and engaged in their community • The capital expenditure proposed for the Centennial Milk Bar is minimal and running costs are already supplemented by rental income received from user groups providing exceptional community service. In summary the Centennial Milk Bar building is a cornerstone of our community's heritage. Retaining this building not only preserves a vital piece of our local history but also continues to offer significant benefits to the community. The Art Deco Museum, with its unique collection and educational value, attracts thousands of visitors annually, boosting local tourism and business. The volunteer-run museum and the Opportunity Shop within the building provide essential services and support to both tourists and residents, fostering a strong sense of community and charity. The minimal capital expenditure needed to maintain the building, combined with the income from tenants, ensures that it remains a sustainable and valuable asset for the community. The potential for future initiatives such as an 'Artist in Residence' or a Community Venue further enhances its value. Overall, the Centennial Milk Bar building is not just a historical landmark but a living, thriving part of our community that deserves to be. preserved for future generations. I believe that the Centennial Milk Bar building should be retained.

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered

Q42. **Would you like to comment on the Wallace Memorial Rooms?**

CENTRAL OTAGO DISTRICT COUNCIL LONG TERM PLAN: I am signing this letter to accompany the Community Feedback support form as I believe that key buildings in the Maniototo district should be retained. The Wallace Memorial Building is an important asset to our community for several reasons: • A memorial space that must be kept by the Community: The Wallace rooms, built in 1953 with donations from James Wallace and the Maniototo Women's Group, initially served as Women's Rest and Plunket Rooms, offering indoor toilets for adults and toddlers and a resting place with Plunket services. It also provides access to toilets near the children's playground. The adjoining flat housed the local Plunket Nurse. Now, various community groups and specialists use it for activities and services such as physiotherapy, optometry, smoking cessation groups, and social agencies. These groups pay a rental fee to CODC for usage. • Generates Income to cover running and capital costs: The Wallace rooms have a self-contained flat that generates consistent income for CODC. Operational costs are minimal. Rental income from the unit and room users helps cover these costs. • Groups find the meeting rooms ideal for small gatherings. They are easy to heat and pertectror small to medium-sized meetings. The rooms are well utilized. • Structurally sound and not prone to earthquakes. • The Wallace Memorial rooms are structurally sound, well-maintained, and located on freehold land. with no need for expensive earthquake strengthening • Accessibility • The building offers accessible angle parking in front and is a single-story structure on a level surface. This design allows users to safely enter and exit the building. Many users are elderly, and the accessibility supports their continued confidence and independence in the community. • Maniototo Bridge Club: As Users of the Building: The Maniototo Bridge Club has used the Wallace rooms for weekly bridge sessions on Wednesdays and monthly team competitions from February to December for approximately 15 years. The building's size is ideal for our club membership, and amenities like a new heat pump, LED lighting, and ample storage make it an ideal space for card playing. The adjoining kitchen is perfect for preparing light suppers, enhancing the social experience. More recently beginner lessons have been run from the venue and provide a quiet space for learning. • Promotion of the building could increase usage: The space is ideal for smaller community groups or visiting specialist visiting the Maniototo. It offers an insulated, heated and well-lit area with no alternative or similar size in the area The Wallace Memorial Rooms are an asset to our community. Preserving this building maintains local history and offers benefits through minimal maintenance costs and tenant income, ensuring sustainability. Its potential for future use further increases its value, deserving preservation for future generations. The current level of Council support should continue.

Q39. **Would you like to comment on another hall or facility?**

not answered

Q40. **Would you like to comment on the Centennial Milk Bar?**

I am signing this letter to accompany the Community Feedback support form as I believe the key buildings in Ranfurly should be retained. The Centennial Milk Bar is an important asset to our community for several reasons: • Visitor numbers are approximately 4,000 per year • It exemplifies the Art Deco flavour of the Maniototo and promotes tourism, which positively impacts local businesses • The Art Deco Museum is staffed by unpaid volunteers with local knowledge. They regularly provide advice to visitors, especially when the Visitor Centre is closed • The Centennial Milk Bar was opened in 1948 to recognize Central Otago's Centenary. This highlights our deep community links • As the only Art Deco Museum in the Southern Hemisphere, we are visited by local schools and tourist coaches • Our historical collection is donated or loaned by Maniototo families and provides an outstanding educational resource for Local Context studies • As our building does not have earthquake strengthening issues, we have the potential, if assured of our future, to explore other options such as an 'Artist in Residence' in our upstairs area or a Community Venue • Additionally, the building contains an Opportunity Shop that generates funds for charities and supports local community initiatives. Also, a beautician offers skin care and well-being services, empowering individuals to feel confident and engaged in their community • The capital expenditure proposed for the Centennial Milk Bar is minimal and running costs are already supplemented by rental income received from user groups providing exceptional community service. In summary the Centennial Milk Bar building is a cornerstone of our community's heritage. Retaining this building not only preserves a vital piece of our local history but also continues to offer significant benefits to the community. The Art Deco Museum, with its unique collection and educational value, attracts thousands of visitors annually, boosting local tourism and business. The volunteer-run museum and the Opportunity Shop within the building provide essential services and support to both tourists and residents, fostering a strong sense of community and charity. The minimal capital expenditure needed to maintain the building, combined with the income from tenants, ensures that it remains a sustainable and valuable asset for the community. The potential for future initiatives such as an 'Artist in Residence' or a Community Venue further enhances its value. Overall, the Centennial Milk Bar building is not just a historical landmark but a living, thriving part of our community that deserves to be. preserved for future generations. I believe that the Centennial Milk Bar building should be retained.

Q41. **Would you like to comment on the Ranfurly Service Centre?**

not answered
